Matte finish, soft cover Perfect composition book for taking notes, making lists, journaling, or a diary.

Freud's Mistress Nov 06 2020 "A thrilling story of seduction, betrayal, and loss, Freud's Mistress will titillate fans of *Memoirs of a*

Geisha and *The Other Boleyn Girl*."—Booklist In fin-de-siècle Vienna, it was not easy for a woman to find fulfillment both intellectually and sexually. But many believe that Minna Bernays was able to find both with one man—her brother-in-law, Sigmund Freud. At once a portrait of two sisters—the rebellious, independent Minna and her inhibited sister, Martha—and of the compelling and controversial doctor who would be revered as one of the twentieth century's greatest thinkers, Freud's *Mistress* is a novel rich with passion and historical detail and "a portrait of forbidden desire [with] a thought-provoking central question: How far are you willing to go to be happy?"* *Publishers Weekly

Hard Child Oct 17 2021 Natalie Shapero spars with apathy, nihilism, and mortality, while engaging the rich territory of the 30s and new motherhood

Great Tractors Feb 27 2020 Relates the history of the tractor and shows the changes in design that have resulted in the diesel-powered giants of today.

[Business Analysis with Microsoft Excel](#) Apr 11 2021 Provides information on the use of Excel in financial statements and analysis, financial planning and control, investment decisions, and sales and marketing.

The Economics of Alfred Marshall Mar 22 2022 The Economics of Alfred Marshall brings

together a number of leading international scholars for a timely reappraisal of Marshall's contribution to the development of economics. The aims of the contributors are firstly to revisit the work of Alfred Marshall and to investigate the unity of his projects, which contemporary authors often tend to underestimate; and secondly to show how Marshall's approach is not only a subject for historians of economic thought, but may also provide a message that is relevant for the progress of economics.

Twice Freed Jan 08 2021 Onesimus is a slave. Eirene is a rich merchant's daughter. Onesimus longs to gain his freedom and Eirene's love. However, he doesn't realize where true freedom lies. He wants nothing to do with Jesus Christ. His master, Philemon, may follow the teachings of the Christ and his apostle Paul... but Onesimus has other plans.

Neural Networks for Beginners May 12 2021
Do you want to understand Neural Networks and learn everything about them but it looks like it is an exclusive club? Are you fascinated by Artificial Intelligence but you think that it would be too difficult for you to learn? If you think that Neural Networks and Artificial Intelligence are the present and, even more, the future of technology, and you want to be part of it... well you are in the right place, and you are looking at the right book. If you are reading these lines you have probably already noticed this: Artificial Intelligence is all around

you. Your smartphone that suggests you the next word you want to type, your Netflix account that recommends you the series you may like or Spotify's personalised playlists. This is how machines are learning from you in everyday life. And these examples are only the surface of this technological revolution. Either if you want to start your own AI enterprise, to empower your business or to work in the greatest and most innovative companies, Artificial Intelligence is the future, and Neural Networks programming is the skill you want to have. The good news is that there is no exclusive club, you can easily (if you commit, of course) learn how to program and use neural networks, and to do that Neural Networks for Beginners is the perfect way. In this book you will learn: The types and components of neural networks The smartest way to approach neural network programming Why Algorithms are your friends The "three Vs" of Big Data (plus two new Vs) How machine learning will help you making predictions The three most common problems with Neural Networks and how to overcome them Even if you don't know anything about programming, Neural Networks is the perfect place to start now. Still, if you already know about programming but not about how to do it in Artificial Intelligence, neural networks are the next thing you want to learn. And Neural Networks for Beginners is the best way to do it. Download Neural Network for Beginners now to get the best start for your journey to Artificial Intelligence. Scroll to the

Marine Diesel Engines Jun 01 2020 Nigel Calder, a diesel mechanic for more than 25 years, is also a boatbuilder, cabinetmaker, and machinist. He and his wife built their own cruising sailboat, Nada, a project they completed in 1984. Calder is author of numerous articles for Yachting Monthly and many other magazines worldwide, as well as the bestselling Boatowner's Practical and Technical Cruising Manual and Boatowner's Mechanical and Electrical Manual, both published by Adlard Coles Nautical. Here, in this goldmine of a book, is everything the reader needs to keep their diesel engine running cleanly and efficiently. It explains how diesel engines work, defines new terms, and lifts the veil of mystery that surrounds such engines. Clear and logical, this extensively

illustrated guide will enable the reader to be their own diesel mechanic. As Nigel Calder says: 'there is no reason for a boatowner not to have a troublefree relationship with a diesel engine. All one needs is to set the engine up correctly in the first place, to pay attention to routine maintenance, to have the knowledge to spot early warning signs of impending trouble, and to have the ability to correct small ones before they become large ones.'

The Last Resort: A Memoir of Zimbabwe Dec 19 2021 In *The Last Resort*, journalist Douglas Rogers tells the eye-opening, harrowing and, at times, surprisingly funny story of his parents' struggle for survival in war-torn Zimbabwe. An inspiring, edgy roller-coaster adventure, it is also a deeply moving testament to the love and loyalty inspired by Zimbabwe and her people.

Life In Different Colours Jul 14 2021 If one can safely assume something, many of us who love reading are unable to do so due to lack of time to read a full novel running into a number of pages. *Life in Different Colours* offers the readers short and captivating stories, which focus on some facets of life as seen by the author, woven into a world of fiction. Each story in this book can be read within a

maximum of thirty to forty minutes. But that is not all. The author hopes that, through his imagination captured in these stories, these stories will not only make for a good read but also help the readers in some manner.

The Vindico Dec 07 2020 *X-Men meets The Breakfast Club* in this darkly humorous adventure *The Vindico* are a group of supervillains who have been fighting the League of Heroes for as long as anyone can remember. Realizing they're not as young as they used to be, they devise a plan to kidnap a group of teenagers to take over for them when they retire--after all, how hard can it be to teach a bunch of angsty teens to be evil? Held captive in a remote mansion, five teens train with their mentors and receive superpowers beyond their wildest dreams. Struggling to uncover the motives of the *Vindico*, the teens have to trust each other to plot their escape. But they quickly learn that the differences between good and evil are not as black and white as they seem, and they are left wondering whose side they should be fighting on after all . . . With fast-paced action, punchy dialogue, and sarcastic humor, this high-stakes adventure from a talented new YA voice pulls you in from the first page.

Industrial Maintenance and Mechatronics Aug 15 2021 "*Industrial Maintenance and Mechatronics* provides support for an Industrial Technology Maintenance (ITM) program. It covers the principal industrial technology disciplines, with a focus on electrical systems

and electronic controls. It provides students with the necessary knowledge for entry-level positions in industrial maintenance and prepares them for NIMS Level 1 credentialing"-

Transmediality in Independent Journalism Jun 25 2022 *Transmediality in Independent Journalism* investigates mainstream journalism and its escape routes to independence through transmedia strategies. Within the scope of the latest debates in Turkey, the author argues that the function of transmediality in Turkish journalism is gradually shifting from being only a commercial entity to becoming a political system for social change, a survival mechanism for independent journalists to reach out to diverse audiences, and gain back the public trust. Bringing a fresh perspective to recent studies on cultures of transmediality along with an in-depth analysis of three contemporary Turkish cases, the book: Builds upon questions of whether transmedia storytelling can offer a support system to construct an alternative news media world in a political context such as Turkey's Examines how transmedia storytelling can reach places the mainstream news media can't control Explores whether transmedia storytelling can sustain the survival of an independent journalist in Turkey's political context Looking beyond the case of Turkey, this

study will be an important addition to the literature on rethinking journalistic form and practice, teaching transmedia strategies, and social communication. It will be of great benefit to students and scholars of journalism studies, transmedia studies, and media and communication studies.

Greater Cincinnati Religious Peacemakers

Feb 21 2022 Throughout human history, wars and violence have often been waged in the name of religions and in the name of diverging religious beliefs and belonging. Ironically, though, all religions in their teachings speak of nonviolence and have in common the promotion of peace and justice, namely the respect of human life and dignity, the institution of human rights, the protection of the poor and vulnerable, the freeing of the oppressed, the active elimination of injustice? It seems therefore, that violence and wars would be antithetical to religions; yet they are so frequently used as their justification. Are we then speaking of different "religions"? "Institutional religions," the ones structured by humans and that are brandished to lead violence and wars, become in fact quite foreign to the essence of the religions as they were established by their founders and that they intend to represent; they actually contribute to their destruction. Wanting to reflect on that point, I embarked, a few years ago, on giving voice to local religious individuals, whom I called "Religious Peacemakers," and who, each by living the essential teachings of their

particular faith, contributed by their actions to peace and justice. I wanted to prove that their path, irrespective of their original religion, would be similar, and that their diverse faith, instead of separating them, would on the contrary end up uniting them.

Scalia Dissents Jun 13 2021 Brilliant. Colorful. Visionary. Tenacious. Witty. Since his appointment to the Supreme Court in 1986, Associate Justice Antonin Scalia has been described as all of these things and for good reason. He is perhaps the best-known justice on the Supreme Court today and certainly the most controversial. Yet most Americans have probably not read even one of his several hundred Supreme Court opinions. In *Scalia Dissents*, Kevin Ring, former counsel to the U.S. Senate's Constitution Subcommittee, lets Justice Scalia speak for himself. This volume—the first of its kind—showcases the quotable justice's take on many of today's most contentious constitutional debates. *Scalia Dissents* contains over a dozen of the justice's most compelling and controversial opinions. Ring also provides helpful background on the opinions and a primer on Justice Scalia's judicial philosophy. *Scalia Dissents* is the perfect book for readers who love scintillating prose and penetrating insight on the most important constitutional issues of our time.

Manufacturing Facilities Design and

Material Handling Sep 16 2021 This project-oriented facilities design and material handling reference explores the techniques and procedures for developing an efficient facility layout, and introduces some of the state-of-the-art tools involved, such as computer simulation. A "how-to," systematic, and methodical approach leads readers through the collection, analysis and development of information to produce a quality functional plant layout. Lean manufacturing; work cells and group technology; time standards; the concepts behind calculating machine and personnel requirements, balancing assembly lines, and leveling workloads in manufacturing cells; automatic identification and data collection; and ergonomics. For facilities planners, plant layout, and industrial engineer professionals who are involved in facilities planning and design.

SBAs, EMQs & SAQs in SURGERY Oct 05 2020 'SBAs, EMQs & SAQs in SURGERY' provides a broad range and style of questions, not only for medical students preparing for their final exams, but also for those clinicians preparing for their postgraduate exams. This book includes over 200 single best answer questions (SBAs), 400 extended matching questions (EMQs) and 100 short answer questions (SAQs), giving the reader a wide variety of topics to test their exam knowledge and technique. It is an invaluable educational resource for exam preparation and to help you succeed. Over 700 questions on the core

medical subjects. • Compiled by a team of junior doctors with recent final exam and postgraduate specialty exam experience. • Overseen by experienced doctors to ensure relevance and accuracy. • The broad medical curriculum is covered in a succinct and consistent style. • Clear and concise answers

are provided. • Easy accessible information to facilitate revision on the move. • Enables the reader to assess their knowledge and help identify gaps in their knowledge to target revision. • The following main specialties are covered: - Upper gastrointestinal surgery; - Lower gastrointestinal surgery; - Vascular surgery; - Breast surgery; - Urology; -

Neurosurgery; - Ear, nose and throat surgery; - Trauma & orthopaedics; - Fluids & electrolytes. Watch out for our other titles in the MedQ4exams series: - Medicine - The Specialties - Practice papers
