Magellan's Cross Jan 27 2022 The hero of this historical novel is Martin Olden. The story is set against the researched facts of Magellan's voyage to Asia. In 1494 the division of the globe into two spheres of influence, between Portugal and Spain, left a vital question unanswered: which country's sphere encompassed Asia - particularly the fabulously wealthy Spice Islands? In 1519 Captain-General Ferdinand Magellan led a Spanish expedition, sailing westwards, to disprove Portugal's claim to the Spice Islands and establish that much of the rest of Asia were Spain's possessions. The voyage saw a series of dramatic events - by the time Magellan's fleet reached the Magellan Strait, mutinies had left all his Spanish Captains dead or marooned and there was appalling deprivation on the long voyage across the unexpectedly vast Pacific to the Philippines. It was there that Magellan, disregarding the Spanish king's orders, attacked Lapulapu a local ruler of Mactan Island. Prior to being captured on Mactan Island, Martin Olden helped Princess Lulu, Chief Lapulapu's half-sister, a skilful healer and powerful Shaman when she was assaulted by Santos - a misogynistic Spanish sailor. Captured by Lapulapu's warriors, Martin subsequently witnessed the fate of Magellan and fell in love with Lulu.

Swept Away Apr 17 2021 In 2005 Dixie Dansercoer and Troy Henkels accepted the challenge to journey from Alaska to Siberia. They would cross unsupported--skiing, walking, swimming and paddling--relying solely on their polar experience, determination and their passion for ice and snow. The moving ice masses of the Bering Strait are unique polar territory, a ghostly and mysterious world of high powered ice movements.

The Native Americans of the Texas Edwards Plateau, 1582-1799 May 19 2021 The region that now encompasses Central Texas and northern Coahuila, Mexico, was once inhabited by numerous Native hunter-gather groups whose identities and lifeways we are only now learning through archaeological discoveries and painstaking research into Spanish and French colonial records. From these key sources, Maria F. Wade has compiled this first comprehensive ethnohistory of the Native groups that inhabited the Texas Edwards Plateau and surrounding areas during most of the Spanish colonial era. Much of the book deals with events that took place late in the seventeenth century, when Native groups and Europeans began to have their first sustained contact in the region. Wade identifies twenty-one Native groups, including the Jumano, who inhabited the Edwards Plateau at that time. She offers evidence that the groups had sophisticated social and cultural mechanisms, including extensive information networks, ladino cultural brokers, broad-based coalitions, and individuals with dual-ethnic status. She also tracks the eastern movement of Spanish colonizers into the Edwards Plateau region, explores the relationships among Native groups and between those groups and European colonizers, and develops a timeline that places isolated events and singular individuals within broad historical processes.

Mixed Emotions Nov 12 2020 * Includes five previously unpublished essays * Powerful prose sparked with Child's unique wit Well-known for his Himalayan expeditions and first ascents on rock walls in Australia and the United States, Greg Child freely admits his mixed feelings about climbing. Overwhelming are the loss of friends, the thrill of achievement, and the soul-shattering moments of risk and survival; but it is precisely these experiences that compel him to write and to continue climbing. In *Mixed Emotions*, Child remembers the mountains, the people, and the episodes that have made him feel his life acutely, including the 1986 K2 tragedy that killed 13 climbers; a near-fatal snakebite in his native Australia; and the loss of climbing partner Pete Thexton. He recalls his associations with world-renowned mountaineers Doug Scott, John Roskelley, Voytek Kurtyka, and Don Whillans. Child also narrates fascinating off-mountain journeys to a secluded Hindu shrine, and the remote, harsh landscape of the Baltoro Glacier, where progress has left its indelible mark. Finally, Child comments on some less tangible aspects of climbing, such as the ghostly presence that accompanies climbers under duress, and the meanings of and inevitable meetings with death.
