[Chartwell Manor](#) Apr 02 2020 No one asks for the childhood they get, and no child ever deserved to go to Chartwell Manor. For Glenn Head, his two years spent at the now-defunct Mendham, NJ, boarding school — run by a serial sexual and emotional abuser of young boys in the early 1970s — left emotional

scars in ways that he continues to process. This graphic memoir — a book almost 50 years in the making — tells the story of that experience, and then delves with even greater detail into the reverberations of that experience in adulthood, including addiction and other self-destructive behavior. Head tells his story with unsparing honesty, depicting himself as a deeply flawed human struggling to make sense of the childhood he was given.

The Last American Hero Jun 16 2021 On February 20, 1962, John Glenn became a national star. That morning at Cape Canaveral, a small-town boy from Ohio took his place atop a rocket and soared into orbit to score a victory in the heavily contested Cold War. The television images were blurry black-and-white phantoms. The cameras shook as the rocket moved, but by the end of the day, one thing was clear: a new hero rode that rocket and became the center of the world's attention for the four hours and fifty-five minutes of his flight. He became celebrated in all corners of the world as not just the first American to orbit the Earth, but as the first space traveler to take the human race with him. From that day forward, Glenn restively wore the hero label. Wherever he went, people knew his name and what he had done. Refusing to let that dramatic day define his life, he went on to become a four-term US senator—and returned to space at the age of seventy-seven. *The Last American Hero* examines the many layers that formed the man and unravels the reasons for his singular role. He was a creation of the media, in some ways, but he was also a

product of the Cold War. Not even Glenn himself seemed to fully understand his celebrity. He was a war hero, a two-time astronaut, a veteran senator, a devoted husband, a father, and much more. At a time when increasingly cynical Americans need heroes, his aura burns brightly in American memory. *Snow Wolf* Dec 31 2019 On hearing the Soviet Union's dictator, Joseph Stalin, is preparing a nuclear strike against America, the U.S. parachutes two agents--Alex and Anna--to assassinate him. When the U.S. learns the Russians have discovered the plot, a man is sent to kill the agents, but with the help of a renegade Soviet general, Alex and Anna outwit everyone and penetrate the Kremlin.

American Miler Sep 07 2020 Glenn Cunningham set the world record for the mile in the 1930s. But as a boy, he had been terribly burned in a schoolhouse fire, a fire that took the life of his older brother Floyd. And that is when Glenn's life quest began. He was bed-ridden for months. The

doctors thought he might never walk again. But he recovered, slowly, agonizingly, with fierce determination—and within a year was both walking and running. Huge burn scars covered his legs. In high school, he was a champion athlete, and set a world high school record in the mile. He went on to be one of America's greatest runners, setting records and winning races with astonishing ease. His story, however, is now largely forgotten—but it is an inspiring and timeless one that bears telling in our modern age. Throughout the book there is a portrait of sportsmanship and decency rarely seen these days. And how Glenn Cunningham spent his life after track is just as inspiring as his accomplishments on the track. Paul Kiell has created a detailed, dramatic biography of this extraordinary American athlete. "American Miler inspires while capturing the power of the human spirit! Kiell's prose and accompanying period photographs vividly chronicle Cunningham's heroic determination in the face of physical challenge. A great American story of forging strength from hardship." —Trisha Meili, author, I Am the Central Park Jogger: A Story of Hope and Possibility "Dr. Kiell has written the definitive biography of a giant figure in American sport who became a vital influence in many young lives." —Robert J. Corrigan, author, Tracking Heroes: 13 Track & Field Champions "Glenn Cunningham refused to let adversity keep him from his goals. His life is an inspiration

to athletes in any sport, and to anyone with the will to succeed in the face of overwhelming odds. Thank you, Dr. Kiell, for sharing his story so beautifully.” —Richard Traum, Ph.D., Founder and CEO, Achilles Track Club “Dr. Kiell’s comprehensive portrayal of Glenn’s outstanding athletic career and personal life enables the reader to appreciate the exploits and character of this great American hero—Cunningham the athlete and Cunningham the man.” —Howard Schmertz, Millrose Games Meet Director Emeritus “American Miler has brought my teammate back to life: The race is on. I feel again the ache of muscle, the sear of lung, the sting of cinders as we stride. I hear, too, our cheering Jayhawks urging Glenn to yet another record; and I remember Cunningham as a friend, the noblest of the best.” —Paul Borel, former classmate and teammate of Glenn Cunningham

The Overton Window Sep 19 2021 A plan to destroy America, a hundred years in the making, is about to be unleashed . . . can it be stopped? There is a powerful technique called the Overton Window that can shape our lives, our laws, and our future. It works by manipulating public perception so that ideas previously thought of as radical begin to seem acceptable over time. Move the Window and you change the debate. Change the debate and you change the country. For Noah Gardner, a twentysomething public relations executive, it's safe to say that political theory is the furthest thing from his mind. Smart, single, handsome, and insulated from the world's problems by the wealth and power of his father, Noah is far more concerned about the future of his social life than the future of his country. But all of that changes when Noah meets Molly Ross, a woman who is consumed by the knowledge that the America we know is about to be lost forever. She and her group of patriots have vowed to remember the past and fight for the future—but

Noah, convinced they're just misguided conspiracy-theorists, isn't interested in lending his considerable skills to their cause. And then the world changes. An unprecedented attack on U.S. soil shakes the country to the core and puts into motion a frightening plan, decades in the making, to transform America and demonize all those who stand in the way. Amidst the chaos, many don't know the difference between conspiracy theory and conspiracy fact—or, more important, which side to fight for. But for Noah, the choice is clear: Exposing the plan, and revealing the conspirators behind it, is the only way to save both the woman he loves and the individual freedoms he once took for granted. After five back-to-back #1 New York Times bestsellers, national radio and Fox News television host Glenn Beck has delivered a ripped-from-the-headlines thriller that seamlessly weaves together American history, frightening facts about our present condition, and a heart-stopping plot. *The Overton Window* will educate, enlighten, and, most important, entertain—with twists and revelations no one will see coming.

of bed before teatime." So begins *The International*. Danny Hamilton takes us back over three troubled decades to one wonderfully ordinary Saturday, in January 1967, when his 18-year-old self had no idea — most people had no idea — that ordinary days in Belfast would soon become tragically rare. Ordinary, but packed with extraordinarily observed characters; and extraordinary enough for Danny to fall in love twice (and think about sex a few more times than that). Ordinary, but when someone calls out "Be careful" in parting, no one takes it lightly and for good reason. First published in the UK in 1999, and reissued by Blackstaff in 2008, *The International* is a timeless novel: funny, bawdy, deftly crafted, and heartwrenchingly humane. Featuring an essay "On Reading *The International*" by Man Booker-Prize winner Anne Enright

Chasing the Scream Mar 14 2021 THE NEW YORK TIMES BESTSELLER It is now 100 years since drugs were first banned. On the eve of this centenary, journalist Johann Hari set off on an epic three-year, 30,000-mile journey into the war on drugs to uncover its secrets - and he found that there is a startling gap between what we have been told and what is really going on. As strange as it may seem at first, drugs are not what we have been told they are; addiction is not what we think it is; and the drug war has very different motives to the ones we have seen on our TV screens. In *Chasing the Scream*, Hari reveals his startling discoveries entirely through the true and shocking stories of people across the world whose lives have been transformed by this war. They range from a transsexual crack dealer in Brooklyn searching for her mother, to a teenage hit-man in Mexico searching for a way out. It begins with Hari's discovery that at the birth of the drug war, Billie Holiday was stalked and killed by the man who launched this crusade - while it ends with the story of a brave doctor who has led his country to decriminalize every drug, from cannabis to crack, with remarkable results. *Chasing the Scream* lays bare what we really have been chasing in our century of drug war - in our hunger for drugs, and in our attempt to destroy them. This book will challenge and change how you think about the most controversial - and consequential - question of our

time.

John Glenn: A Memoir Nov 09 2020 He was the first astronaut to orbit the Earth. Nearly four decades later, as the world's

oldest astronaut, his courage reveted a nation. But these two historical events only bracketed a life that covers the sweep of an extraordinary century. John Glenn's autobiography spans the seminal events of the twentieth century. It is a story that begins with his childhood in Ohio where he learned the importance of family, community, and patriotism. He took these values with him as a marine fighter pilot during World War II and into the skies over Korea, for which he would be decorated. Always a gifted flier, it was during the war that he contemplated the unlimited possibilities of aviation and its frontiers. We see the early days of NASA, where he first served as a backup pilot for astronauts Alan Shepard and Gus Grissom. In 1962 Glenn piloted the Mercury-Atlas 6 Friendship 7 spacecraft on the first manned orbital mission of the United States. Then came several years in international business, followed by a twenty-four year career as a U.S. Senator-and in 1998 a return to space for his remarkable Discover mission at the age of seventy-seven.
