Great Habits, Great Readers Mar 05 2020 A book that brings the habits of reading to life Great readers are not made by genetics or destiny but by the habits they build—habits that are intentionally built by their teachers. This book includes the strategies, systems, and lessons from the top classrooms that bring the habits of reading to life, creating countless quality opportunities for students to take one of the most complex skills we as people can know and to perform it fluently and easily. Offers clear teaching strategies for teaching reading to all students, no matter what level Includes more than 40 video examples from real classrooms Written by Paul Bambrick-Santoyo, bestselling author of Driven by Data and Leverage Leadership Great Habits, Great Readers puts the focus on: learning habits, reading habits, guided reading, and independent reading. Each chapter explains how teachers can restructure, reshape, and work with mandated curriculum materials to teach from a critical perspective. The book also discusses how to meet Common Core Standards by teaching language arts and social studies as complementary subjects. Book Features: Sample lessons. Text boxes indicating connections to Common Core Standards. Reflection exercises that help further extend concepts and understandings into classroom practice.
