*K2, The Savage Mountain* Nov 28 2019 When eleven climbers died on K2 on August 1, 2008, it was a stark reminder that the world's second-highest mountain has, for more than a century, been regarded as the most difficult and dangerous of all—for every four people who reach the top, one dies in the attempt. *K2, The Savage Mountain* tells the dramatic story of the 1953 American expedition, led by Charles S. Houston, when a combination of terrible storms and illness stopped the team short of the 28,251-foot summit. Then on the descent, tragedy struck, and how the climbers made it back to safety is renowned in the annals of climbing. *K2, The Savage Mountain* captures this sensational tale with an unmatched power that has earned this book its place as one of the classics of mountaineering literature.

[The Apocalypse](#) Jul 25 2019 A sequel to *The Waiter* (2000), *The Apocalypse* explores a time twenty years later in the life of Barnett Gary when millions of Blacks have perished from gun violence and AIDS, with the remaining numbers left to live on reservations scattered about the Washington D.C. area. When terrorist acts reduce an already desolate land to cringing in fear, the restaurant business that Gary has known and worked his whole life in is left in ruins for the lack of patrons. With his self-respect destroyed by the lack of ability to provide for his wife and son, Gary turns to Sylvia, a girl half his age who makes him feel wanted. Gary and Sylvia begin an affair that brings about

devastating consequences for the both of them.

Backpacker's Editors' Choice Awards, an industry honor recognizing design, feature and product innovation, has become the gold standard against which all other outdoor-industry awards are measured.

**Mule** Jun 23 2019 Meet Chris Heifner, overachieving drug runner for a Mexican marijuana cartel. But he wasn't always. This one-time econ student from Texas—broke, deep in debt, and facing eviction with a growing family to support—yielded to the temptation that he had resisted countless times before and went to work for his best friend from college, Jake Andes. But it wasn't exactly a Career Day kind of job. Andes was a big-time dealer, captaining a \$25-million-a-year empire. Heifner became a mule, running multi-hundred-pound loads from Juárez around the country. After digging himself out of his financial hole, Heifner contemplated going clean. But the money and the lifestyle had hooked him, so he kept moving loads. He was so good that Andes was grooming him to become his second-in-command. And then Heifner got busted with \$300,000 worth of dope in a rental car, and his world came crashing down. After bailing out of jail, Heifner went home for a much-needed shower. He emerged to find Andes and a hit man hired to kill him and his family should he decide to narc. Heifner realized that he had only one option: to flip and become an informant for the DEA. That's when life got really dangerous.

Lou Whittaker May 15 2021 \* The only biography of this Northwest's climbing hero \* Features 15 color photos \* Remarkable stories of climbs on K2, Kangchenjunga, and Denali \* Features stories about Jim Wickwire, Pete Schoening, John Roskelley, Joe Kennedy, Jr., Peter Whittaker, and Willi Unsoeld Lou Whittaker has been one of America's most respected climbers for more than four decades. He began his illustrious mountaineering career as a teenager in the Pacific Northwest, climbing insatiably with his twin brother, Jim. He earned coveted spots on expeditions to formidable peaks in Alaska, the Himalaya, and the Karakoram, and went on to lead the expedition that made the first American ascent of the North Col on Everest in 1984. To Northwesterners, Lou's name is synonymous with Mount Rainier, where he has guided thousands to its summit since his own first ascent of the mountain at age 19. In *Lou Whittaker: Memoirs of a Mountain Guide*, Lou is at his storytelling best as he shares adventures and wisdom honed from the wild times of his youth to his more recent climbs with some of the country's best mountaineers. Tales of life as a young mountain rescuer, and later as mentor to others, are filled with his trademark humor, boundless energy, and compassion. He weaves his simple and practical philosophy through memories of climbing with Jim Wickwire, Pete Schoening, John Roskelley, Joe Kennedy, Jr., and a host of other celebrities and VIPs. He recounts amazing episodes on Mount McKinley, K2, Everest, Kangchenjunga, and his beloved Mount Rainier. Evident and inspiring throughout are his love for climbing and for life -- even amidst the loss of friends and promising young proteges. When it comes down to dying, Lou says, "I want to know what it is like to have really lived."

Innovating Analytics Apr 13 2021 How does a CEO, manager, or entrepreneur begin to sort out what defines and drives a good customer experience and how it can be measured and made actionable? If you know how well the customer experience is satisfying your customers and you know how to increase their satisfaction, you can then increase sales, return visits, recommendations, loyalty, and brand engagement across all channels. More reliable and more useful data leads to better decisions

and better results. Innovating Analytics is also about the need for a comprehensive measurement ecosystem to accurately assess and improve the other elements of customer experience. This is a time of great change and great opportunity. The companies that use the right tools and make the right assessments of how to satisfy their customers will have the competitive advantage. Innovating Analytics introduces an index that measures a customer's likelihood to recommend and the likelihood to detract. The current concept of the Net Promoter Score (NPS) that has been adopted by many companies during the last decade—is no longer accurate, precise or actionable. This new metric called the Word of Mouth Index (WoMI) has been tested on hundreds of companies and with over 1.5 million consumers over the last two years. Author Larry Freed details the improvement that WoMI provides within what he calls the Measurement Ecosystem. He then goes on to look at three other drivers of customer satisfaction along with word of mouth: customer acquisition, customer loyalty, and customer conversion.

**The 1961 Seattle Mountaineers Summer Expedition to Mount Robson** Jun 27 2022 In 2010, Buz Randall was working to preserve the photographs that he originally took during the 1961 Seattle Mountaineers Summer Expedition to Mount Robson. As Buz reorganized his color slides and made new electronic copies of images that were nearly 50 years old, he reminisced about his father, Al Randall, the interesting people who took part in the expedition, and the difficult climb that they were able to complete. In conjunction with more than forty color photographs, this book is a record of these important recollections and an exciting piece of mountaineering history associated with Mount Robson.

*High and Mighty* Jun 15 2021 SUVs have taken over America's roads. Ad campaigns promote them as safer and "greener" than ordinary cars and easy to handle in bad weather. But very little about the SUV's image is accurate. They poorly protect occupants and inflict horrific damage in crashes, they guzzle gasoline, and they are hard to control. Keith Bradsher has been at the forefront in reporting the calamitous safety and environmental record of SUVs, including the notorious Ford-Firestone rollover controversy. In *High and Mighty*, he traces the checkered history of SUVs, showing how they came to be classified not as passenger cars but as light trucks, which are subject to less strict regulations on safety, gas mileage, and air pollution. He makes a powerful case that these vehicles are even worse than we suspect--for their occupants, for other motorists, for pedestrians and for the planet itself. In the tradition of *Unsafe at Any Speed* and *Fast Food Nation*, Bradsher's book is a damning exposé of an industry that puts us all at risk, whether we recognize it or not.
