The Public Papers of Governor Brereton C. Jones, 1991-1995 Dec 21 2021 In his inaugural address, Governor Brereton C. Jones proclaimed, "This administration is committed to having the most positive, progressive, exciting four years in our state's history." Through speeches and press releases, this volume reflects the principal concerns of Jones's time in office. Thematically organized, the more than two hundred public statements included here present the public face of the Jones administration on such issues as health care, education, economic development, the environment, and governmental reform. Nowhere else has the full text of these speeches and press releases been printed. Governor Jones, born in 1939, was elected to the West Virginia legislature in 1964, where he served for four years before retiring from politics. After moving to Kentucky and switching allegiance from the Republican to the Democratic Party, he re-entered politics with a successful campaign to become lieutenant governor in 1987. He was elected the Commonwealth's fifty-fourth governor in 1991 by a record margin of nearly two to one. Jones initiated a number of reforms once in office. He turned a \$400 million budget deficit into a \$300 million surplus in four years, and he passed dramatic ethics reform in both the executive and legislative branches. Health-care issues were also of great importance to Jones, who spent the years before his election working with the Kentucky Health Care Access Foundation in addition to farming. After surviving a helicopter crash in 1992, he turned the main focus of his administration toward health-care reform and initiatives. Though he met with legislative opposition when he proposed universal health care for all Kentuckians, he did help pass legislation in 1994 that would serve as a solid beginning on the issue for future governors.

[The Big Book of Library Grant Money 2002-2003](#) Jun 26 2022 With libraries under the gun to provide more and better services, and with fewer resources in many cases, they need to come up with innovative and reliable ways to fund new initiatives. Providing targeted access to the most promising major givers, *The Big Book of Library Grant Money 2002-2003* is the largest directory available, pulled from an authoritative and upto-the-minute database of library-specific funders. This forward-looking edition includes more than 2,175 private and corporate foundations and givers that have either indicated an interest in giving money to libraries or have already done so. Organized by state, potential donors in *The Big Book* are profiled with contact and portfolio information, past contributions summary and analysis, and application information. With historical data, you can track contributions and assets and predict future giving patterns. Offering you the most hooks for connecting with actual people, *The Big Book* also provides biographical information on more than 34,000 foundation officers, directors, trustees, and corporate officers. As an added feature, ALA's own development office experts have included tips on winning grants for libraries. Tailo

The Grantseeker's Handbook of Essential Internet Sites Oct 07 2020 A review of top Websites is of particular importance to nonprofit fundraisers and other executives. This resource lists more than 500 of the best sites, including description and Web addresses, and categorizes them by corporate, foundation and association, government and research sites. It also contains a chapter on resource sites for nonprofit executives. The book is designed to save time and allow fundraisers to focus on research that will help raise the necessary funds.

Sustainable Value Chain Management Oct 31 2022 This book introduces the integrated management concept of "Sustainable Value Creation", which delivers sustainability 'inside-out' from the core business. It is based on the premise that sustainability can provide a platform for growth, if it is implemented in a company's products, services and supply chains (combined also known as the 'Value Chain'). Managing the Value Chain from the outset with a sustainability mindset subsequently allows profitable economical, ecological and societal growth. It combines the need for increased sustainability and its implementation in the operations of a company. The book addresses the following issues: How do economic, environmental and societal factors impact the value-creation process of a company? What requirements and expectations need to be met to balance economic, ecologic and societal value creation? What are the building blocks and measures that can be utilized on the journey towards building a sustainable value chain? What benefits can be achieved through sustainable value chains? What are the practical examples of sustainable value chains in leading companies that can inspire others to follow? The book includes contributions from the following organisations and companies: Beiersdorf, SAP, Klenk und Hoursch, VAUDE, Infineon Technologies, Independent Capital Management, BASF, Nanogate, the Federal German Council for Sustainable Development, Henkel, Symrise, shared.value.chain, Siemens, Fairphone and Thin Air Factory
