Mayo Clinic Internal Medicine Board Review Questions and Answers Nov 25 2022 This question-and-answer companion to Mayo Clinic Internal Medicine Board Review, 10th Edition, tests physicians and physicians-in-training on all relevant material related to the goals set forth by ABIM to ensure the success of internal medicine clinicians. By dividing each chapter according to a major subspecialty and with every question structured as a mock clinical interview, Mayo Clinic Internal Medicine Board Review: Questions and Answers is the perfect study tool for physicians-in-training and practicing clinicians preparing themselves for board examinations in internal medicine.

300 Single Best Answers in Clinical Medicine Oct 02 2022 This book is a question book that offers single best answers (SBA) to 300 questions related to topics in general medicine. In order to enhance knowledge and understanding, detailed answers have been included. This book is designed as both a revision and learning aid, with questions being set in a mock-examination format which can be completed under timed conditions. The primary target audience of this book is clinical medicine students who are revising for examinations. However, questions have been planned in a way that a fairly large secondary target audience will be reached as well. This includes students who are transitioning from pre-clinical to clinical. As recently qualified medical graduates who have had the option of both online and book-based questions, the authors feel that students often prefer a Best Answers book that aids them in advancing their medical knowledge rather than online question banks, which can often have very repetitive and one-dimensional questions. Having questions

paper format replicates examination conditions better than online question banks and, therefore, offers a more realistic revision experience. In addition, though SBAs are becoming increasingly common as an examination style with medical schools, there are very few SBA question books available. As such, medical students will find this book highly useful in the preparation for the examinations.

100 Cases in Clinical Medicine Apr 15 2021 100 Cases in Clinical Medicine is an indispensable revision tool for medical students preparing for clinical examinations or OSCEs. Using scenarios which mimic daily life, the cases will interest students in clinical problems and help them develop their clinical reasoning skills, with each case presenting details of a patient's medical history and key findings of a clinical examination, together with initial investigation results for evaluation. Questions then prompt the student to evaluate the patient, and reach a decision regarding the condition and the possible management plan, while the answer pages will help the student to understand the processes that a clinician goes through in dealing with the problems presented. Contents are organised to provide a quick review of each body system, with a selection of cases relevant to that specific system, then the majority are presented randomly to mimic real life in surgery or emergency department. New to this edition: a review of each body system as well as random cases; new page design with a second colour used throughout; and brought up-to-date with 25% new cases.

Kundu's MCOs in Internal Medicine Dec 12 2020

Intensive Care Medicine MCOs Feb 23 2022 Intensive care medicine is a dynamic and evolving specialty, requiring its practitioners to be part physician, physiologist and anaesthetist. This provides a firm foundation of knowledge and an ability to apply this to the clinical situation. This book contains 270 multiple-choice questions allowing self-assessment of the breadth of knowledge required of a modern intensivist. The book is divided into three papers each consisting of 60 multiple true/false (MTF) and 30 single best answer (SBA) questions covering areas including resuscitation, diagnosis, disease management, organ support, and ethical and legal aspects of practice. The MTF questions test factual knowledge and understanding of the evidence base underpinning intensive care medicine while the SBA questions test the ability of the candidate to prioritise, compare options and make the best decision for the patient. Each question is peer reviewed and accompanied by concise and explanatory notes with references to guide further reading. All the authors are practising intensive care physicians with firsthand experience of professional examinations in the specialty. This book will appeal to intensive care physicians approaching professional examinations worldwide, including the European Diploma, American Board and Faculty of Intensive Care Medicine examinations. In addition, it will appeal to intensive care nurses and allied healthcare professionals wishing to test their knowledge as part of continuing professional development, and to physicians sitting professional examinations in related specialties requiring knowledge of intensive care medicine such as general medicine, general surgery and anaesthesia. This new book will complement the existing international best-selling title 'Multiple Choice Questions in Intensive Care Medicine' (ISBN 978 1 903378 4 0) also written by Dr Steve Benington.
