EBOOK: Diversity and Difference in Childhood: Issues for Theory and Practice Nov 10 2020

Educators and community-based professionals are often required to work with children and families from a range of diverse backgrounds. The second edition of this popular book goes beyond simplistic definitions of diversity, encouraging a much broader understanding and helping childhood educators and community-based professionals develop a critical disposition towards assumptions about children and childhood in relation to diversity, difference and social justice. As well as drawing on research, the book gives an overview of relevant contemporary social theories, including poststructuralism, cultural studies, critical theory, postcolonialism, critical 'race' theory, feminist perspectives and queer theory. It interrogates

practice and explores opportunities and strategies for creating a more equitable environment, whilst covering key issues impacting on children's lives, including: globalization, neoliberalism, new racisms, immigration, Indigeneity, refugees, homophobia, heterosexism and constructions of childhood. Each chapter provides an overview of the area of discussion, a focus on the implications for practice, and recommended readings. Providing insight into how social justice practices in childhood education and community-based service delivery can make a real difference in the lives of children, their families and communities, this is key reading for early childhood and primary educators, community-based professionals, university students and researchers. "This thoughtful, topical book addresses a considerable range of diversity issues relevant to teacher educators, their students, and other professionals who work with children and their families within and beyond Australia. Indigenous issues including language maintenance and revival have particular relevance within postcolonial nation states. Other issues of international relevance include: identities and retention of community languages, gender equity, childhood and sexuality, poverty and inequalities, and related policies. The writing is critical, scholarly, and engaging. This timely second edition draws on the authors' longstanding teacher education experiences, and their most recent research, to revisit the challenges of diversity and difference in children's lives". Dr Valerie N. Podmore, former associate professor, Faculty of Education and Social Work, the University of Auckland, New Zealand "The second edition of Robinson and Jones Díaz's Diversity and Difference in Childhood is a thoroughly welcome addition to my list of key texts for students of early childhood and childhood studies. It provides a means from the outset for educating undergraduate students from within critical postmodern and post structural perspectives - thus orienting their views of and actions within their future professions towards critical and equitable practices that value difference rather than treat it as a problem to be solved. Furthermore, for practitioners who find themselves questioning modernist constructions of children, development, difference, diversity and their work, the book provides a thorough grounding in frameworks and tools that will help them re-theorise what they are doing whilst simultaneously supporting them towards positive change." Alexandra C. Gunn, Associate Dean (Teacher Education), University of Otago College of Education, New Zealand "This is the 21st century early childhood education text. Diversity and Difference in Childhood provides early childhood educators and scholars a powerful space for asking social justice questions in a profoundly innovative way. Diversity and difference in childhood is not a 'traditional' early childhood conversation. As the authors appropriately suggest, this book is for educators to challenge taken for granted knowledges/practices and to take "personal and professional risks for social justice". Veronica Pacini-Ketchabaw, Ph.D., Professor, School of Child and Youth Care, University of Victoria, Canada "This new edition of Diversity and Difference is both important and timely. There is a new urgency to some emerging childhood issues, including those associated with childhood sexuality, and a distinct lack of critical resources to inform the debate. This book helps fill this gap. Undertaking a major revision and incorporating new material, the authors have ensured the book's continued relevance and renewed significance in the very dynamic context of childhood studies. The book makes an important contribution to resourcing explorations of the many difficult and complex issues associated with childhood in a globalised yet differentiated world. Readers will find the new theoretical resources and additional chapters that have been included give the book a sense of enhanced rigour and its depth and breadth of coverage make it an ideal resource for a wide variety of interests and perspectives." Christine Woodrow, Associate Professor and Senior Researcher, the Centre for Educational Research, Western Sydney University, Australia

[Building a Global Learning Organization](#) Jun 25 2019 Building a Global Learning Organization: Using TWI to Succeed with Strategic Workforce Expansion in the LEGO® Group describes how a multinational company developed a global structure for learning based on the TWI (Training Within Industry) program to create and sustain standardized work across multiple language and cultural platforms. In this book, Shingo Prize-winning author Patrick Graupp collaborates with two practitioners who performed the planning and implementation of the LEGO Group's worldwide Learning Organization. The book outlines the organizational and planning models used by the LEGO Group to create the internal ability to give and receive tacit skills and knowledge. Describing how and why TWI is used as the foundation for success in knowledge transfer across diverse languages and cultures, it provides step-by-step guidance on how to establish a solid organizational foundation for your own Learning Organization. Providing expert insight into the work of culture change, the book explains how to work with people to create motivation for moving to a new system of learning. It details the critical elements that made the implementation at the LEGO Group a success, identifies the stumbling blocks they encountered along the way, and explains how they were overcome. Case studies describe in detail what these efforts looked and felt like in actual application. The TWI program has long been recognized for its ability to generate results. After reading this book, you will gain valuable insight into how your organization—whether large or small, national or international—can integrate this timeless tool into your operating structure and your daily culture.

Teens Together Grief Support Group Curriculum Feb 23 2022 The texts focus on preschool-aged children, children in kindergarten through grade two, children in grades three through six, and teenagers. Each curriculum contains ten ninety-minute sessions that should be implemented over a period of ten weeks. By employing age-appropriate themes to engage the child and provide continuity throughout the sessions, the division of material within the curricula assures that the activities reflect the developmental level of the grieving child or adolescent. Each person grieves differently, and Grief Support Group Curriculum addresses the issues related to mourning while recognizing the importance of individuality in grieving.
