An Inland Voyage Jul 20 2021 An account of the author's canoe trip from Antwerp in Belgium to Pontoise in France.

Travels with a Donkey in the Cévennes Jun 06 2020 In a little place called Le Monastier, in a pleasant highland valley fifteen miles from Le Puy, I spent about a month of fine days. Monastier is notable for the making of lace, for drunkenness, for freedom of language, and for unparalleled political dissension. There are adherents of each of the four French parties-Legitimists, Orleanists, Imperialists, and Republicans-in this little mountain-town; and they all hate, loathe, decry, and calumniate each other. Except for business purposes, or to give each other the lie in a tavern brawl, they have laid aside even the civility of speech. 'Tis a mere mountain Poland. In the midst of this Babylon I found myself a rallying-point; every one was anxious to be kind and helpful to the stranger. This was not merely from the natural hospitality of mountain people, nor even from the surprise with which I was regarded as a man living of his own free will in Le Monastier, when he might just as well have lived anywhere else in this big world; it arose a good deal from my projected excursion southward through the Cévennes. A traveller of my sort was a thing hitherto unheard of in that district. I was looked upon with contempt, like a man who should project a journey to the moon, but yet with a respectful interest, like one setting forth for the inclement Pole. All were ready to help in my preparations; a crowd of sympathisers supported me at the critical moment of a bargain; not a step was taken but was heralded by glasses round and celebrated by a dinner or a breakfast.

Travels with a Donkey in the Cévenne *Illustrated* Apr 16 2021 *Travels with a Donkey in the Cévennes* (1879) is one of Robert Louis Stevenson's earliest published works and is considered a pioneering classic of outdoor literature. It is also one of the earliest accounts of hiking and camping outdoors as a recreational activity. It tells of the commissioning of one of the first sleeping bags, large and heavy enough to require a donkey to carry.

Travels with a Donkey In The Cévennes **by Robert Louis Stevenson** Mar 04 2020 Stevenson was in his late 20s and still dependent on his parents for support. His journey was designed to provide material for publication while allowing him to distance himself from a love affair with an American woman of which his friends and families did not approve and who had returned to her husband in California. Travels recounts Stevenson's 12-day, 200-kilometre (120 mi) solo hiking journey through the sparsely populated and impoverished areas of the Cévennes mountains in south-central France in 1878. (Wikipedia) Wolves, alas, like bandits, seem to flee the traveller's advance; and you may trudge through all our comfortable Europe, and not meet with an adventure worth the name. But here, if anywhere, a man was on the frontiers of hope. For this was the land of the ever-memorable BEAST, the Napoleon Bonaparte of wolves. What a career was his! He lived ten months at free quarters in Gévaudan and Vivarais; he ate women and children and 'shepherdeses celebrated for their beauty'; he pursued armed horsemen; he has been seen at broad noonday chasing a post-chaise and outrider along the king's high-road, and chaise and outrider fleeing before him at the gallop. He was placarded like a political offender, and ten thousand francs were offered for his head. And yet, when he was shot and sent to Versailles, behold! a common wolf, and even small for that. 'Though I could reach from pole to pole,' sang Alexander Pope; the Little Corporal shook Europe; and if all wolves had been as this wolf, they would have changed the history of man. M. Elie Berthet has made him the hero of a novel, which I have read, and do not wish to read again. - Inside *Travels with a Donkey In The Cévennes* by Robert Louis Stevenson

Travels With a Donkey in the Cévennes May 18 2021 *Travels with a Donkey in the Cévennes* (1879) is one of Robert Louis Stevenson's earliest published works and is considered a pioneering classic of outdoor literature. Background: Stevenson was in his late 20s and still dependent on his parents for support. His journey was designed to provide material for publication while allowing him to distance himself from a love affair with an American woman of which his friends and families did not approve and who had returned to her husband in California. Travels recounts Stevenson's 12-day, 200 kilometres (120 mi) solo hiking journey through the sparsely populated and impoverished areas of the Cévennes mountains in south-central France in 1878. The terrain, with its barren rocky heather-filled hillsides, he often compared to parts of Scotland. The other principal character is Modestine, a stubborn, manipulative donkey he could never quite master. It is one of the earliest accounts to present hiking and camping outdoors as a recreational activity. It also tells of commissioning one of the first sleeping bags, large and heavy enough to require a donkey to carry. Stevenson is several times mistaken for a peddler, the usual occupation of someone traveling in his fashion. Some locals are horrified that he would sleep outdoors and suggest it is dangerous to do so because of wolves or robbers. Stevenson provides the reader with the philosophy behind his undertaking: [2] For my part, I travel not to go anywhere, but to go. I travel for travel's sake. The great affair is to move; to feel the needs and hitches of our life more clearly; to come down off this feather-bed of civilization, and find the globe granite underfoot and strewn with cutting flints. Alas, as we get up in life, and are more preoccupied with our affairs, even a holiday is a thing that must be worked for. To hold a pack upon a pack-saddle against a gale out of the freezing north is no high industry, but it is one that serves to occupy and compose the mind. And when the present is so exacting who can annoy himself about the future? The Cévennes was the site of a Protestant rebellion around 1702, severely suppressed by Catholic Louis XIV. The Protestant insurgents were known as the Camisards. Stevenson was Protestant by upbringing, and a non-believer by philosophy. Stevenson was well-versed in the history and evokes scenes from the rebellion as he passes through the area of the rebellion during the final days of his trek. He notes that the Catholics and the Protestants, at the time of his travels, live peaceably alongside one another, though each community is faithful to its own traditions and its version of the region's history. All disapprove equally of a young Catholic man who married a Protestant girl and changed his faith, agreeing that "It's a bad idea for a man to change." As for a Catholic priest who left the priesthood and married, the sentiment common to all was that it was wrong to change one's commitments. The book appeared the following year, 1879, and is dedicated to his friend Sidney Colvin, an art historian and critic who had befriended him when he was unpublished and seeking to develop a career as a writer. Walter Crane (15 August 1845 - 14 March 1915) was an English artist and book illustrator. Robert Louis Balfour Stevenson (13 November 1850 - 3 December 1894) was a Scottish novelist, poet, essayist, and travel writer. His most famous works are *Treasure Island*, *Kidnapped*, *Strange Case of Dr Jekyll and Mr Hyde*, and *A Child's Garden of Verses*.

The Man on a Donkey Oct 23 2021 A forgotten literary masterpiece, *The Man on a Donkey* is less about the great figures who shape historical change and more about what it's like to live through it. This is a sweeping, immersive historical novel that invites the reader to inhabit Tudor history as it unfolds: Henry VIII's divorce from Catherine of Aragon; Robert Aske's rebels fighting the Dissolution of the Monasteries; the machinations of Cardinal Wolsey and Anne Boleyn. It is, quite simply, one of the finest historical novels ever written. Praise for *The Man on a Donkey*: 'A classic of historical fiction... Blends real and invented characters and captures all the poignant strangeness of the era' Hilary Mantel 'One of the finest historical novels ever written' TLS 'A masterpiece' Eamon Duffy

Travels with My Donkey Dec 25 2021 "A donkey? blurted my family as one. For a moment it didn't seem they'd ever be able to list all the reasons that made this so entertainingly ludicrous. . . . Yes, I'd never ridden a donkey on a beach or petted one at a city farm, never even pinned a cardboard tail to one's throat after the cake and ice cream...A donkey would be my hairy-coated hair shirt, making my pilgrimage to Santiago de Compostela a truer test of the will, a trial." With these words, having no knowledge of Spanish and even less about the care and feeding of donkeys, Tim Moore, Britain's indefatigable traveling Everyman, sets out on a pilgrimage to the cathedral at Santiago de Compostela with a donkey named Shinto as his companion. Armed only with the Codex Calixtinus, a twelfth-century handbook to the route, and expert advice on donkey management from Robert Louis Stevenson, Moore and his four-legged companion travel the ancient five-hundred-mile route from St. Jean Pied-de-Port, on the French side of the Pyrenees, to the cathedral at Santiago de Compostela, which houses the remains of Spain's patron saint, St. James. Over sun-scorched highways, precipitous bridges, dirt paths shaded by leafy trees, and vineyards occasionally lashed by downpours, Moore and Shinto pass through some of the oldest towns and cities in northern Spain in colorful company, both past and present. Pilgrims real and imagined have traveled this route throughout the ages, a diverse cast of wayfarers spanning Charlemagne, St. Francis of Assisi, Chaucer's Wife of Bath, and New Age diva, Shirley MacLaine. Moore's present-day companions are no less florid or poignant. Clearly more interested in Shinto than in Moore, their fellow walkers are an assortment of devout Christian pilgrims, New Age spirituality seekers, travelers grieving over a lost love affair, Baby Boomers contemplating the advent of middle age, and John Q. Public just out for a cheap, boozy sun-drenched outdoor holiday. As Moore pushes, pulls, wheedles, cajoles, and threatens Shinto across Spain toward the crypt of St. James in a quest to find the spiritual pilgrim within, the duo overnights in the bedrooms, dormitories, and--for Shinto--adjacent grassy fields of northern Spain's hostels, inns, convents, seminaries, and farmhouses. Shinto, a donkey with a finely honed talent for reliving himself at the most inopportune moments, has better luck in the search for his next meal than Moore does in finding his inner St. Francis. Undaunted, however, Man and Beast finally arrive at the cathedral and a successful end to their journey. For readers who delighted in his earlier books, *Travels with My Donkey* is the next hilarious chapter in the travels of Tim Moore, a book that keeps the bones of St. James rattling till this day.

Travels with a Donkey in the Cévennes, and Selected Travel Writings Jun 18 2021 This volume of Stevenson's travel writings includes his first published book "An Inland Voyage" (1878) - a vivid account of a canoe voyage in Belgium and France in two sail-powered skiffs, named "Cigarette" and "Arethusa" - and Stevenson's popular description of a tour with his recalcitrant donkey Modestine, "Travels with a Donkey in the Cévennes" (1879). Stevenson's natural affinity for France, his appreciation of its landscape, and his enthusiasm for the French way of life are borne out by these works.

Travels with a Donkey in the Cévennes Aug 01 2022 Temperament and poor health motivated Robert Louis Stevenson to travel widely throughout his short life, and before he was celebrated as the author of *Treasure Island*, *A Child's Garden of Verses*, and other immortal works, he was known for his travelogues. This collection presents some of his finest writing in that vein, starting with "An Inland Voyage." This 1878 chronicle of a canoe journey through Belgium and France charmingly captures the European villages and townspeople of a bygone era. Other selections include "Travels with a Donkey in the Cévennes," a humorous account of a mountain trek, and "Forest Notes," a meditation on nature based on visits to the Forest of Fontainebleau near Paris and adjacent artists' colonies. These early writings offer captivating insights into Stevenson's bohemian nature and the wanderlust that sent him from his native Scotland to journeys around the world.

Looking After a Donkey Jun 30 2022

Travels with a Donkey in the Cévennes Oct 03 2022 In 1878 Robert Louis Stevenson escaped from his numerous troubles poor health, tormented love, inadequate funds by embarking on a journey through the Cévennes in France, accompanied by Modestine, a rather single-minded donkey. The notebook Stevenson kept during this time became *Travels with a Donkey in the Cévennes*, a highly entertaining account of the French and their country. The Amateur Emigrant describes his travels to and around America: the crowded weeks in steerage, the cross-country train journey. Filled with sharp-eyed observations, it brilliantly conveys Stevenson's perceptions of America and the Americans. Together, these writings reveal as much about the traveler as the places he travels to.

The Donkey in Human History Aug 28 2019 Donkeys carried Christ into Jerusalem while in Greek myth they transported Hephaistos up to Mount Olympus and Dionysos into battle against the Giants. They were probably the first animals that people ever rode, as well as the first used on a large-scale as beasts of burden. Associated with kingship and the gods in the ancient Near East, they have been (and in many places still are) a core technology for moving people and goods over both short and long distances, as well as a supplier of muscle power for threshing and grinding grain, pressing olives, raising water, ploughing fields, and pulling carts, to name just a few of the uses to which they have been put. Yet despite this, they remain one of the least studied, and most widely ignored, of all domestic animals, consigned to the margins of history like so many of those who still depend upon them. Spanning the globe and extending from the donkey's initial domestication up to the present, this book seeks to remedy this situation by using archaeological evidence, in combination with insights from history and anthropology, to resituate the donkey (and its hybrid offspring such as the mule) in the unfolding of human history, looking not just at what donkeys and mules did, but also at how people have thought about and understood them. Intended in part for university researchers and students working in the broad fields of world history, archaeology, animal history, and anthropology, but it should also interest anyone keen to learn more about one of the most widespread and important of the animals that people have domesticated.

Travels With a Donkey in the Cévennes Dec 01 2019 Excerpt from *Travels With a Donkey in the Cévennes: An Inland Voyage* This child of my invention was nearly six feet square, exclusive of two triangular aps to serve as a pillow by night and as the top and bottom of the sack by day. I call it the sack, but it was never a sack by more than courtesy: only a sort of long roll or sausage, green water-proof cart-cloth without and blue sheep's fur within. It was commodious as a valise, warm and dry for a bed. There was luxurious turning room for one; and at a pinch the thing might serve for two. I could bury myself in it up to the neck; for my head I trusted to a fur cap, with a hood to fold down over my ears, and a band to pass under my nose like a respirator; and in case of heavy rain I proposed to make myself a little tent, or tentlet, with my water-proof coat, three stones, and a bent branch.
