How to Be a Spy Nov 28 2019
During World War II, training
in the black arts of covert
operation was vital preparation
for the 'ungentlemanly warfare'
waged by the Special
Operations Executive (SOE)
against Hitler's Germany and
Tojo's Japan. Reproduced here
is the most comprehensive
training syllabus used at SOE's
Special Training Schools

(STSS) showing how agents
learnt to wreak maximum
destruction in occupied Europe
and beyond. The training took
place in country houses and
other secluded locations
ranging from the Highlands of
Scotland to Singapore and
Canada. An array of
unconventional skills are
covered - from burglary, close
combat and silent killing
through to propaganda,
surveillance and disguise -
giving insight into the workings
of one of World War II's most
intriguing organizations. Denis
Rigden's introduction sets the
documents in its historical
context and includes stories of
how these lessons were put
into practice on actual wartime
