Original Farmall Cub and Cub Cadet  
Nov 03 2022 Author Kenneth Updike presents the most complete and authoritative text available for those wishing to restore their Farmall Cub, Cub Lo-Boy, and Cub Cadet, from

their inception in the 1940s through the end of production. The detailed text includes hard-to-find information on the development and design of each model, with all the relevant information on implements, improvements, serial numbers, dates, codes, engines and carburetors.

motorcycle, scooter or moped equipped with a Wipac electrical system. Wipac issued two ring-bound versions of this manual. The first was titled 'Number 3 Manual' and the second 'Motorcycle & Scooter Manual' but unfortunately, the publication dates of the individual pages were not identified. However, based on the contents, we can estimate that they were published in 1964 and 1969 approximately. The later manual contains considerably more information plus numerous updates to the data in the earlier manual. Unfortunately, some of the information from the earlier manual

was also omitted from the later manual as it was probably considered to be outdated. However, as that outdated information is of significant interest to today's owners and restorers, we have combined the entire data from both manuals into a single publication. Please note, that wherever the earlier data had been updated, we have only included the latest update in order to prevent duplication of information. This 'combination' manual includes alternator and generator testing and servicing instructions, spare parts illustrations and part numbers plus Technical Data Sheets and Service

Bulletins that provide additional information due to model updates and/or electronic equipment modifications. It also includes wiring diagrams by individual model type including: A.J.S., Ariel, B.S.A., Dayton, Dunkley, Excelsior, Francis-Barnett, James, Matchless, Norton, Piatti, Raleigh (mopeds) and Triumph. The entire content of this publication is devoted to the operation, testing, servicing, maintenance, overhaul and adjustment of all the major Wipac electrical components utilized by the various manufacturers listed above. unavailable for many years, these manuals are extremely difficult to find on the secondary market and we are pleased to be able to offer this combined reproduction as a service to all owners, restorers and enthusiasts of 1950-1969 Wipac equipped motorcycles, scooters and mopeds. Wiring diagrams that are included - by manufacturer and model type: A.J.S. - Model 14, 14S, 14CS, 14CSR & Model 8. ARIEL - Colt & Pixie. B.S.A. - C10L, Bantam, Dandy, Sunbeam (Scooter) & Beagle.
