It's an excellent resource for parents and teachers as they help students meet and exceed grade level expectations on the Common Core assessment tests.

The Common Core Writing Book, 6-8 Jun 18 2019 The practices you will find in this book have been used effectively by many teachers. Here they are altered and redesigned with special attention to the CCSS-in a way that maintains the potential for teacher control and decision making in the best interest of learners. -Gretchen Owocki Whether it's developing arguments, writing informational texts, or pulling evidence from literary and informational texts to support their claims, the Common Core asks students to do the hard work of higher-level writing across the content areas. To help with the hard work of teaching, The Common Core Writing Book, 6-8 presents a comprehensive framework of strategies and lessons for enhancing or building a middle school writing curriculum. Within each section, you will find a set of instructional practices-demonstrations, collaborative engagements, and independent applications- that allow students to gradually take control of complex thinking and activity. Gretchen Owocki covers not only the English Language Arts standards, but all the writing standards for literacy in social studies, science, and technical subjects.

She identifies those lessons that work best in content-area classrooms, offers suggestions for cross-disciplinary collaboration, and provides common language for teachers across the disciplines. She shares resources and supports such as: decision trees that help you differentiate by matching students to lessons assessment tools to determine writers' needs instructional strategies, including minilessons dozens of reproducibles, including mentor texts, graphic organizers, and planning templates for writers. "Effective teaching," writes Gretchen, "is about taking note of learners' knowledge, engagement, and responses to instruction-and shaping instruction around what is observed." With her Common Core Writing Book, 6-8 you'll have a robust set of meaningful, authentic lessons and tools for not only teaching well but creating and sustaining engagement so that your writers continue to improve across the year.

Fractions & Decimals - Grades 4-6 (eBook) Aug 21 2019 This book provides a variety of activities designed to enrich and reinforce math skills taught at the fourth- through sixth-grade levels. Just Think! Grade 6 (eBook) Apr 28 2020 The goals of the educational process were classified by Benjamin Bloom into a hierarchy of educational objectives. This classification system, known as Bloom's Taxonomy, divides cognitive objectives into subdivisions ranging from simple to complex. Although other systems have been proposed, Bloom's remains widely recognized by educators and utilized in Critical Thinking curriculum. The six subdivisions include knowledge, comprehension, application, analysis, synthesis, and evaluation. This book is divided into six sections to match the subdivisions of Bloom's Taxonomy and designed to teach critical thinking skills by providing a variety of across-the-curriculum activities in math, language arts, science, social studies, history, geography, art, and music. An answer key is included.
