Agricultural transition in Russia, Central Asia, and Eastern Europe: Ten lessons for Venezuela Oct 27 2022 Thirty years have elapsed since the fall of communist governments in Eastern Europe and the Soviet Union. The collapse of political structures took with it regimes of highly administered management of agri-food systems. The shift from state management to markets has been generally known as the agricultural transition. The term is most frequently used in reference to the former Soviet Union and Eastern Europe, but key features of a move from dominant state intervention to greater reliance on markets characterized reforms in China after 1978, Vietnam in 1986 and thereafter, and many countries in Africa south of the Sahara during the years of structural adjustment in the 1990s. The policy reforms that constitute an agricultural transition are intrinsically difficult and made even more so when undertaken under conditions of crisis-induced chaos. Lessons from countries that have undergone the process might be of use, either as guidance or cautionary notes, to leaders and civil society groups in countries such as Venezuela that may be embarking on a transition or swept into one by circumstance. The paragraphs below attempt to summarize lessons from the early transition in Russia, Central Asia, and Eastern Europe in the 1990s.

English Language Arts, Grade 9 Module 4 Apr 21 2022 Paths to College and Career Jossey-Bass and PCG Education are proud to bring the Paths to College and Career English Language Arts (ELA) curriculum and professional development resources for grades 6–12 to educators across the country. Originally developed for EngageNY and written with a focus on the shifts in instructional practice and student experiences the standards require, Paths to College and Career includes daily lesson plans, guiding questions, recommended texts, scaffolding strategies and other classroom resources. Paths to College and Career is a concrete and practical ELA instructional program that engages students with compelling and complex texts. At each grade level, Paths to College and Career delivers a yearlong curriculum that develops all students' ability to read closely and engage in text-based discussions, build evidence-based claims and arguments, conduct research and write from sources, and expand their academic vocabulary. Paths to College and Career's instructional resources address the needs of all learners, including students with disabilities, English language learners, and gifted and talented students. This enhanced curriculum provides teachers with freshly designed Teacher Guides that make the curriculum more accessible and flexible, a Teacher Resource Book for each module that includes all of the materials educators need to manage instruction, and Student Journals that give students learning tools for each module and a single place to organize and document their learning. As the creators of the Paths ELA curriculum for grades 6–12, PCG Education provides a professional learning program that ensures the success of the curriculum. The program includes: Nationally recognized professional development from an organization that has been immersed in the new standards since their inception. Blended learning experiences for teachers and leaders that enrich and extend the learning. A train-the-trainer program that builds capacity and provides resources and individual support for embedded leaders and coaches. Paths offers schools and districts a unique approach to ensuring college and career readiness for all students, providing state-of-the-art curriculum and state-of-the-art implementation. Jose! Born to Dance Sep 26 2022 José was a boy with a song in his heart and a dance in his step. Born in Mexico in 1908, he came into the world kicking like a steer, and grew up to love to draw, play the piano, and dream. José's dreaming took him to faraway places. He dreamed of bullfighters and the sounds of the cancan dancers that he saw with his father. Dance lit a fire in José's soul. With his heart to guide him, José left his family and went to New York to dance. He learned to flow and float and fly through space with steps like a Mexican breeze. When José danced, his spirit soared. From New York to lands afar, José Limón became known as the man who gave the world his own kind of dance. ¡OLÉ! ¡OLÉ! ¡OLÉ! Susanna Reich's lyrical text and Raúl Colón's shimmering artwork tell the story of a boy who was determined to make a difference in the world, and did. José Born to Dance will inspire picture book readers to follow their hearts and live their dreams.

Two Decades of Basic Education in Rural China Jan 18 2022 This book examines how educational change has progressed in three contrasting areas spread across China since 1990, exploring key issues concerning rural education in poor, rich and minority areas. Of the three areas covered in this book, the first is a rich one near Beijing; the second is in the northwest in Shanxi on the Loess plateau; and the third is in Sichuan on the high plateau leading to Tibet. Central issues include the impact of large-scale demographic change and migration, with increasing numbers of left-behind children in sending areas, and large increases in the numbers of inbound migrants in receiving areas; dramatic increases in the boarding of children in rural areas as a result of rural school merge; changing patterns of teacher deployment; recentralization of responsibilities for school financing; and growing concerns regarding horizontal and vertical inequalities in both access and participation.

Frankenstein (Modern English Translation) Jun 23 2022 Carefully edited for modern readers to allow for easier reading Obsessed with the secret of creation, Swiss scientist Dr. Victor Frankenstein cobbles together a body he determined to bring to life. And one fateful night, he does. When the creature opens his eyes, the doctor is repulsed: his vision of perfection is, in fact, a hideous monster. Dr. Frankenstein abandons his creation, but the monster won't be ignored, setting in motion a chain of violence and terror that shadows Victor to his death. Mary Shelley's Frankenstein, a gripping story about the ethics of creation and the consequences of trauma, is one of the most influential Gothic novels in British literature. It is as relevant today as it is haunting.

Faculty Meetings with Rudolf Steiner: 1919-1924 May 22 2022 The Waldorf School movement has its roots in the chaotic period following the First World War. Struggling to create the first school, Rudolf Steiner worked on every detail. Lesson plans, religious education, school hours, course resources, administration, finance, child study; no aspect of school life was beyond his attention. Guiding the faculty and demonstrating a phenomenal range of knowledge, Steiner moved toward his goal of creating a vehicle for social transformation. These two volumes span the years 1919 to 1924 and cover, meeting by meeting, the development of the first Waldorf School. Here is Rudolf Steiner, not through the written word or lectures but in transcribed interaction that details the creation process. Participating in a work in progress, Steiner deals with an amazing array of problems, frustrations, successes and failures. His sleeves rolled up and his sight on a vision that he made a reality, Rudolf Steiner lays the foundations of Waldorf Education. This detailed look, behind the scenes, will interest not only teachers, but also parents and students: anyone who wants to know how a successful worldwide school movement arose.

My Story 1 May 10 2021 Just what exactly is social studies, you may ask? Well, it includes the study of all kinds of people and places, some far away and some next door. In this book we talk about families, like your family in your house, and also lots of people close by, which we call a town or city, and finally about even more people in cities or outside of cities, all living in big places called countries. My Story and the World Around Me is a course for lower elementary students. It includes basic introductions to history, politics, sociology, economics, and geography, and provides a fuller understanding of God's world and the cultures of the countries. This is a daily adventure-based curriculum series that encourages families to explore the world together through four nine-week quests and to understand it better from God's perspective. It is designed with elements that make weekly learning fun and interactive, including: Activity time Word find time Review time My story journal Learn all about the world while you discover more about your own. And make sure you pull out your Quest Collector Cards at the beginning of each quest. Your world map on the other side shows where you are in each lesson!
