The Law Officer's Pocket Manual Feb 12 2021 The Law Officer's Pocket Manual is a handy, pocket-sized, spiral-bound manual that highlights basic legal rules for quick reference and offers examples showing how those rules are applied. The manual provides concise guidance based on U.S. Supreme Court rulings on constitutional law issues and other legal developments, covering arrest, search, surveillance, and other routine as well as sensitive areas of law enforcement. It includes more than 100 examples drawn from leading cases to provide guidance on how to act in a wide variety of situations. The 2021 edition is completely updated to reflect recent court decisions. This book helps you keep track of everything in a readable and easy-to-carry format. Some important case rulings from the past 12 months include: The U.S. Supreme Court made clear that it is common sense for an officer pulling over a vehicle to assume, without additional evidence, that the driver is

the registered owner. The U.S. Supreme Court appeared to signal the end to so-called Bivens suits filed against federal officers for constitutional violations. The First Circuit extended the community caretaking doctrine to the home in finding officers' warrantless entry justified. In the continuing evolution of the stop-and-frisk doctrine, the Second Circuit ruled that officers need more than a belief that a suspect possess something illicit—they must reasonably believe the suspect may pose a threat. The Tenth Circuit ruled that an officer's 15-minute phone call to a national database was reasonable and did not impermissibly extend a traffic stop. The Seventh Circuit said that the smell of marijuana combined with a driver's "shocked" body language justified a trunk search. The Fourth Circuit tossed a man's gun convictions after the officers arrested the man at his girlfriend's residence without probable cause that he lived there. An Officer's Manual of the Western Front Sep 02 2022 Many people have the idea that the 'Great War' on the Western Front was simple, if ghastly, to fight - with few tactics, and unbroken, monotonous, trench lines as the main feature of the battlefield. In such a scenario the archetypal image of battle is of soldiers with rifles and bayonets charging each other in blind obedience to stupid repetitious orders. Though undeniably bloody the war was in fact a ferment of new ideas and new weapons. Gas, flame throwers, super-heavy artillery, concrete bunkers, tanks, aircraft and other innovations were all introduced, whilst older notions such as barbed wire, machine guns and armour took on a new lease of life. No single manual was ever enough to encompass 'modern war', and even before 1914 numerous publications were required. With the focus on the Western Front and the soldiers fighting there, this unique compendium collects together a huge variety of contemporary

manuals, leaflets and booklets, and shows how although operations often failed, British commanders made attempts to devise new tactics and weaponry.

The Royal Navy Officer's Jutland Pocket-Manual 1916 Jan 14 2021 Published in the months leading up to the Battle of Jutland, W.M. James' New Battleship Organisations, was the ultimate guide to command and organization of every aspect of a modern First World War capital ship. The book provides a unique, and highly revealing, insight into life aboard ship, the mechanics of command, seamanship, the issuing of orders, and the broad expectations placed upon British naval officers. Specific sections are dedicated to the organization of watches, the division of work (from fellow officers right through the ship's company to the ratings), naval routine, parades, anchor and cable work, coaling and right down to the organization of chapel, on-board shops, cleaning and even the ship's barbers. A series of detailed tables, diagrams and humorous cartons accompany the lucid, period language of the First World War Senior Service and provide a further glimpse below-decks that will appeal to social and family historians, and anyone with a general or specialist interest in naval history. The book, re-published here by the Pool of London Press as *The Royal Navy Officer's Jutland Pocket-Manual 1916*, marks the centenary of the First World War's most famous, and deadly naval encounter.
