**Greek Hymns** Nov 02 2020 William D. Furley and Jan Maarten Bremer provide the reader with as full a picture as possible of ancient Greek religious hymns which were sung either at religious services or in literary contexts imitating such services. The emphasis is laid on the edition of the Greek texts, both those which excavations of such sites as Delphi, Epidauros and Athens have produced from the 4th century BC on, and those which have been transmitted through the manuscript tradition or on papyri. The authors aim to provide full editorial assistance to the interpretation of the originals which are presented with textual variant readings, metrical analyses, general comment on the context - both historical and literary - of the texts, and then detailed line-by-line commentary. The material is divided into two volumes. The first offers, after a general introduction, all hymns in verse translation, each followed by a general discussion situating the text in the context of Greek worship. This volume as a whole is perfectly accessible to the Greekless reader; Greek citations are translated throughout. The second gives the Greek texts, apparatus criticus, metrical analysis and line-by-line commentary on language and content. Both volumes contain a bibliography and an index. Taken together, they present a 'reconstruction' of the composite genre of Greek lyric hymns, which many have lamented is hopelessly lost. The twofold approach of combining epigraphic and literary texts permits a fuller appreciation of the range of surviving texts than has hitherto been possible.

*Disciple IV* Jul 30 2020 DISCIPLE IV UNDER THE TREE OF LIFE is the final study in the four-phase DISCIPLE program and is prepared for those who have completed BECOMING DISCIPLES THROUGH BIBLE STUDY. The study concentrates on the Writings (Old Testament books not in the Torah or the Prophets), the Gospel of John, and Revelation. Emphasis on the Psalms as Israel's hymnbook and prayer book leads natural to an emphasis on worship in the study. Present through the entire study is the sense of living toward completion - toward the climax of the message and the promise, extravagantly pictured in Revelation. The image of the tree and the color gold emphasize the prod and promise in the Scriptures for DISCIPLE IV: UNDER THE TREE OF LIFE. The word under in the title is meant to convey invitation, welcome, sheltering, security, and rest - home at last. Commitment and Time Involved 32 week study Three and one-half to four hours of independent study each week (40 minutes daily for leaders and 30 minutes daily for group members) in preparation for weekly group meetings. Attendance at weekly 2.5 hour meetings. DVD Set Four of the five videos in this set contain video segments of approximately ten minutes each that serve as the starting point for discussion in weekly study sessions. The fifth video is the

unique component that guides an interactive worship experience of the book of Revelation. Under the Tree of Life Scriptures lend themselves to videos with spoken word, art, dance, music, and drama. Set decorations differs from segment to segment depending on the related Scripture and its time period. Set decoration for video segments related to the Writings generally has a Persian theme. Set decoration for the New Testament video segments emphasizes the simpler life of New Testament times.

*The MultiCapital Scorecard* Aug 11 2021 For decades now, organizations have been struggling to find the best way to address their social and environmental responsibilities alongside their economic obligations. In other words, they want to know how best to effectively manage their operations based on a triple bottom line (3BL)--one that reflects social, environmental, and economic performance. Recently, an international standard for integrated reporting has emerged that in principle emphasizes the importance of managing toward a triple bottom line. But it fails to provide specific guidance on how to do so. Organizations have been left to their own devices to respond. How should 3BL management actually be done? In this book, sustainability and performance experts Martin Thomas and Mark McElroy introduce the world's most advanced 3BL performance accounting methodology: The MultiCapital Scorecard. It is the first context-based integrated measurement, management, and reporting system. And, it can help corporations, public institutions, and other organizations answer the question they should be asking themselves for every aspect of their operations: "How much is enough for us to be sustainable?" The answers set internal performance standards against which operations and their impacts can be measured. Nothing less will do! The MultiCapital Scorecard describes this open-source methodology, which consists of a structured, quantitative measurement and reporting system that complies with international standards for 3BL integrated measurement and reporting. Moreover, the MultiCapital Scorecard is designed to help organizations assess their own 3BL performance in their own contexts with context-based metrics of their own choosing. An eminently practical management aid for integrated thinking, it can be tailored to any organization's needs. The authors also describe how and why businesses are gradually shifting from managing impacts on only one type of capital (economic) to managing impacts on multiple types. They also provide detailed examples of worked reports, showing how organizations might develop and quantify the interim and long-term goals to meet their obligations to their employees, community, shareholders, and the environment. The examples also show how an organization can use the Multicapital Scorecard methodology to assess their progress in meeting those goals, and convey that progress to their stakeholders.
