A Fatal Thing Happened on the Way to the Forum Nov 29 2019 In Ancient Rome all the best stories have one thing in common - murder. Romulus killed Remus to found the city; Caesar was assassinated to save the Republic. Caligula was butchered in the theatre, Claudius was poisoned at dinner and Galba was beheaded in the forum. In one fifty-year period, twenty-six emperors were murdered. But what did killing mean in a city where gladiators fought to the death to sate a crowd? Emma Southon examines real-life homicides from Roman history to explore how perpetrator, victim and the act itself were regarded by ordinary people. Inside Ancient Rome's unique culture of crime and punishment, we see how the Romans viewed life, death, and what it means to be human.

Pirate Women May 16 2021 In the first-ever Seven Seas history of the world's female buccaneers, Pirate Women: The Princesses, Prostitutes, and Privateers Who Ruled the Seven Seas tells the story of women, both real and legendary, who through the ages sailed alongside—and sometimes in command of—their male counterparts. These women came from all walks of life but had one thing in common: a desire for freedom. History has largely ignored these female swashbucklers, until now. Here are their stories, from ancient Norse princess Alfhild and warrior Rusla to Sayyida al-Hurra of the Barbary corsairs; from Grace O'Malley, who terrorized shipping operations around the British Isles during the reign of Queen Elizabeth I; to Cheng I Sao, who commanded a fleet of four hundred ships off China in the early nineteenth century. Author Laura Sook Duncombe also looks beyond the stories to the storytellers and mythmakers. What biases and agendas motivated them? What did they leave out? Pirate Women explores why and how these stories are told and passed down, and how history changes depending on who is recording it. It's the most comprehensive overview of women pirates in one volume and chock-full of swashbuckling adventures that pull these unique women from the shadows into the spotlight that they deserve.

God's Shadow Jul 06 2020 The Ottoman Empire was a hub of flourishing intellectual fervor, geopolitical power, and enlightened pluralistic rule. At the helm of its ascent was the omnipotent Sultan Selim I (1470-1520), who, with the aid of his extraordinarily gifted mother, Gülbahar, hugely expanded the empire, propelling it onto the world stage. Aware of centuries of European suppression of Islamic history, Alan Mikhail centers Selim's Ottoman Empire and Islam as the very pivots of global history, redefining such world-changing events as Christopher Columbus's voyages - which originated, in fact, as a Catholic jihad that would come to view Native Americans as somehow "Moorish" - the

Protestant Reformation, the transatlantic slave trade, and the dramatic Ottoman seizure of the Middle East and North Africa. Drawing on previously unexamined sources and written in gripping detail, Mikhail's groundbreaking account vividly recaptures Selim's life and world. An historical masterwork, *God's Shadow* radically reshapes our understanding of a world we thought we knew. A leading historian of his generation, Alan Mikhail, Professor of History and Chair of the Department of History at Yale University, has reforged our understandings of the past through his previous three prize-winning books on the history of Middle East.

The Barbed Crown Aug 31 2022 In *The Barbed Crown*, the sixth tale of rogue and adventurer Ethan Gage by William Dietrich, our hero returns to Paris and London. Against a background of imperial pomp and the gathering clouds of war, Gage plots revenge on Napoleon Bonaparte for the kidnap of his son. Paris, the "City of Lights," shines - but alongside its splendor is great squalor. Heroic patriotism rubs against mean ambition, while grand strategy and back-alley conspiracy are never far apart. While Ethan spies on the French court, his wife, Astiza, works to sabotage Napoleon's coronation using the Crown of Thorns, a legendary relic said to have come from the Crucifixion itself. But when Napoleon is crowned nonetheless, they flee to England. Hadrian's Wall Aug 19 2021 A fusion of Steven Pressfield's *Gates of Fire* and the movie *Braveheart*; a novel of ancient warfare, lethal politics, and the final great clash of Roman and Celtic culture. For three centuries, the stone barrier we know as Hadrian's Wall shielded Roman Britain from the unconquered barbarians of the island's northern highlands. But when Valeria, a senator's daughter, is sent to the Wall for an arranged marriage to an aristocratic officer in 367 AD, her journey unleashes jealousy, passion and epic war. Valeria's new husband, Marcus, has supplanted the brutally efficient veteran soldier Galba as commander of the famed Petriana cavalry. Yet Galba insists on escorting the bride-to-be on her journey to the Wall. Is he submitting to duty? Or plotting revenge? And what is the mysterious past of the handsome barbarian chieftain Arden Caratacus, who springs from ambush and who seems to know so much of hated Rome? As sharp as the edge of a spatha sword and as piercing as a Celtic arrow, Hadrian's Wall evokes a lost

world of Roman ideals and barbaric romanticism.

What Hath God Wrought Dec 31 2019 The Oxford History of the United States is by far the most respected multi-volume history of our nation. In this Pulitzer prize-winning, critically acclaimed addition to the series, historian Daniel Walker Howe illuminates the period from the battle of New Orleans to the end of the Mexican-American War, an era when the United States expanded to the Pacific and won control over the richest part of the North American continent. A panoramic narrative, *What Hath God Wrought* portrays revolutionary improvements in transportation and communications that accelerated the extension of the American empire. Railroads, canals, newspapers, and the telegraph dramatically lowered travel times and spurred the spread of information. These innovations prompted the emergence of mass political parties and stimulated America's economic development from an overwhelmingly rural country to a diversified economy in which commerce and industry took their place alongside agriculture. In his story, the author weaves together political and military events with social, economic, and cultural history. Howe examines the rise of Andrew Jackson and his Democratic party, but contends that John Quincy Adams and other Whigs--advocates of public education and economic integration, defenders of the rights of Indians, women, and African-Americans--were the true prophets of America's future. In addition, Howe reveals the power of religion to shape many aspects of American life during this period, including slavery and antislavery, women's rights and other reform movements, politics, education, and literature. Howe's story of American expansion culminates in the bitterly controversial but brilliantly executed war waged against Mexico to gain California and Texas for the United States. Winner of the New-York Historical Society American History Book Prize Finalist, 2007 National Book Critics Circle Award for Nonfiction The Oxford History of the United States The Oxford History of the United States is the most respected multi-volume history of our nation. The series includes three Pulitzer Prize winners, a New York Times bestseller, and winners of the Bancroft and Parkman Prizes. The Atlantic Monthly has praised it as "the most distinguished series in American

historical scholarship," a series that "synthesizes a generation's worth of historical inquiry and knowledge into one literally state-of-the-art book." Conceived under the general editorship of C. Vann Woodward and Richard Hofstadter, and now under the editorship of David M. Kennedy, this renowned series blends social, political, economic, cultural, diplomatic, and military history into coherent and vividly written narrative.

When Scotland Was Jewish Jun 16 2021 The popular image of Scotland is dominated by widely recognized elements of Celtic culture. But a significant non-Celtic influence on Scotland's history has been largely ignored for centuries? This book argues that much of Scotland's history and culture from 1100 forward is Jewish. The authors provide evidence that many of the national heroes, villains, rulers, nobles, traders, merchants, bishops, guild members, burgesses, and ministers of Scotland were of Jewish descent, their ancestors originating in France and Spain. Much of the traditional historical account of Scotland, it is proposed, rests on fundamental interpretive errors, perpetuated in order to affirm Scotland's identity as a Celtic, Christian society. A more accurate and profound understanding of Scottish history has thus been buried. The authors' wide-ranging research includes examination of census records, archaeological artifacts, castle carvings, cemetery inscriptions, religious seals, coinage, burgess and guild member rolls, noble genealogies, family crests, portraiture, and geographic place names.

American Christians and Islam Jan 30 2020 In the wake of the September 11 terrorist attacks, many of America's Christian evangelicals have denounced Islam as a "demonic" and inherently violent religion, provoking frustration among other Christian conservatives who wish to present a more appealing message to the world's Muslims. Yet as Thomas Kidd reveals in this sobering book, the conflicted views expressed by today's evangelicals have deep roots in American history. Tracing Islam's role in the popular imagination of American Christians from the colonial period to today, Kidd demonstrates that Protestant evangelicals have viewed Islam as a global threat--while also actively seeking to convert Muslims to the Christian faith--since the nation's founding. He shows how accounts of "Mahometan" despotism and lurid stories of European enslavement by Barbary pirates fueled early evangelicals' fears concerning Islam, and describes the growing conservatism of American missions to Muslim lands up through the post-World War II era. Kidd exposes American Christians' anxieties about an internal Islamic threat from groups like the Nation of Islam in the 1960s and America's immigrant Muslim population today, and he demonstrates why Islam has become central to evangelical "end-times" narratives. Pointing to many evangelicals' unwillingness to acknowledge Islam's

theological commonalities with Christianity and their continued portrayal of Islam as an "evil" and false religion, Kidd explains why Christians themselves are ironically to blame for the failure of evangelism in the Muslim world. *American Christians and Islam* is essential reading for anyone seeking to understand the causes of the mounting tensions between Christians and Muslims today.

Nothing Happened Jun 24 2019 The past is what happened. History is what we remember and write about that past, the narratives we craft to make sense out of our memories and their sources. But what does it mean to look at the past and to remember that "nothing happened"? Why might we feel as if "nothing is the way it was"? This book transforms these utterly ordinary observations and redefines "Nothing" as something we have known and can remember. "Nothing" has been a catch-all term for everything that is supposedly uninteresting or is just not there. It will take some—possibly considerable—mental adjustment before we can see Nothing as Susan A. Crane does here, with a capital "n." But Nothing has actually been happening all along. As Crane shows in her witty and provocative discussion, Nothing is nothing less than fascinating. When Nothing has changed but we think that it should have, we might call that injustice; when Nothing has happened over a long, slow period of time, we might call that boring. Justice and boredom have histories. So too does being relieved or disappointed when Nothing happens—for instance, when a forecasted end of the world does not occur, and millennial movements have to regroup. By paying attention to how we understand Nothing to be happening in the present, what it means to "know Nothing" or to "do Nothing," we can begin to ask how those experiences will be remembered. Susan A. Crane moves effortlessly between different modes of seeing Nothing, drawing on visual analysis and cultural studies to suggest a new way of thinking about history. By remembering how Nothing happened, or how Nothing is the way it was, or how Nothing has changed, we can recover histories that were there all along.

The Three Emperors Jun 28 2022 Adventurer Ethan Gage travels through the darkest and most superstitious realms of eighteenth century Europe, to the castles and caves of Bohemia to rescue his family and uncover a mysterious medieval device rumored to foretell the future. Astiza uses her own research to concoct an explosive escape and find a lost tomb, their tormentors in relentless pursuit. The Emerald Storm May 28 2022 The year is 1803. Swashbuckling, ribald, and irreverent hero Ethan Gage has outsmarted wily enemies and survived dangerous challenges across the globe, from the wilds of the American frontier to the pyramids of Egypt. Now the rakish hero finds himself in the Caribbean with his wife, Astiza, on a desperate hunt to secure the lost treasure of Montezuma—a legendary hoard rumored to have been hidden from Cortés's plundering Spanish conquistadors. Hot on his heels are British agents who want the gold to finance a black slave revolt in Saint-Domingue, robbing hostile France of its richest colony. The French, too, seek the treasure for the secrets it contains, the key to an incredible new means of invasion that can ensure Britain's defeat—on its own land. Caught between the French and the rebel slave forces, Ethan and Astiza are in a race for gold and glory that will thrust them into the center of a bloody struggle for freedom as they try to rescue their son. And this time, Gage's luck may be running out.
