The Wish Giver Dec 12 2020 A Newbery Honor Book that the New York Times called "an eerie delight," *The Wish Giver* is an engaging literary folk story about those who get what they wish for—whether they want it or not. The people of Coven Tree are no strangers to magic. In fact, the town's very name comes from a gnarled old tree where covens of witches used to gather. Even now, imps and fiends continue to appear, frightening the townsfolk with their devilish pranks. Usually these creatures are easy to spot. They have a particular smell, or sound, or way of moving, that betrays their dark nature. But Thaddeus Blinn showed none of these signs when he came to Coven Tree. He was just a funny little man who drifted into town with a strange tale about being able to give people whatever they wished—for only fifty cents. There was nothing scary about him. At least, not until the wishing began...

Waking Up Sep 28 2019 For the millions of Americans who want spirituality without religion, Sam Harris's latest New York Times bestseller is a guide to meditation as a rational practice informed by neuroscience and psychology. From Sam Harris, neuroscientist and author of numerous New York Times bestselling books, *Waking Up* is for the twenty percent of Americans who follow no religion but who suspect that important truths can be found in the experiences of such figures as Jesus, the Buddha, Lao Tzu, Rumi, and the other saints and sages of history. Throughout this book, Harris argues that there is more to understanding reality than science and secular culture generally allow, and that how we pay attention to the present moment largely determines the quality of our lives. *Waking Up* is part memoir and part exploration of the scientific underpinnings of spirituality. No other book marries contemplative wisdom and modern science in this way, and no author other than Sam Harris—a scientist, philosopher, and famous skeptic—could write it.

Conversion, Identity, and Power Jan 13 2021 The introduction of Christianity into traditional societies has been the subject of numerous studies. Few of these studies, however, have adequately examined the way that this introduction affects power relationships in a community. In this, the third volume in the American Society of Missiology's dissertation series, A. Sue Russell attempts to advance the discourse on Christianity and social change by showing how a new social institution, the local church, both influences and is influenced by existing sociocultural power relationships. Building on her extensive research into the Tagal Murut, Dr. Russell clearly demonstrates that the introduction of Christianity created a dynamic that produced new social relations and power structures in Tagal society. With its unique insights into this crucial dynamic, *Conversion, Identity, and Power* stands as an important contribution to the sociological and missiological literature exploring the impact of Christianity on traditional societies. But small-town Kentucky quickly proves equally claustrophobic, especially living alongside her overbearing father-in-law. So when a call goes out for a team of women to deliver books as part of Eleanor Roosevelt's new traveling library, Alice signs on enthusiastically. The leader, and soon Alice's greatest ally, is Margery, a smart-talking, self-sufficient woman who's never asked a man's permission for anything. Foster's classic guide—a lively and entertaining introduction to literature and literary basics, including symbols, themes, and contexts—that shows you how to make your everyday reading experience more rewarding and enjoyable. While many books can be enjoyed for their basic stories, there are often deeper literary meanings interwoven in these texts. *How to Read Literature Like a Professor* helps us to discover those hidden truths by looking at literature with the eyes—and the literary codes—of the ultimate professional reader: the college professor. What does it mean when a literary hero travels along a dusty road? When he hands a drink to his companion? When he's drenched in a sudden rain shower? Ranging from major themes to literary models, narrative devices, and form, Thomas C. Foster provides us with a broad overview of literature—a world where a road leads to a quest, a shared meal may signify a communion, and rain, whether cleansing or destructive, is never just a shower—and shows us how to make our reading experience more enriching, satisfying, and fun. This revised edition includes new chapters, a new preface, and a new epilogue, and incorporates updated teaching points that Foster has developed over the past decade.

The Jungle Sep 08 2020 *The Jungle* is a 1906 novel written by the American journalist and novelist Upton Sinclair (1878–1968). Sinclair wrote the novel to portray the lives of immigrants in the United States in Chicago and similar industrialized cities. Many readers were most concerned with his exposure of health violations and unsanitary practices in the American meatpacking industry during the early 20th century, based on an investigation he did for a socialist newspaper. The book depicts working class poverty, the lack of social supports, harsh and unpleasant living and working conditions, and a hopelessness among many workers. These elements are contrasted with the deeply rooted corruption of people in power. A review by the writer Jack London called it, "the Uncle Tom's Cabin of wage slavery." Sinclair was considered a muckraker, or journalist who exposed corruption in government and business. He first published the novel in serial form in 1905 in the Socialist newspaper, *Appeal to Reason*, between February 25, 1905, and November 4, 1905. In 1904, Sinclair had spent seven weeks gathering information while working incognito in the meatpacking plants of the Chicago stockyards for the newspaper. It was published as a book on February 26, 1906 by Doubleday and in a subscribers' edition.

The Seven Basic Plots Oct 10 2020 This remarkable and monumental book at last provides a comprehensive answer to the age-old riddle of whether there are only a small number of 'basic stories' in the world. Using a wealth of examples, from ancient myths and folk tales via the plays and novels of great literature to the popular movies and TV soap operas of today, it shows that there are seven archetypal themes which recur throughout every kind of storytelling. But this is only the prelude to an investigation into how and why we are 'programmed' to imagine stories in these ways, and how they relate to the inmost patterns of human psychology. Drawing on a vast array of examples, from Proust to detective stories, from the Marquis de Sade to E.T., Christopher Booker then leads us through the extraordinary changes in the nature of storytelling over the past 200 years, and why so many stories have 'lost the plot' by losing touch with their underlying archetypal purpose. Booker analyses why evolution has given us the need to tell stories and illustrates how storytelling has provided a uniquely revealing mirror to mankind's psychological development over the past 5000 years. This seminal book opens up in an entirely new way our understanding of the real purpose storytelling plays in our lives, and will be a talking point for years to come.

Readers also learn how to integrate children's and young adult literature, primary sources, biographies, essays, poetry, and online content, communities, and websites into their classrooms. Each chapter offers concrete teaching examples and practical suggestions to help make literacy relevant to students' content area learning. Author Sharon Kane demonstrates how relevant reading, writing, speaking, listening, and visual learning activities can improve learning in content area subjects and at the same time help readers meet national content knowledge standards and benchmarks.

Go-Givers Sell More Jul 27 2019 The sequel to the international bestseller *The Go-Giver*, applying its inspirational approach to real-world challenges. The *Go-Giver* took the business world by storm with its message that giving is the simplest, most fulfilling, and most effective path to success. It has inspired hundreds of thousands of readers; but some have wondered how the story's lessons stand up to the tough challenges of everyday, real-world business. Bob Burg and John David Mann answer that question in *Go-Givers Sell More*, a practical guide that turns giving into the cornerstone of a powerful and effective approach to selling. Most of us think of sales as a struggle to make people do something they don't really want to do. But that cut-throat mentality makes the process much harder than it has to be — especially in an economic downturn when customers are more suspicious and defensive than ever. It's far more effective (and satisfying) when salespeople think like *Go-Givers* and focus on creating value for the customer. Cultivate a trusting relationship and provide outstanding service, and great results will follow automatically. Illustrating their points with a wide range of real-life examples, Burg and Mann offer tips and strategies that anyone in sales can start applying right away.
