2016 Presidential Election 122 Apr 12 2021 Naty is in a lot of trouble and will spend the rest of her life in jail for the murder of five United States of America citizens in México. A mysterious man named Ernest offers her a way out but only if she joins his group of mercenaries. Ernest is the leader of the Union Underground Movement a group that is tasked with putting in place Operation Confederacy to fight the rise of the Confederate States of America. Naty decides to join as she is sure that the candidate of the Government of the Racist (G. O. P.) party named Nero is not going to win the 2016 Presidential Election. President Chagai and the DRats political party win the 2016 Presidential Election after a court battle in the United States of America Supreme Court. If there is no threat to the country maybe she will be out of a job. A series of events lead to the death of President Chagai and the rise of President Mohamed, the second African American president of the United States of America. Valentine's Day or February 14 is when the civil war starts in the United States of America. Nero now calling himself the second president of the Confederate States of America manages to get his supporters from the Government of the Racist (G. O. P.) party and the anti-government militias to attack the United States of America. Naty is worried about all of the people that she recruited since they are now operating in enemy territory inside of the Confederate States of America. (Word Count 64,387)
