Most entries are accompanied by useful notes providing information on authors, works, translators, and how the translations were received. Among the works by over 1,500 authors represented in this volume are hundreds of editions by Italy's most translated authors - Dante Alighieri, [Niccoláo] Machiavelli, and [Giovanni] Boccaccio - and other hundreds which represent the author's only English translation. A significant number of entries describe works originally published in Latin. Together with Healey's *Twentieth-Century Italian Literature in English Translation*, this volume makes comprehensive information on translations accessible for schools, libraries, and those interested in comparative literature."--Pub. desc.

Translators Have Their Say? Aug 29 2019 To address the idea of agency in translation is to highlight the interplay of power and ideology: what gets translated or not and

why a text is translated is mainly a matter of exercising power or reflecting authority. The contributions in this book serve as an attempt to understand the complex nature of agency in terms of its relation to agents of translation; the role of translatorial agents and the way they exercise their agency in (de)constructing narratives of power and identity; and the influence of translatorial agency on the various processes of translation and hence on the final translation product as well. American Comparative Law Dec 02 2019 "Historical Comparative Law and Comparative Legal History Legal history and comparative law overlap in important respects. This is more apparent with the use of some methods for comparison, such as legal transplant, natural law, or nation building. M.N.S. Sellers nicely portrayed the relationship. The past is a foreign country, its people strangers and its laws obscure.... No one can really understand her or his own legal system without leaving it first, and looking back from the outside. The comparative study of law makes one's own legal system more

comprehensible, by revealing its idiosyncrasies. Legal history is comparative law without travel. Legal historians, perhaps especially in the United States, have been skeptical about the possibility of a fruitful comparative legal history, preferring in general to investigate the distinctiveness of their national experience. Comparatists, however, content with revealing or promoting similarities or differences between legal systems, by their nature strive toward comparison. Some American historians, especially since World War II, see the value in this"--

Roma Tre Law Review – 01/2020 Apr 05 2020 “Roma Tre Law Review” is a law review sponsored by the Department of Law of the University of Roma Tre. Its main aim is to promote the diffusion of the Italian legal culture, and namely the type of scholarship produced at Roma Tre, abroad, as well as to investigate the development of the law in several fields and places from an Italian and European viewpoint. Accordingly, the review will host contributions ideally characterized by a specific set of features, and namely by their openness to comparative, historical, and interdisciplinary perspectives on all legal issues of not strictly local concern.

At Translation's Edge Aug 02 2022 Since the 1970s, the field of Translation Studies has entered into dialogue with an array of other disciplines, sustaining a close but contentious relationship with literary translation. At

Translation's Edge expands this interdisciplinary dialogue by taking up questions of translation across sub-fields and within disciplines, including film and media studies, comparative literature, history, and education among others. For the contributors to this volume, translation is understood in its most expansive, transdisciplinary sense: translation as exchange, migration, and mobility, including cross-cultural communication and media circulation. Whether exploring the Universal Declaration of Human Rights or silent film intertitles, this volume brings together the work of scholars aiming to address the edges of Translation Studies while engaging with major and minor languages, colonial and post-colonial studies, feminism and disability studies, and theories of globalization and empire.

The Omnibus Homo Sacer Jul 01 2022 Giorgio Agamben's *Homo Sacer* is one of the seminal works of political philosophy in recent decades. A twenty-year undertaking, this project is a series of interconnected investigations of staggering ambition and scope investigating the deepest foundations of every major Western institution and discourse. This single book brings together for the first time all nine volumes that make up this groundbreaking project. Each volume takes a seemingly obscure and outdated issue as its starting point—an enigmatic figure in Roman law, or medieval debates about God's management of creation, or theories

about the origin of the oath—but is always guided by questions with urgent contemporary relevance. The Omnibus Homo Sacer includes: 1.Homo Sacer: Sovereign Power and Bare Life 2.1.State of Exception 2.2.Stasis: Civil War as a Political Paradigm 2.3.The Sacrament of Language: An Archeology of the Oath 2.4.The Kingdom and the Glory: For a Theological Genealogy of Economy and Glory 2.5.Opus Dei: An Archeology of Duty 3.Remnants of Auschwitz: The Witness and the Archive 4.1.The Highest Poverty: Monastic Rules and Form-of-Life 4.2.The Use of Bodies

Vernacular Translation in Dante's Italy Nov 12 2020

Translation and commentary are often associated with institutions and patronage; but in Italy around the time of Dante, widespread vernacular translation was mostly on the spontaneous initiative of individuals. While Dante is usually the starting point for histories of vernacular translation in Europe, this book demonstrates that *The Divine Comedy* places itself in opposition to a vast vernacular literature already in circulation among its readers. Alison Cornish explores the anxiety of vernacularization as expressed by translators and contemporary authors, the prevalence of translation in religious experience, the role of scribal mediation, the influence of the Italian reception of French literature on that literature, and how translating into the vernacular

became a project of nation-building only after its virtual demise during the Humanist period. Vernacular translation was a phenomenon with which all authors in thirteenth- and fourteenth-century Europe - from Brunetto Latini to Giovanni Boccaccio - had to contend.

Brill's Josephus Project contains Book 2 of Josephus' Judean War (translation and commentary). This book deals with a period of enormous consequence: from King Herod's death (4 BCE) to the first phase of the war against Rome (66 CE). The commentary aims at a balance between historical and literary issues.

Translating the Middle Ages Mar 05 2020 Drawing on approaches from literary studies, history, linguistics, and art history, and ranging from Late Antiquity to the sixteenth century, this collection views 'translation' broadly as the adaptation and transmission of cultural inheritance. The essays explore translation in a variety of sources from manuscript to print culture and the creation of lexical databases. Several essays look at the practice of

textual translation across languages, including the vernacularization of Latin literature in England, France, and Italy; the translation of Greek and Hebrew scientific terms into Arabic; and the use of Hebrew terms in anti-Jewish and anti-Muslim polemics. Other essays examine medieval translators' views and performance of translation, looking at Lydgate's translation of Greek myths through mental images rendered through rhetorical figures or at how printing transformed the rhetoric of intervernacular translation of chivalric romances. This collection also demonstrates translation as a key element in the construction of cultural and political identity in the *Fet des Romains* and Chester Whitsun Plays, and in the papacy's efforts to compete with Byzantium by controlling the translation of Greek writings.

Translation, Travel, Migration Nov 05 2022 The connection between travel and translation is often evoked in contemporary critical theory, both practices seen as metaphors of mobility and flux linked to globalized 'post-modern' society. Travel is a multiple activity, encompassing temporary and voluntary displacement, repeated movement, exile, economic migration, diaspora. Places of origin are often plural and unstable, in spite of the enduring appeal of traditional labels such as 'mother country' or 'patrie'. The multiple interfaces between translation, travel and migration are the focus of all contributions in this special issue. Starting from different points of view, and using a variety of methodologies, the

authors raise fundamental questions about the way in which we perceive the link between language, national or ethnic identity, and individual voice. Topics range from the interaction between travel, travel narratives and translation in early English representations of China, to the special role played by interpreters in mediating the first contact between a literate and a non-literate culture; from the multiple functions and audiences addressed by contemporary Romani literature and its translation, to the political as well as cultural implications of translating popular music across the Bosphorus. A number of the articles focus on detailed textual analysis, covering the intersection between exile, self-translation and translanguaging in the work of Manuel Puig; the uses and limitations of translation in the works of migrant authors; or the impact on figurations of Europe of experimental work embracing polylingualism. Collectively, these contributions also underline the importance of a closer examination of our assumptions about who the translators and the interpreters are, and what roles they play in our society.
