Fuzzy Techniques: Theory and Applications Dec 23 2021 This book describes the latest findings related to fuzzy techniques, discussing applications in control, economics, education, humor studies, industrial engineering, linguistics, management, marketing, medicine and public health, military engineering, robotics, ship design, sports, transportation, and many other areas. It also presents recent fuzzy-related algorithms and theoretical results that can be used in other application areas. Featuring selected papers from the Joint World Congress of the International

Fuzzy Systems Association (IFSA) and the Annual Conference of the North American Fuzzy Information Processing Society (NAFIPS) IFSA-NAFIPS'2019, held in Lafayette, Louisiana, USA, on June 18–21, 2019, the book is of interest to practitioners wanting to use fuzzy techniques to process imprecise expert knowledge. It is also a valuable resource for researchers wishing to extend the ideas from these papers to new application areas, for graduate students and for anyone else interested in problems involving fuzziness and uncertainty.

Fashion with Passion Aug 26 2019 Many new or young designers dream of having their own label, but most may not know how to make their dreams a reality and become successful in a competitive marketplace. In her practical guidebook, an experienced fashion designer and entrepreneur provides insight on how to break into the fashion industry, overcome obstacles, create a business, market a brand, and launch a fashion show. Nila Palacios, owner of

Nila Palacios Latin Fashion, begins with introspective questions directed at aspiring fashion designers to help identify strengths, weaknesses, a motto, and specific goals. While encouraging designers to stay true to their individuality, passions, and objectives, Palacios provides step-by-step guidance that teaches specifically how to: • Find inspiration and bring it to life through designs; • Look for trends and colors and incorporate them into a collection; • Design sketches, make a pattern, and select and cut fabrics; • Match fabrics with specific styles; • Conduct market research, identify a target market, and find a niche; and • Compile a collection, market a product, choose models, and organize a show. Fashion with Passion provides clear, focused guidance for anyone interested in breaking into the fashion industry and achieving their dreams.

HCI International 2020 – Late Breaking Papers: Interaction, Knowledge and Social Media Aug 07 2020 This book constitutes late breaking papers from the 22nd International Conference on Human-Computer Interaction, HCII 2020, which was held in July 2020. The conference was planned to take place in Copenhagen, Denmark, but had to change to a virtual conference mode due to the COVID-19 pandemic. From a total of 6326 submissions, a total of 1439 papers and 238 posters have been accepted for publication in the HCII 2020 proceedings before the conference took place. In addition, a total of 333 papers and 144 posters are included in the volumes of the proceedings published after the conference as “Late Breaking Work” (papers and posters). These contributions address the latest research and development efforts in the field and highlight the human aspects of design and use of computing systems. The 54 late breaking papers address topics such as Interaction, Knowledge and Social Media.

Permanence and Durability of Paper Dec 11 2020

Advances in Production Management Systems: New Challenges, New Approaches Nov 09 2020 The present economic and social environment has given rise to new situations within which companies must operate. As a first example, the globalization of the economy and the need for performance has led companies to outsource and then to operate inside networks of enterprises such as supply chains or virtual enterprises. A second instance is related to environmental issues. The statement about the impact of industrial activities on the environment has led companies to revise processes, to save energy, to optimize transportation.... A last example relates to knowledge. Knowledge is considered today to be one of the main assets of a company. How to capitalize, to manage, to reuse it for the benefit

of the company is an important current issue. The three examples above have no direct links. However, each of them constitutes a challenge that companies have to face today. This book brings together the opinions of several leading researchers from all around the world. Together they try to develop new approaches and find answers to those challenges. Through the individual chapters of this book, the authors present their understanding of the different challenges, the concepts on which they are working, the approaches they are developing and the tools they propose. The book is composed of six parts; each one focuses on a specific theme and is subdivided into subtopics.

Simulated Evolution and Learning Nov 02 2022 This volume constitutes the proceedings of the 10th International Conference on Simulated Evolution and Learning, SEAL 2012, held in Dunedin, New Zealand, in December 2014. The 42 full papers and 29 short papers presented were carefully reviewed and selected from 109 submissions. The papers are organized in topical sections on evolutionary optimization; evolutionary multi-objective optimization; evolutionary machine learning; theoretical developments; evolutionary feature reduction; evolutionary scheduling and combinatorial optimization; real world applications and evolutionary image analysis.
