Moon Manual Mar 30 2020 There is renewed interest in the Moon in recent years, with the news that a Chinese lunar rover landed on the Moon in January 2014, and NASA announcing that it is looking for private partners to land a robot on the Moon's surface, as the first step in a programme to exploit the commercial opportunities offered by the Moon. Recent lunar expeditions by both orbiting spacecraft and 'landers' have uncovered far more detail about the Moon's surface and geology, including the trail of Neil Armstrong's first walk on the Moon in 1969. This manual explains in simple and straightforward terms, with a wealth of illustrations and photographs, what we have discovered about the Moon over the centuries, along with a general overview of the vehicles involved in the exploration.

[The Owner's Manual for Christians](#) Oct 17 2021 Best-selling author Charles Swindoll uses clear, biblical teaching and pastoral instruction to show Christians the essentials of the Christian life. The instant after salvation, the new believer's question is: "What next? How should I live now that my life has changed?" What they discover, and what every Christian discovers, is that living a life that glorifies God requires mastering some basics, nothing more and nothing less. Yet most honest Christians would say that sin persists in their lives, and walking the walk can be harder than it looks. Written for all believers, [The Owner's Manual for Christians](#) captures the essentials of the Christian life in simple, inspiring terms. Clear biblical teaching and pastoral instruction encourage readers onto the Christian life they long for . . . and can have. It just takes a God-given desire for obedience and the practical applications this book teaches. This will be a must-have for every Christian for years to come.
