The Non-governmental Voice at the United Nations Third Special Session on Disarmament, New York, 31 May-25 June 1988 Jun 24 2019 From the John Holmes Library collection.

Call to Mission and Perceptions of Proselytism Aug 26 2019 Proselytism remains one of the most divisive issues in global Christianity, jeopardizing many ecumenical initiatives and projects. Almost all traditions accuse others of proselytism, but none readily confess to it, as one tradition's mission and evangelism is another's proselytism. This work brings together, for the first time, significant formal statements from Christian bodies and churches alongside articles from leading commentators in this hotly contested issue. It gives clergy, academics, and students a vital resource in understanding the perspectives of different traditions, and therefore the opportunity to study and understand viewpoints and opinions from competing perspectives. The volume originates in a process of work commissioned by the World Pentecostal Fellowship, the World Council of Churches, the World Evangelical Alliance,

and the Roman Catholic Church, under the auspices of the Global Christian Forum. We discovered that there are no easy answers that resolve the tensions and debates about proselytism, but through listening and understanding different voices, new opportunities for establishing constructive relationships can and do emerge.

Bulletin of the Atomic Scientists Oct 28 2019

The Forbidden Relations and the Early Tannaim Jan 30 2020 Is there an idiosyncratically Jewish hermeneutic? Did such ever obtain in Jewish history? Is there an idiosyncratically Jewish theology? Did such ever obtain in Jewish history? Did the two ever obtain at once and together in Jewish history? The answer to all of these questions is: Yes. Come and explore -- with an idiosyncratically odd interpreter of things Jewish -- a special brief moment in the history of Jewish letters. One is speaking of roughly 75 CE to roughly 95 CE. Come and explore what was birthed in that time period. Come and explore how what was birthed in that time period came to be rejected and suppressed on the day of the coiled snake. Come and explore how, miraculously, what was rejected and suppressed ended up being re-inscribed in the final redaction of the Bavli, rendering that written production as the quintessential expression of what is idiosyncratically Jewish.

Title 26 Internal Revenue Part 1 (§ 1.1551 to end of part 1) (Revised as of April 1, 2014) Dec 23 2021 The Code of Federal Regulations Title 26 contains the codified Federal laws and regulations that are in effect as of the date of the publication pertaining to Federal taxes and the Internal Revenue Service.

A Guide to the Final Document of the Special Session on Disarmament, 3 May - 1 July 1978 Sep 19 2021

Digest of United States Practice in International Law 2006 Jan 12 2021 Co-published by Oxford University Press and the International Law Institute, and prepared by the Office of the Legal Adviser at the Department of State, this annual compilation of documents and commentary highlighting significant developments in public and private international law, and is an invaluable resource for practitioners and scholars in the field. Each annual edition compiles excerpts from documents such as treaties, diplomatic notes and correspondence, legal opinion letters, judicial decisions, Senate committee reports and press releases. All of the documents which are excerpted in the Digest are selected by members of the Legal Adviser's Office of the U.S. Department of State, based on their judgments about the significance of the issues, their potential relevance to future situations, and their likely interest to practitioners and scholars. In almost every case, the commentary to each excerpt is accompanied by a citation to the full text.

Space Law in the United Nations Mar 02 2020 Space Law: A Case Study for the Practitioner: Implementing a

Telecommunications Satellite Business Concept concentrates on the law governing commercial space ventures, commercial telecommunications satellite projects, in particular. The telecommunications satellite industry is by far the most mature of all the commercial space industries with a commensurate body of law governing it, & many of the same types of regulatory processes & private law transactions discussed in this book also pertain to the implementation of other commercial, & even non-commercial & military space ventures. The reader will find a clear description of the necessary legal actions lawyer & client must take to provide for the construction, launching & operation of a privately-owned telecommunications satellite. Both international & national laws & regulations pertaining to space projects are discussed. A step-by-step approach to legal actions has been adopted to help make the book a practical, easy-to-use reference tool. It is designed to assist lawyers in private practice, government attorneys, corporate legal counsel, entrepreneurial executives & teachers & students of space law.

Dignity Therapy Oct 21 2021 Maintaining dignity for patients approaching death is a core principle of palliative care. Dignity therapy, a psychological intervention developed by Dr. Harvey Max Chochinov and his internationally lauded research group, has been designed specifically to address many of the psychological, existential, and spiritual challenges that patients and their families face as they grapple with the reality of life drawing to a close. In the first book to lay out the blueprint for this unique and meaningful intervention, Chochinov addresses one of the most important dimensions of being human. Being alive means being vulnerable and mortal; he argues that dignity therapy offers a way to preserve meaning and hope for patients approaching death. With history and foundations of dignity in care, and step by step guidance for readers interested in implementing the program, this volume illuminates how dignity therapy can change end-of-life experience for those about to die - and for those who will grieve their passing.

Final Environmental Impact Statement Aug 31 2022

BANTAM User Guide Oct 09 2020 BANTAM is the first modeling language specifically designed for applications in Biometrics and Token Technology. It represents a significant step forward for the design and implementation of biometric and related technology applications in that: - it is very simple to learn and use; - it offers a consistent system of documentation and a clarity of presentation which make the accurate description of user requirements much easier; - it provides a complete methodology for managing the project from original business case, through procurement and implementation, to subsequent training and support. "The User Guide" provides much more than just a guide to the Bantam methodology: readers will also find lots of good advice on program management in general and will gain an insight into designing biometric and related applications. It will be essential reading for anyone who is serious about biometrics and related technologies, including governmental/corporate end-users, systems integrators, biometric vendors, application developers and device manufacturers. It will also be useful background reading for advanced students and IT and management consultants. Reviews of Julian Ashbourn's first book: "Biometrics: Advanced Identity Verification": "You could attend a dozen conferences and not come away with the kind of overview presented in this new book". Dave Mintie, Connecticut Department of Social Services " a highly readable, entertaining guidebook that should serve as a welcome companion for anyone who must promote, explain, justify, or control an organization's transition to biometric technology." Richard Norton, Executive Director, International Biometrics Industry Association
