Who Made Me Like This Nov 08 2020 Born in Brooklyn, New York and experiencing street life real

early in my childhood, like around five and six years of age. Life in the streets caused a great imprint in my mind and an awesome impact on my way of thinking. This tremendous awareness in my youth gave new meaning to the word imprint. A few years later, at the age of nine our family, comprised of nine children plus my mom and dad, moved to this country town in Pennsylvania, called Lancaster. My Godfather called it the hilly country. My family consisted of six boys and three girls and to us this was a traumatic, overwhelming, and completely over the edge culture shock. It was devastating to say the least. Bewildered, frustrated, and confused, the only thing that kept my sanity was knowing that I was going back to New York, as soon as I finished school. That was my motivation, and that desire to return to Brooklyn, New York was my hope for many days to come.

United States Code Dec 22 2021 "The United States Code is the official codification of the general and permanent laws of the United States of America. The Code was first published in 1926, and a new edition of the code has been published every six years since 1934. The 2012 edition of the Code incorporates laws enacted through the One Hundred Twelfth Congress, Second Session, the last of which was signed by the President on January 15, 2013. It does not include laws of the One Hundred Thirteenth Congress, First Session, enacted between January 2, 2013, the date it convened, and January 15, 2013. By statutory authority this edition may be cited "U.S.C. 2012 ed." As adopted in 1926, the Code established prima facie the general and permanent laws of the United States. The underlying statutes reprinted in the Code remained in effect and controlled over the Code in case of any discrepancy. In 1947, Congress began enacting individual titles of the Code into positive law. When a title is enacted into positive law, the underlying statutes are repealed and the title then becomes legal evidence of the law. Currently, 26 of the 51 titles in the Code have been so enacted. These are identified in the table of titles near the beginning of each volume. The Law Revision Counsel of the House of Representatives continues to prepare legislation pursuant to 2 U.S.C. 285b to enact the remainder of the Code, on a title-by-title basis, into positive law. The 2012 edition of the Code was prepared and published under the supervision of Ralph V. Seep, Law Revision Counsel. Grateful acknowledgment is made of the contributions by all who helped in this work, particularly the staffs of the Office of the Law Revision Counsel and the Government Printing Office"-- Preface.
