Minesweeper (Special Forces, Book 2) Jan 07 2021 "All the sizzle, chaos, noise and scariness of war is clay in the hands of ace storyteller Lynch." -- Kirkus Reviews for the World War II series Discover the secret missions behind America's greatest conflicts. Fergus Frew thought he knew what to expect when he signed up with the Navy's demolitions team. But as the Korean War rages on, Fergus and his fellow divers -- AKA "frogmen" -- are tasked with more than just scouting mudflats. Soon they're planting mines. And sabotaging tunnels, bridges... and even fishing nets. Strangest of all, it falls to Fergus to transport a spy into the country -- and that means traveling far from Navy-controlled waters. But frogmen are amphibious. And Fergus may not realize it, but he's in a position to change the way the whole world thinks about combat. National Book Award finalist Chris Lynch continues his explosive fiction series based on the real-life, top-secret history of US black ops and today's heroic Navy SEALs.

Ithaca Dec 06 2020 'Claire North brings a powerful, fresh and unflinching voice to ancient myth - darkly fascinating, raw and breathtaking' Jennifer Saint, author of Sunday Times bestseller *Ariadne* This is the story of Penelope of Ithaca, famed wife of Odysseus, as it has never been told before. Beyond Ithaca's shores, the whims of gods dictate the wars of men. But on the isle, it is the choices of the abandoned women - and

their goddesses - that will change the course of the world. 'The greatest power we women can own is that which we take in secret.' Seventeen years ago, King Odysseus sailed to war with Troy, taking with him every man of fighting age from the isle of Ithaca. None of them has returned, and the women of Ithaca have been left behind to run the kingdom. Penelope was barely into womanhood when she wed Odysseus. While he lived, her position was secure. But now, years on, speculation is mounting that her husband is dead, and suitors are beginning to knock at her door. No one man is strong enough to claim Odysseus's empty throne - not yet. But as everyone waits for the balance of power to tip, Penelope knows that any choice she makes could plunge Ithaca into bloody civil war . . . From the multi award-winning Claire North comes a daring, exquisite and moving tale that breathes life into ancient myth, and tells of the women who stand defiant in a world ruled by ruthless men. It's time for the women of Ithaca to tell their tale . . . 'Everything I've wanted in a retelling: a vibrant cast, full of suspense, told with a phenomenal narrative voice - this is an absolute masterpiece' Sarah Bonner, author of *Her Perfect Twin* 'Told in the arresting voice of the goddess Hera . . . Ithaca conjures up a world in which women, abandoned by their men, must weave their own destinies' The Times 'Richly poetic . . . This is an impassioned plea for the lost, disenfranchised queens of ancient Greece, a love letter to the silenced women of history'

Booklist 'Claire North has set a new standard for Ancient Greek retellings. Absolutely sublime' Hannah Lynn, author of Athena's Child The Songs of Penelope novels: Ithaca House of Odysseus

The Money Tree Jun 19 2019 From bestselling author of *The \$100 Startup* and *Side Hustle* comes Chris Guillebeau's engaging story about the power you have to create your own financial destiny. Like financial classics *The Latte Factor* and *The Richest Man in Babylon*, *The Money Tree* uses a compelling story with captivating characters to share its core insight: you are never at the mercy of fortune as long as you have an appetite for hard work and a willingness to step outside your comfort zone. Jake Aarons is in trouble. He's being evicted from his apartment in less than 30 days, the bill for his \$50,000 in overdue student loans is almost due, and the digital marketing agency he works at just implemented a new military-style grading system that might cost him his job. To top it off, Jake's new relationship with Maya was going so well... but with everything else falling down around him, he might lose her, too. In search of answers, Jake reluctantly attends a weekly group meeting at the invitation of a coworker.

Everyone in the group is trying to create a lucrative side hustle with one key requirement: they can only spend up to \$500 before earning a profit. Over the course of several weeks, Jake undertakes a series of challenges, first learning how to make \$1,000 in a single weekend, and ultimately how to discover the untapped skills he needs to take control of his finances--and his life.

Friends Without Benefits Mar 21 2022 There are three things you need to know about Elizabeth Finney: 1) She suffers from severe sarcastic syndrome, especially when she's unnerved, 2) No one unnerves her like Nico Manganiello, and 3) She knows how to knit. Elizabeth Finney is almost always right about everything: the musical merits of boy bands are undervalued by society, "benefits" with human Ken dolls are better without friendship, and the sun has set on her once-in-a-lifetime chance for true love. But when Elizabeth's plans for benefits without friendship are disarmed by the irritatingly charismatic and chauvinistic Nico Manganiello—her former nemesis—she finds herself struggling to maintain the electric fence

around her heart while avoiding a Nico charisma-electrocution or, worse, falling in love. *Friends Without Benefits* is book #2 in the *Knitting in the City* series. Each book is a standalone, full length (110k words), contemporary romantic comedy novel, and follows the misadventures and exploits of seven friends in Chicago, all members of the same knitting group.

Sure, the idea that she'll have better luck if she learns about the great romances of literature and film seems a little silly, but Emily figures it can't hurt. The Railway Goods Shed and Warehouse in England Feb 26 2020 Although goods traffic

accounted in many cases for a higher proportion of railway companies' revenue than passengers, the buildings associated with it have received very little attention in comparison to their passenger counterparts. They once played as important a role in distribution as the 'big sheds' near motorway junctions do today. The book shows how the basic design of goods sheds evolved early in the history of railways, and how the form of goods sheds reflected the function they performed. Although goods sheds largely functioned in the same way, there was considerable scope for variety of architectural expression in their external design. The book brings out how they varied considerably in size from small timber huts to the massive warehouses seen in major cities. It also looks at how many railway companies developed standard designs for these buildings towards the end of the 19th century and at how traditional materials such as timber, brick and stone gave way to steel and concrete in the 20th This building type is subject to a high level of threat with development pressure in urban and suburban areas for both car parking and housing having already accounted for the demise of many of these buildings. Despite this, some 600 have been identified as still extant and the book will, for the first time, provide a comprehensive gazetteer of the surviving examples.

Shakespeare and the Book Trade Oct 04 2020 Shakespeare and the Book Trade follows on from Lukas Erne's groundbreaking Shakespeare as Literary Dramatist to examine the publication, constitution, dissemination and reception of Shakespeare's printed plays and poems in his own time and to argue that their popularity in the book trade has been greatly underestimated. Erne uses evidence from Shakespeare's publishers and the printed works to show that in the final years of the sixteenth century and the early part of the seventeenth century, 'Shakespeare' became a name from which money could be made, a book trade commodity in which publishers had significant investments and an author who was bought, read, excerpted and collected on a surprising scale. Erne argues that Shakespeare, far from indifferent to his popularity in print, was an interested and complicit witness to his rise as a print-published author. Thanks to the book

trade, Shakespeare's authorial ambition started to become bibliographic reality during his lifetime.

Countering the Problem of Falsified and Substandard Drugs Dec 26 2019 The adulteration and fraudulent manufacture of medicines is an old problem, vastly aggravated by modern manufacturing and trade. In the last decade, impotent antimicrobial drugs have compromised the treatment of many deadly diseases in poor countries. More recently, negligent production at a Massachusetts compounding pharmacy sickened hundreds of Americans. While the national drugs regulatory authority (hereafter, the regulatory authority) is responsible for the safety of a country's drug supply, no single country can entirely guarantee this today. The once common use of the term counterfeit to describe any drug that is not what it claims to be is at the heart of the argument. In a narrow, legal sense a counterfeit drug is one that infringes on a registered trademark. The lay meaning is much broader, including any drug made with intentional deceit. Some generic drug companies and civil society groups object to calling bad medicines counterfeit, seeing it as the deliberate conflation of public health and intellectual property concerns. Countering the Problem of Falsified and Substandard Drugs accepts the narrow meaning of counterfeit, and, because the nuances of trademark infringement must be dealt with by courts, case by case, the report does not discuss the problem of counterfeit medicines.

Slavery and the British Country House Sep 22 2019 In 2007 English Heritage commissioned initial research into links with transatlantic

slavery or its abolition amongst families who owned properties now in its care. This was part of the commitment by English Heritage to commemorate the bicentenary of the abolition of the British transatlantic slave trade with work that would make a real difference to our understanding of the historic environment in the longer term. The research findings and those of other scholars and heritage practitioners were presented at the 'Slavery and the British Country House' conference which brought together academics, heritage professionals, country house owners and community researchers from across Britain to explore how country houses might be reconsidered in the light of their slavery linkages and how such links have been and might be presented to visitors. Since then the conference papers have been updated and reworked into a cutting edge volume which represents the most current and comprehensive consideration of slavery and the British country house as yet undertaken.
