[Sensate Focus in Sex Therapy](#) Jun 17 2021

Sensate Focus in Sex Therapy: The Illustrated Manual is an illustrated manual that provides health professionals with specific information on the use of the structured touching opportunities used regularly by Sexologists to

address their clients' sexual difficulties (Sensate Focus 1) and enhance intimate relationships (Sensate Focus 2). This book is the only one to: vividly describe and illustrate the specific steps of, activities involved in, and positions associated with Sensate Focus; emphasize the purpose of Sensate Focus as a mindfulness-based practice; and distinguish between the purposes of Sensate Focus 1 and Sensate Focus 2. Through the use of artful drawings and descriptive text, this manual engages mental health and medical professionals and their clients by appealing to both the visual and the analytical. It discusses how modifications to Sensate Focus can be applied to diverse populations, such as LGBTQ clients, the elderly, the disabled, trauma survivors, and those with challenges such as Autism Spectrum, anxiety, and depression. The book also offers suggestions for dealing with common client difficulties such as avoidance, confusion, and goal directed attitudes. This comprehensive approach to Sensate Focus will remind readers of the beauty and power of touch while offering suggestions for moving from avoidance to sensory transcendence.

**America Pacifica** Nov 30 2019 Hundreds of miles off the frozen coast of what was once California is America Pacifica, where those who fled the dawn of the new ice age have tried to recreate their former home . . . America Pacifica is an island hundreds of miles off the coast of California - the only warm place left in a world in the grip of a new ice age. Darcy Pern is seventeen; her mother has gone missing, and the novel details her quest to find out the truth about her disappearance - a quest which soon becomes an investigation of the disturbing origins of America Pacifica itself, and its sinister and reclusive leader, a man known only as Tyson. America Pacifica invites comparison with the work of Margaret Atwood and China Mieville, but also with Cormac McCarthy's The Road, for its post-apocalyptic scenario and the touching relationship between Darcy and her mother, and the Stieg Larsson trilogy for its implacable central character who is determined to uncover the truth.

**Promoting Cultural Sensitivity in Supervision** Sep 20 2021 Promoting Cultural Sensitivity in Supervision: A Manual for Practitioners provides a roadmap for practicing and experienced supervisors to promote and

integrate cultural sensitivity into the core of their work. This book is organized into four seamless, interrelated sections that are essential to developing a Multicultural Relational Perspective (MRP) in supervision: conceptual, structural, strategies and techniques, and evaluation tools. The Conceptual section provides an overview of the theory that underpins a MRP, and the Structural section provides the reader with two specific strategies for concretizing the conceptual framework. The Strategies and

Techniques section includes a variety of chapters which provide supervisors and supervisees with hands-on tools for navigating difficult diversity-related conversations in supervision and beyond, as well as an array of exercises that supervisors can employ to enhance cultural sensitivity. The Evaluation Tools section provides sample instruments that can be implemented to evaluate the objectives of the entire supervisory process. For the convenience of readers, additional photocopiable supervisory resources have also been included at the end of the manual. This

manual is intended for supervisors, trainers, clinicians, and trainees.
