Pilgrims and Pilgrimage in Ancient Greece May 29 2022 This volume explores the religious motivations for pilgrimage and reveals the main preoccupations of worshippers in Ancient Greece. Dillon examines the main sanctuaries of Delphi, Epidauros and Olympia, as well as the less well-known oracle of Didyma in Asia Minor and the festivals at the Isthmus of Corinth. He discusses the modes of travel to the sites, means of communication between pilgrims and the religious and ritual practices at the sanctuaries themselves. A unique insight into pilgrimage in Ancient Greece is presented, focusing on the diverse aspects of pilgrimage; the role of women and children, the religious festivals of particular ethnic groups and the colourful celebrations involving music, athletics and equestrian events. Pilgrims and Pilgrimage in Ancient Greece is an accessible and fascinating volume, which reveals how the concept of pilgrimage contributes to Greek religion as a whole.

Roman Berytus Jul 07 2020 Examining the numerous primary sources, including inscriptions, religions, histories, literary references, legal codes, and archaeological reports, Linda Jones Hall presents a composite history of late antique Berytus - from its founding as a Roman colony in the time of Augustus, to its development into a center of legal study under Justinian. The book examines all aspects of life in the city, including geographical setting, economic base, built environment, political structures, religious transitions from paganism to Christianity, and the self-identity of the inhabitants in terms of ethnicity and occupation. This volume provides: * the first detailed investigation of late antique Phoenicia * a look at religious affiliations are traced among pagans, Jews, and Christians * a study of the bishops and the churches. The full texts of numerous narratives are presented to reveal the aspirations of the law students, the professors, and their fellow citizens such as the artisans. The study also explores the cultural implications of the city's Greek, Roman and then Syro-Phoenician heritage.

[E-governance, a Global Journey](#) Oct 29 2019 "E-governance affects every citizen. New information and communication technologies (ICTs) have made public services easier to access and information easier to obtain; fines and taxes can be processed more rapidly and votes can be counted faster. Channeling the potential of ICTs in the public sector has affected how states, and governments at all levels, do business. It will inevitably shape how they will continue to change in the future. This book has grown out of an executive training program, leading to an Executive Master's degree in e-governance, from Switzerland's âEcole Polytechnique Fâedâerale de Lausanne (EPFL). Participants in this Master's program came from all over the world; from government, the private sector and non-governmental organizations. They were all interested in electronic governance and motivated by the desire to learn from the numerous and varied e-governance experiences worldwide. The 12 chapters have been written by 10 participants, one manager and one professor involved in the program. The book is divided into four sections: e-governance visions; local e-governance; transversal e-governance issues and the future of e-governance. E-governance has already led to many significant changes in the way society operates, and this book provides some insight into how this has been achieved, as well as taking a look at the further developments which may happen in the future."--Publisher's website.

Taken at the Flood Jul 27 2019 In an absorbing account of a critical chapter in Rome's mastery of the Mediterranean, Robin Waterfield reveals the peculiar nature of Rome's eastern policy. For over seventy years, the Romans avoided annexation so that they could commit their military and financial resources to the fight against Carthage and elsewhere. Though ultimately a failure, this policy of indirect rule, punctuated by periodic brutal military interventions and intense diplomacy, worked well for several decades, until the Senate finally settled on more direct forms of control. Waterfield's fast-paced narrative focuses mainly on military and diplomatic maneuvers, but throughout he interweaves other topics and themes, such as the influence of Greek culture on Rome, the Roman aristocratic ethos, and the clash between the two best fighting machines the ancient world ever produced: the Macedonian phalanx and Roman legion.

Foreign investment in eastern and southern Europe after 2008. Jan 25 2022 This book investigates the role that foreign direct investment (FDI) in central-eastern and southern Europe has played in the post-crisis period, comparing patterns across countries and sectors. An overarching objective of this publication is to assess the extent to which FDI can still be seen as a key driver of economic development, modernisation and convergence for Europe's low- and middle-income economies, taking into account also the risks and limiting factors associated with FDI.

Roman Delphi and Its Pythian Games May 05 2020 The Pythian Games are not as well known as the Olympic Games but were nonetheless important over a period of more than a thousand years of Greek and Roman history (c.580 BC to AD 395). In this study Robert Weir examines the rise and significance of this festival of athletics, horsemanship, music and drama held at or near the Delphic temple every four years. The chapters assess the nature of the games and those taking part, its administration and financing, the experience of the visitor, and asks why individuals took part and why people chose to attend the games. Weir argues that, contrary to theories of decline, religious aspects of the games in particular ensured its continued relevance throughout the Roman period although some changes were necessary in line with the demands of the emperor and imperial ideology. The final chapters look at this imperial intervention and at festivals outside Delphi and the spread of its influence.

The Open Knowledge Society Jul 19 2021 It is a great pleasure to share with you the Springer CCIS proceedings of the First World Summit on the Knowledge Society - WSKS 2008 that was organized by the Open Research Society, NGO, <http://www.open-knowledge-society.org>, and hosted by the American College of Greece, <http://www.acg.gr>, during September 24–27, 2008, in Athens, Greece. The World Summit on the Knowledge Society Series is an international attempt to promote a dialogue on the main aspects of a knowledge society toward a better world for all based on knowledge and learning. The WSKS Series brings together academics, people from industry, policy makers, politicians, government officers and active citizens to look at the impact of information technology, and the knowledge-based era it is creating, on key facets of today's world: the state, business, society and culture. Six general pillars provide the constitutional elements of the WSKS series: • Social and Humanistic Computing for the Knowledge Society—Emerging Technologies and Systems for the Society and Humanity • Knowledge, Learning, Education, Learning Technologies and E-learning for the Knowledge Society • Information Technologies—Knowledge Management Systems—E-business and Enterprise Information Systems for the Knowledge Society • Culture and Cultural Heritage—Technology for Culture Management—Management of Tourism and Entertainment—Tourism Networks in the Knowledge Society • Government and Democracy for the Knowledge Society • Research and Sustainable Development in the Knowledge Society The summit provides a distinct, unique forum for cross-disciplinary fertilization of research, favoring the dissemination of research that is relevant to international re-

Pilgrimage Explored Oct 10 2020 The history and underlying ideology of pilgrimage examined, from prehistory to the middle ages. The enduring importance of pilgrimage as an expression of human longing is explored in this volume through three major themes: the antiquity of pilgrimage in what became the Christian world; the mechanisms of Christian pilgrimage (particularly in relation to the practicalities of the journey and the workings of the shrine); and the fluidity and adaptability of pilgrimage ideology. In their examination of pilgrimage as part of western culture from neolithic times onwards, the authors make use of a range of approaches, often combining evidence from a number of sources, including anthropology, archaeology, history, folklore, margin illustrations and wall paintings; they suggest that it is the fluidity of pilgrimage ideology, combined with an adherence to supposedly traditional physical observances, which has succeeded in maintaining its relevance and retaining its identity. They also look at the ways in which pilgrimage spilled into, or rather was part of, secular life in the middle ages. Dr JENNIE STOPFORD teaches in the Centre for Medieval Studies, University of York. Contributors: RICHARD BRADLEY, E.D. HUNT, JULIEANN SMITH, SIMON BARTON, WENDY R. CHILDS, BEN NILSON, KATHERINE J. LEWIS, DEBRA J. BIRCH, SIMON COLEMAN, JOHN ELSNER, A. M. KOLDEWEIJ.

Culture and Ideology under the Seleukids Nov 22 2021 The volume offers a timely (re-)appraisal of Seleukid cultural dynamics. While the engagement of Seleukid kings with local populations and the issue of "Hellenization" are still debated, a movement away from the Greco-centric approach to the study of the sources has gained pace. Increasingly textual sources are read alongside archaeological and numismatic evidence, and relevant near-eastern records are consulted. Our study of Seleukid kingship adheres to two game-changing principles: 1. We are not interested in judging the Seleukids as "strong" or "weak" whether in their interactions with other Hellenistic kingdoms or with the populations they ruled. 2. While appreciating the value of the social imaginaries approach (Stavrianopoulou, 2013), we argue that the use of ethnic identity in antiquity remains problematic. Through a pluralistic approach, in line with the complex cultural considerations that informed Seleukid royal agendas, we examine the concept of kingship and its gender aspects; tensions between centre and periphery; the level of "acculturation" intended and achieved under the Seleukids; the Seleukid-Ptolemaic interrelations. As rulers of a multi-cultural empire, the Seleukids were deeply aware of cultural politics.

New Testament Basics Sep 20 2021 New Testament Basics introduces college, university, seminary, and divinity school students to the study of the New Testament. Authors Stefan Alkier and David M. Moffitt adopt five major aims: (i) to explore how the Bible came to exist, dealing with the formation and significance of the Christian canon; (ii) to discuss the ways the Bible continues to exert influence on contemporary culture, demonstrating the ongoing value and importance of biblical literacy; (iii) to introduce readers to some of the most fundamental methods used in the study of the New Testament, including a substantial discussion of semiotics and its usefulness for New Testament interpretation; (iv) to provide a survey of central historical, social, and economic information as important contextual knowledge for interpreting the New Testament; and (v) to offer some brief discussion of the contents of several

New Testament texts and consider ways they might inform theological reflection. In the end, Alkier and Moffitt's *New Testament Basics* fosters within students important competencies needed to read and interpret the New Testament for themselves.

History of Humanity: From the seventh century B.C. to the seventh century A.D. Jun 17 2021 The period covered is marked by several turning-points, such as the spread of iron technology, the introduction of innovative irrigation systems and the development of new forms of urbanization. In China, India and the Mediterranean, in Central America and in parts of South America, the so-called 'Classical cultures' rose. For the first time, science attempted to develop independently of myth and religion, as a new method to explain nature and human destiny. But this period also witnessed the rise of universal religions such as Buddhism, Hinduism, Christianity and, in the seventh century, Islam.

The Fragments of the Roman Historians Jun 25 2019 Beginning with a detailed introduction explaining the history of scholarly research on the subject, the principles and methods used in editing the fragmentary texts, the literary style of the historians, and a survey of the secondary texts that cite and preserve the fragments of the lost works, these three volumes bring together everything that is known about these historians and their works. Volume one provides an introduction to each historian, outlining what is known of their life and works. Volume two sets out the critical text with facing English translation, and volume three offers a detailed and up-to-date commentary on each of the historical fragments. The work also lists the full concordances with previous editions and contains detailed indexes.

The Idea of a Town Aug 27 2019 Roman towns and their history are generally regarded as being the preserve of the archaeologist or the economic historian. In this famous, unusual and radical book which touches on such disparate themes as psychology and urban architecture, Joseph Rykwert has considered them as works of art. His starting point is the mythical, historical and ritual texts in which their foundation is recounted rather than the excavated remains, such texts having parallels not merely in ancient Greece but also further afield Mesopotamia, India and China. To achieve his reading of the Roman town, he has invoked the comparative method of the anthropologists, and he examines first of all the 'Etruscan rite', a group of ceremonies by which all, or practically all, Roman towns were founded. The basic institutions of the town, its walls and gates, its central shrines and its forum are all of them part of a pattern to which the rituals and the myths that accompanied them provide clues. Like in other 'closed' societies, these rituals and myths served to create a secure home for the citizen of Rome and to make him feel part of his city and place it firmly in a knowable universe. 'It is refreshing to look at standard themes of the history of urban design from a nonrational point of view, to see surveyors as quasi priests and orthogonal planning as a sophisticated technique touched by divine mystery . . . Rykwert's lasting worth will be to wrench us away from rationalist simplicities, and to make us face the fundamental disquiet of the human spirit in its claim to a permanent place on the land.' Spiro Kostoff, *Journal of the Society Architectural Historians*

Religion in Livy Sep 28 2019 A study of how Livy uses religious material, and how this fits in with other aspects of his narrative. Livy's work is examined systematically, to demonstrate how his approach changes in different sections. This is shown to reflect neither the subject matter nor Livy's personal beliefs, but his narrative technique.

Journal of Romanian Studies Oct 22 2021 The biannual, peer-reviewed *Journal of Romanian Studies*, jointly developed by The Society for Romanian Studies and ibidem Press, examines critical issues in Romanian studies, linking work in that field to wider theoretical debates and issues of current relevance, and serving as a forum for junior and senior scholars. The journal also presents articles that connect Romania and Moldova comparatively with other states and their ethnic majorities and minorities, and with other groups by investigating the challenges of migration and globalization and the impact of the European Union. Issue No. 6 is a Special Issue on Communication, guest-edited by Raluca Radu and Ioana Coman. It contains contributions by Radu Silaghi-Dumitrescu, Lucian-Vasile Szabo, Alla Rosca, Marius Dragomir, Dumitri?a Holdi?, Cristina Lupu, Manuela Preoteasa, Marian Voicu, Antonio Momoc, Onoritu Col?cel, Tibori Szabo Zoltan, Andrei Richter, Paolo Mancini, Anca ?incan, Roland Clark, Dana Domsodi, R. Romania Investment, Trade Laws and Regulations Handbook Volume 1 Strategic Information and Basic Laws Sep 08 2020 The Fall of Arthur, the only venture by J.R.R. Tolkien into the legends of Arthur, king of Britain, may well be regarded as his finest and most skillful achievement in the use of Old English alliterative meter, in which he brought to his transforming perceptions of the old narratives a pervasive sense of the grave and fateful nature of all that is told: of Arthur's expedition overseas into distant heathen lands, of Guinevere's flight from Camelot, of the great sea battle on Arthur's return to Britain, in the portrait of the traitor Mordred, in the tormented doubts of Lancelot in his French castle. Unhappily, *The Fall of Arthur* was one of several long narrative poems that Tolkien abandoned. He evidently began it in the 1930s, and it was sufficiently advanced for him to send it to a very perceptive friend who read it with great enthusiasm at the end of 1934 and urgently pressed him, "You simply must finish it!" But in vain: he abandoned it at some unknown date, though there is evidence that it may have been in 1937, the year of publication of *The Hobbit* and the first stirrings of *The Lord of the Rings*. Years later, in a letter of 1955, he said that he "hoped to finish a long poem on *The Fall of Arthur*," but that day never came. Associated with the text of the poem, however, are many manuscript pages: a great quantity of drafting and experimentation in verse, in which the strange evolution of the poem's structure is revealed, together with narrative synopses and significant tantalizing notes. In these notes can be discerned clear if mysterious associations of the Arthurian conclusion with *The Silmarillion*, and the bitter ending of the love of Lancelot and Guinevere, which was never written.

The Romanian Sentiment of Being Aug 20 2021 The link between language and thought formed a major new exploration of twentieth-century philosophy. Languages nuance our ideas and perceptions. Though from various angles, Heidegger, Derrida, Wittgenstein forged new ways of understanding the relationship between our views of the external world and our culturally and linguistically pre-determined modes of expression. Another giant in this field of exploration is the Romanian philosopher Constantin Noica (1909-1987), who has so far remained generally unknown to the Western World because of the Iron Curtain. *The Romanian Sentiment of Being* (Sentimentul românesc al fiin?ei), first published in Romanian in 1978, is a philosophical work at the intersection of metaphysics and philosophy of language. The title of this book may be deceptive. "Romanian" does not mean ethnically circumscribed; it does not limit ontology to nationality but rather reflects on how language can carry ontological thought. *The Romanian Sentiment of Being* invites the readers to meditate on the fundamental theme of being and how it is expressed in a culture in time. This being in time marks the tension between moment and eternity, captured in the fairytale "Ageless Youth and Deathless Life" ("Tinere?e f?r? batrâne?e ?i via?? f?r? de moarte"), which Noica interprets in detail. The translation of the story will be found in the appendix. Noica also analyzes one of the most famous poems in Romanian, Mihai Eminescu's "The Evening Star" ("Luceaf?rul"), and readers will find its translation in the appendix.
