**Assessing the value for money of OGCBuying.solutions** Oct 15 2021 OGCBuying.solutions is an executive agency of the Office of Government Commerce and a trading fund. It was established in April 2001 to maximise the value for money obtained by government departments and other public bodies through the procurement and supply of goods and services. Its operations focus on three areas: framework agreements, managed services and memoranda of undertaking. The agency reported value for money savings of £412 million in 2005-06, an increase of 71 per cent since 2003-04. Whilst these savings are judged to be significant, this NAO report identifies considerable potential to achieve further value for money savings and makes six recommendations to help OGCBuying.solutions further improve its performance. The NAO report estimates that these changes, combined with a more co-ordinated public sector procurement landscape, could achieve a potential £520 million to £660 million in further savings.

**Orthopedic Practice Management** Dec 17 2021 This unique resource provides a solid introduction to practice management for orthopedic practitioners—whether employed in a hospital setting, in private practice, or on faculty at a university setting—and it will be especially valuable to all surgeons still in their residency, providing valuable insight into how to best prepare to effectively care for patients. Orthopedists both domestic and international will benefit immensely from its contents, skills that are often overlooked in medical training. Part one presents the essentials of starting and building a practice, including strategic, personal and legal considerations, partnerships and ancillaries, keys for growth and success, incorporating mid-level providers, and the use of social media. Leadership and management are covered in part two, discussing the management of a private practice and a privademic medical center, recruitment and expansion, outcome collections, the pursuit of a dual degree, and all-important healthcare policy. Additional relevant topics are presented in part three, including surgical training and education, independent medical exams and legal depositions, board certification and maintenance, principles of clinical research, and surgical innovation. In today's ever-changing healthcare climate, practitioners must know how to deliver the medicine they spent so many years learning and perfecting. Orthopedic Practice Management is the first text dedicated to teaching surgeons the essential non-clinical fundamentals for succeeding in healthcare. No matter what stage of practice you are in—from student to master surgeon—you will find that this book contains invaluable information for achieving success in orthopedics.
