My Walk with My Sister Aug 30 2022 Everyone has noticed changes in Brenda. She has become more demanding, caring less about her appearance, and not letting anyone come to her house-alienating friends. Then the call comes from her employer. "Brenda didn't show up for work today." Brenda has always received awards for never missing work. Her family had to break into her home when she didn't answer the door. She was lying on the bed and acted as if nothing is wrong. What they discovered when they open the door was breathtaking. She has been hoarding, and her home was filthy. But that's not the only discovery. Brenda was diagnosed at age fifty-six with a rare brain disorder, Frontotemporal Degeneration (FTD). This disease is so rare that it is hard to diagnose-hard to treat, hard to deal with, and hard to pronounce-even harder to accept. All cases of FTD present differently. Treatment is different for each patient, so no one can tell you what to expect. Her sister becomes her primary caregiver. Along with help from family and friends, they walked the journey of frontotemporal degeneration together. Trial and error became the norm. They learned to love and accept the new Brenda, one who is childlike, loving, and happy. Our hope is that this book will give comfort to families who have a family member or friend with FTD. Please know that your journey is never walked alone. God is ever present and sometimes sends a sign that he loves you and everything is going to be okay.

Ship of Dreams Oct 08 2020 Half a century before Titanic, another famous shipwreck captured the hearts and imagination of the world. In 1857, laden with gold and adventurers fresh from the California Gold Rush, the luxury

sidewheel steamer SS Central America went down in a hurricane off the Carolina coast. Many were saved, many were lost, and lives were changed forever. Relive the experiences of her passengers, as told through the eyes of a fictitious couple who find love and danger on the high seas aboard this first "Ship of Dreams." On her own in wild, wicked, post-Gold Rush San Francisco, Della Gilliland has become a bit of a con artist, though a harmless one. Falsely accused of murder by a rival snake-oil salesman, she is forced to flee the lawless city's vigilantes aboard an outbound steamer. Surely her quick wits—and tongue—can convince someone to help her until her pursuers are far behind. Stuffy New York businessman Kent Bradford is shocked when a lovely redhead he's never met suddenly introduces herself as his wife to an important business contact. Fearing a scene, he plays along . . . for the moment. But moments turn into weeks and growing attraction becomes something more. Then, only days out from New York, their ship encounters a hurricane that threatens not only their budding love, but their very lives. Book 2 of the Americana Dreaming series *As Nature Made Him* Mar 01 2020 NEW YORK TIMES BESTSELLER "We should aspire to Colapinto's stellar journalist example: listening carefully to the circumstances of those who are different rather than demanding that they conform to our own." —Washington Post The true story about the "twins case" and a riveting exploration of medical arrogance, misguided science, societal confusion, gender differences, and one man's ultimate triumph In 1967, after a twin baby boy suffered a botched circumcision, his family agreed to a radical treatment that would alter his gender. The case would become one of the most famous in modern medicine—and a total failure. The boy's uninjured brother, raised as a boy, provided to the experiment the perfect matched control. *As Nature Made Him* tells the extraordinary story of David Reimer, who, when finally informed of his medical history, made the decision to live as a male. Writing with uncommon intelligence, insight, and compassion, John Colapinto sets the historical and medical context for the case, exposing the thirty-year-long scientific feud between Dr. John Money and his fellow sex researcher, Dr. Milton Diamond—a rivalry over the nature/nurture debate whose very bitterness finally brought the truth to light. A macabre tale of medical arrogance, it is first and foremost a human drama of one man's—and one family's—amazing survival in the face of terrible odds.

Do Glaciers Listen? Mar 13 2021 *Do Glaciers Listen?* explores the conflicting depictions of glaciers to show how natural and cultural histories are objectively entangled in the Mount Saint Elias ranges. This rugged area, where Alaska, British Columbia, and the Yukon Territory now meet, underwent significant geophysical change in the late eighteenth and nineteenth centuries, which coincided with dramatic social upheaval resulting from European exploration and increased travel and trade among Aboriginal peoples. European visitors brought with them varying conceptions of nature as sublime, as spiritual, or as a resource for human progress. They saw glaciers as inanimate, subject to empirical investigation and measurement. Aboriginal oral histories, conversely, described glaciers as sentient, animate, and quick to respond to human behaviour. In each case, however, the experiences and ideas surrounding glaciers were incorporated into interpretations of social relations. Focusing on these contrasting views during the late stages of the Little Ice Age (1550-1900), Cruikshank demonstrates how local knowledge is produced, rather than discovered, through colonial encounters, and how it often conjoins social and biophysical processes. She then traces how the divergent views weave through contemporary debates about cultural meanings as well as current discussions about protected areas, parks, and the new World Heritage site. Readers interested in anthropology and Native and northern studies will find this a fascinating read and a rich addition to circumpolar literature.

Buried Jul 05 2020 From bestselling author Brenda Rothert comes a standalone romantic suspense about two people who find love in a most unlikely place. Do you believe in fate? I didn't. I'd worked since childhood to become an NFL starting quarterback. All the blood, sweat, and tears were about to pay off with my name in the record books. Setting an NFL record was going to be the crowning achievement of my career. Hell, of my life. But then fate, the cagey bitch, threw me a curveball I never saw coming. I ended up trapped in a doomsday bunker with four strangers, my chances at that record slipping away as days turned into months. I never would've given Erin a second look. She was gorgeous, sure, but not my type. I liked women who were strong. Fearless. Resilient. Not to mention that she hated me. But I was so wrong about her. And in that bunker, I fell in crazy, stupid love. I thought a record would be my greatest triumph. But now, all I want is a shot with Erin. I've faced down massive linebackers intent on ending me.
