Designing and Evaluating Usable Technology in Industrial Research Nov 19 2021 This book is about HCI research in an industrial research setting. It is based on the experiences of two researchers at the IBM T. J. Watson Research Center. Over the last two decades, Drs. John and Clare-Marie Karat have conducted HCI research to create innovative usable technology for users across a variety of domains. We begin the book by introducing the reader to the context of industrial research as well as a set of common themes or guidelines to consider in conducting HCI research in practice. Then case study examples of HCI approaches to the design and evaluation of usable solutions for people are presented and discussed in three domain areas: - item Conversational speech technologies, - item Personalization in eCommerce, and - item Security and privacy policy management technologies In each of the case studies, the authors illustrate and discuss examples of HCI approaches to design and evaluation that worked well and those that did not. They discuss what was learned over time about different HCI methods in practice, and changes that were made to the HCI tools used over time. The Karats discuss trade-offs and issues related to time, resources, and money and the value derived from different HCI methods in practice. These decisions are ones that need to be made regularly in the industrial sector. Similarities and differences with the types of decisions made in this regard in academia will be discussed. The authors then use the context of the three case studies in the three research domains to draw insights and conclusions about the themes that were introduced in the beginning of the book. The Karats conclude with their perspective about the future of HCI industrial research. Table of Contents: Introduction: Themes and Structure of the Book / Case Study 1: Conversational Speech Technologies: Automatic Speech Recognition (ASR) / Case Study 2: Personalization in eCommerce / Case Study 3: Security and Privacy Policy Management Technologies / Insights and Conclusions / The Future of Industrial HCI Research

Recent Advances in the Field of Urinary Tract Infections Oct 31 2022 Urinary tract infections (UTI) continue to be under the most common bacterial infections worldwide. Diagnostic and treatment have substantial financial burden on society. In the USA, UTIs are responsible for more than 7 million physician visits annually and about 15% of all community-prescribed antibiotics in the USA are dispensed for UTIs. About 50% of women will experience at least one UTI episode during lifetime, about 1 million emergency department visits due to UTI in the USA alone, resulting in more than 100 000 hospital admissions annually, most often for pyelonephritis. Moreover, UTIs are also the leading cause of hospital-acquired infections, accounting for approximately 40% of all such cases. The majority of these cases are catheter-associated. Therefore, nosocomial UTIs comprise perhaps the largest institutional reservoir for nosocomial antibiotic-resistant pathogens. Beside the economic impact, UTIs affect also significantly the quality of life of the affected population. The aim of this book is to highlight problematic aspects and recent advances in the field of UTIs. The book is divided in three parts.

Daggers and Men's Smiles Jan 10 2021 On the English Channel Island of Guernsey, Detective Inspector Ed Moretti and his new partner, Liz Falla, investigate vicious attacks on Epicure Films. The international production company is shooting a movie based on British bad-boy author Gilbert Ensor's bestselling novel about an Italian aristocratic family at the end of the Second World War, using fortifications from the German occupation of Guernsey as locations, and the manor house belonging to the expatriate Vannonis. When vandalism escalates into murder, Moretti must resist the attractions of Ensor's glamorous American wife, Sydney, consolidate his working relationship with Falla, and establish whether the murders on Guernsey go beyond the island. Why is the Marchesa Vannoni in Guernsey? What is the significance of the design that appears on the daggers used as murder weapons, as well as on the Vannoni family crest? And what role does the marchesas statuesque niece, Giulia, who runs the family business and is probably bisexual, really play?

Crazy Over You Aug 24 2019 She's on the sheriff's most wanted list. Waking up with a naked woman holding a knife at his throat is just about the last thing Sheriff Travis Flynn expected. And the brother she's looking for? A murderer. And dead. Probably. But the real shock comes when she insists she's not a Lycan. LeAnn Wilcox isn't looking for love...especially not from some wolf in sheriff's clothing. She operates on the other side of the law. Once she finds her brother-alive-she'll get out of the pack's territory and go back to her regular, normal, non-furry life of changing jobs and her name whenever her past closes in. The cool, logical Sheriff has finally met his match, but LeAnn's life is at stake if she won't claim her place in the pack, especially once his control over the pack is challenged and her brother's fate is questioned.

Africa South of the Sahara Oct 26 2019 Africa south of the Sahara is a region in transition. The optimism of the early postindependence years has long since faded, replaced by a pervasive sense of crisis that typically includes slow and often negative economic growth, a crushing debt burden, hunger and ecological crisis, and the virtual collapse of the state in a number of countries. At the same time, the 1990s have seen recent cause for hope -- most dramatically, in the peaceful transition to black majority rule in South Africa. This much-needed text provides a broad and balanced introduction to the geography of this vast region. Examining sociocultural, political, and economic processes, patterns of resource utilization, and the dynamics of change in Africa's geography, the text is enhanced by vivid case studies, maps, and photographs. Also featured are lists of recommended reading and a glossary of key terms.

Origins of Rwandan Genocide Jul 28 2022 By some estimates more than a million and a half people were killed in Rwanda during just two weeks in April 1994. In this penetrating analysis, Canadian scholar Josias Semujanga, a Rwandan by birth, examines the social mechanisms, the historical factors, and the "discourse of hate" that culminated in this mind-numbing act of genocide. Semujanga focuses on the ideology of Hutu power that

motivated a powerful circle around President Juvenal Habyarimana to develop and then execute a well-planned conspiracy to exterminate the Tutsi. He traces the roots of hatred back to the early colonial period when European overlords favored the Tutsi. After independence, the bitter memories of colonialism resulted in the stereotyping of Tutsis as "nostalgic for power," and suspicions about "the enemy in our midst" lingered for decades. As Semujanga shows, by the early 1990s this culture of hatred was being well cultivated by a radio-television network and a newspaper in the national language, which made it clear to the Hutu population that the "the enemy within" must be gotten rid of. At the same time, the headquarters of the Rwandan Armed Forces supplied the local administrations with lists of enemies and appointed persons to be in charge of implementing the extermination plan. All of this was carefully drawn up two years before the genocide took place. Semujanga questions whether such elaborate preparations could have remained unknown to the international community, yet he notes the many factors that complicated the situation: the presence of UN forces in Kigali, the naive assumption that these troops could protect the people, and the belief that President Habyarimana would never commit political suicide by unleashing a killing spree. No one had foreseen his airplane "accident," which then precipitated the massacres. Semujanga's brilliant analysis offers many insights into both the Rwandan tragedy and the mechanisms of ideology, language, and political system that can contribute to genocide anywhere.

Daemon in the Sanctuary Jun 14 2021 "Daemon in the Sanctuary" explores the uncanny contradiction between the phenomenological experience of home as a site of nurture and security and the empirical reality that people are far more likely to be hurt and even killed in their own homes by their intimates, rather than at the hands of strangers. Moving from the syrupy tributes of the god of love in Plato's "Symposium" to the subject of domestic violence appears to be a giant leap, but the author shows that embroidered romantic ideas about love prepare the initiate poorly for the reality of intimate connection. Poets and philosophers who lead us to believe that love is heaven sent can leave us craving an extreme experience. We crave an earth-shaking, life-altering intrusion on our tranquility as evidence that love is real. Thus the naive initiate can easily mistake the flutter of the pulse, the quickening of the heart rate, the flush, the confused emotions, and the painful longing as signs of the god's gift. But these are also the signs of fear! Wendy C. Hamblet, a philosopher in the phenomenological lineage, examines the truth value of phenomenological experience, through the lens of the problem of intimate violence. If Husserl is right and phenomenological method provides the ground of all empirical truth, then what is to be made of the fundamental contradiction between the lived experience of home as a site of nurture and security and of intimates as guardians and caretakers, and the empirical fact, evident in every human society, that people are far more likely to be harmed, and even killed, in their homes or in the homes of their intimates and at the hands of those charged with their care? Hamblet carefully choreographs a dance between the two opposing 'truths' to expose how

the lived sense of home, colored by ideals, can tint people's expectations about intimate connection and cloud their ability to recognize the signs of intimate abuse. This book illuminates the dangers and pitfalls of unhealthy intimacy and offers a regimen for loosening the grip of a sickened love's pathological hold.
