Corcoran Gallery of Art's renowned collection of pre-1945 American paintings will greatly enhance scholarly and public understanding of one of the finest and most important collections of historic American art in the world. Composed of more than 600 objects dating from 1740 to 1945.

Studies in the Archaeology of the Sultanate of Oman Jan 02 2020

Debt Aug 01 2022 Economic history states that money replaced a bartering system, yet there isn't any evidence to support this axiom.

Anthropologist Graeber presents a stunning reversal of this conventional wisdom. For more than 5000 years, humans have used elaborate credit systems to buy and sell goods. Since the beginning of the agrarian empires, humans have been divided into debtors and creditors. Through time, virtual credit money was replaced by gold and the system as a whole went into decline. This fascinating history is told for the first time.

Handbook to Life in the Aztec World Feb 12 2021 Describes daily life in the Aztec world, including coverage of geography, foods, trades, arts, games, wars, political systems, class structure, religious practices, trading networks, writings, architecture and science.

Build Your Own Electric Vehicle May 18 2021 Go Green-Go Electric! Biomarkers in Drug Development Sep 02 2022 Discover how biomarkers can boost the success rate of drug development efforts As pharmaceutical companies struggle to improve the success rate and cost-effectiveness of the drug development process, biomarkers have emerged as a valuable tool. This book synthesizes and reviews the latest efforts to identify, develop, and integrate biomarkers as a key strategy in translational medicine and the drug development process. Filled with case studies, the book demonstrates how biomarkers can improve drug development timelines, lower costs, facilitate better compound selection, reduce late-stage attrition, and open the door to personalized medicine. Biomarkers in Drug Development is divided into eight parts: Part One offers an overview of biomarkers and their role in drug development. Part Two highlights important technologies to help researchers identify new biomarkers. Part Three examines the characterization and validation process for both drugs and diagnostics, and provides practical advice on appropriate statistical methods to ensure that biomarkers fulfill their intended purpose. Parts Four through Six examine the application of biomarkers in discovery, preclinical safety assessment, clinical trials, and translational medicine. Part Seven focuses on lessons learned and the practical aspects of implementing biomarkers in drug development programs. Part Eight explores future trends and issues, including data integration, personalized medicine, and ethical concerns. Each of the thirty-eight chapters was contributed by one or more leading experts,

including scientists from biotechnology and pharmaceutical firms, academia, and the U.S. Food and Drug Administration. Their contributions offer pharmaceutical and clinical researchers the most up-to-date understanding of the strategies used for and applications of biomarkers in drug development.

Kill the Company Dec 01 2019 In the ever-changing world of business, we've arrived at a point where process has trumped culture, where the race toward efficiency has left us unable to reach our potential. Stuck in the land of status quo, we've forgotten how to think. The very structures put in place to help businesses grow are now holding us back;; it's time to Kill the Company. This book is a call to arms: to start a revolution in how we think and work. But instead of more one-size-fits-all change initiatives forced upon employees, we need to embrace small changes that create ripple effects throughout the organization. Lisa Bodell urges companies to move from "Zombies, Inc." to "Think, Inc." Thinking can no longer be exclusive to the creative team or lead strategists. A culture of curiosity must be fostered among the ranks to shake up our standard practices, from unproductive meetings to go-nowhere strategic planning. This revolution can and will awaken our ability to think, and ultimately, to innovate and grow.

The Book of Witches Mar 28 2022 "LEST any reader should open this volume expecting to read an exhaustive treatise on witches and witchcraft, treated scientifically, historically, and so forth, let me disarm him before-hand by telling him that he will be disappointed. The witch occupies so large a place in the story of mankind that to include all the detail of her natural history within the limits of one volume would need the powers of a magician no less potent than was he who confined the Eastern Djinn in a bottle...."

Cryptography Apr 28 2022 Through three editions, *Cryptography: Theory and Practice*, has been embraced by instructors and students alike. It offers a comprehensive primer for the subject's fundamentals while presenting the most current advances in cryptography. The authors offer comprehensive, in-depth treatment of the methods and protocols that are vital to safeguarding the seemingly infinite and

Saul Bass May 06 2020 Food is a significant part of our daily lives and can be one of the most telling records of a time and place. Our meals -- from what we eat, to how we prepare it, to how we consume it -- illuminate our culture and history. As a result, cookbooks present a unique opportunity to analyze changing foodways and can yield surprising discoveries about society's tastes and priorities. In Kentucky's Cookbook Heritage, John van Willigen explores the state's history through its changing food culture, beginning with Lettice Bryan's The Kentucky Housewife (originally published in 1839). Considered one of the earliest regional cookbooks, The Kentucky Housewife includes pre-Civil War recipes intended for use by a household staff instead of an individual cook, along with instructions for serving the family. Van Willigen also shares the story of the original Aunt Jemima -- the advertising persona of Nancy Green, born in Montgomery County, Kentucky -- who was one of many African American voices in Kentucky culinary history. Kentucky's Cookbook Heritage is a journey through the history of the commonwealth, showcasing the shifting priorities and innovations of the times. Analyzing the historical importance of a wide range of publications, from the nonprofit and charity cookbooks that flourished at the end of the twentieth century to the contemporary cookbook that emphasizes local ingredients, van Willigen provides a valuable perspective on the state's social history.

Manuscripts and Archives Jun 26 2019 The archive is traditionally considered the counterpart of the library, the one storing records, the other housing "books." There is evidence, however, that this institutional division of labor reflects certain historical and social constellations.

[The Formations of Modernity](#) Jul 28 2019 Formations of Modernity is a major introductory textbook offering an account of the important historical processes, institutions and ideas that have shaped the development of modern societies. This challenging and innovative book 'maps' the evolution of those distinctive forms of political, economic, social and cultural life which characterize modern societies, from their origins in early modern Europe to the nineteenth century. It examines the roots of modern knowledge and the birth of the social sciences in the Enlightenment, and analyses the impact on the emerging identity of 'the West' of its encounters through exploration, trade, conquest and colonization, with 'other civilizations'. Designed as an introduction to modern societies and modern sociological analyses, this book is of value to students on a wide variety of social science courses in universities and colleges and also to readers with no prior knowledge of sociology.

Selected readings from a broad range of classical writers (Weber, Durkheim, Marx, Freud, Adam Smith, Montesquieu, Hobbes, Locke, Rousseau) and contemporary thinkers (Michael Mann, E.P. Thompson, Edward Said) are integrated in each chapter, together with student questions and exercises.

The Cultural Cold War Apr 04 2020 During the Cold War, freedom of expression was vaunted as liberal democracy's most cherished possession—but such freedom was put in service of a hidden agenda. In *The Cultural Cold War*, Frances Stonor Saunders reveals the extraordinary efforts of a secret campaign in which some of the most vocal exponents of intellectual freedom in the West were working for or subsidized by the CIA—whether they knew it or not. Called "the most comprehensive account yet of the [CIA's] activities between 1947 and 1967" by the *New York Times*, the book presents shocking evidence of the CIA's undercover program of cultural interventions in Western Europe and at home, drawing together declassified documents and exclusive interviews to expose the CIA's astonishing campaign to deploy the likes of Hannah Arendt, Isaiah Berlin, Leonard Bernstein, Robert Lowell, George Orwell, and Jackson Pollock as weapons in the Cold War. Translated into ten languages, this classic work—now with a new preface by the author—is "a real contribution to popular understanding of the postwar period" (*The Wall Street Journal*), and its story of covert cultural efforts to win hearts and minds continues to be relevant today.

[Style Guide](#) Jul 20 2021 This expanded twelfth edition of the bestselling guide to style is based on the Economist's own updated house style manual, and is an invaluable companion for everyone who wants to communicate with the clarity, style and precision for which the Economist is renowned. As the introduction says, 'clarity of writing usually follows clarity of thought.' The Economist Style Guide gives general advice on writing, points out common errors and clichés, offers guidance on consistent use of punctuation, abbreviations and capital letters, and contains an exhaustive range of reference material - covering everything from accountancy ratios and stock market indices to laws of nature and science. Some of the numerous useful rules and common mistakes pointed out in the guide include: *Which informs, that defines. This is the house that Jack built. But: This house, which Jack built, is now falling down. Discreet means circumspect or prudent; discrete means separate or distinct. Remember that "Questions are never indiscreet.

Answers sometimes are" (Oscar Wilde). Flaunt means display, flout means disdain. If you flout this distinction you will flaunt your ignorance Forgo means do without; forego means go before. Fortuitous means accidental, not fortunate or well-timed. Times: Take care. Three times more than X is four times as much as X. Full stops: Use plenty. They keep sentences short. This helps the reader.

Napoleon's Egypt Sep 29 2019 In this vivid and timely history, Juan Cole tells the story of Napoleon's invasion of Egypt. Revealing the young general's reasons for leading the expedition against Egypt in 1798 and showcasing his fascinating views of the Orient, Cole delves into the psychology of the military titan and his entourage. He paints a multi-faceted portrait of the daily travails of the soldiers in Napoleon's army, including how they imagined Egypt, how their expectations differed from what they found, and how they grappled with military challenges in a foreign land. Cole ultimately reveals how Napoleon's invasion, the first modern attempt to invade the Arab world, invented and crystallized the rhetoric of liberal imperialism.

Social Movements 1768-2012 Jan 26 2022 The updated and expanded third edition of Tilly's widely acclaimed book brings this analytical history of social movements fully up to date. Tilly and Wood cover such recent topics as the economic crisis and related protest actions around the globe while maintaining their attention to perennially important issues such as immigrants' rights, new media technologies, and the role of bloggers and Facebook in social movement activities. With new coverage of colonialism and its impact on movement formation as well as coverage and analysis of the 2011 Arab Spring, this new edition of *Social Movements* adds more historical depth while capturing a new cycle of contention today. New to the Third Edition Expanded discussion of the Facebook revolution-and the significance of new technologies for social movements Analysis of current struggles-including the Arab Spring and pro-democracy movements in Egypt and Tunisia, Arizona's pro- and anti-immigration movements, the Tea Party, and the movement inspired by Occupy Wall Street Expanded discussion of the way the emergence of capitalism affected the emergence of the social movement
