**The 11th North Carolina Infantry in the Civil War Dec 12 2020** This history of the 11th North Carolina Infantry in the Civil War— civilian soldiers and their families—follows the regiment from their 1861 mustering-in to their surrender at Appomattox, covering action at Gettysburg, Bristoe Station, The Wilderness, Spotsylvania, Cold Harbor and Petersburg. Drawing on letters, journals, memoirs, official reports, personnel records and family histories, this intensely personal account features Tar Heels relating their experiences through over 1,500 quoted passages. Casualty lists give the names of those killed, wounded, captured in action and died of disease. Rosters list regimental officers and staff, enlistees for all 10 companies and the names of the 78 men who stacked arms on April 9, 1865.

**I'm Not Racist But ... 40 Years of the Racial Discrimination Act Jan 01 2020** Is Australia a 'racist' country? Why do issues of race and culture seem to ignite public debate so readily? Tim Soutphommasane, Australia's Race Discrimination Commissioner, reflects on the national experience of racism and the progress that has been made since the introduction of the Racial Discrimination Act in 1975. As the first federal human rights and discrimination legislation, the Act was a landmark demonstration of Australia's commitment to eliminating racism. Published to coincide with the Act's fortieth anniversary, this book gives a timely and incisive account of the history of racism, the limits of free speech, the dimensions of bigotry and the role of legislation in our society's response to discrimination. With contributions by Maxine Beneba Clarke, Bindi Cole Chocka, Benjamin Law, Alice Pung and Christos Tsiolkas.

**Refugees Sep 28 2019** If you listen to some politicians and voices in the media, you might well believe that asylum seekers are 'illegal'. You might think that they should wait their turn in the so-called 'queue'. You might think that they pose a potential threat to our national security, and that the government is right to keep them from our shores. Or you might take a humanitarian stance, believing that drastic border protection policies, though harsh in effect, are necessary to deter asylum seekers from endangering their lives on risky boat journeys to Australia. However logical these conclusions might seem, the problem is that they are based on widespread misunderstandings about why and how people seek asylum, and what Australia's international legal obligations are. This book rejects spin and panic to provide a straightforward and balanced account of Australia's asylum policies in light of international law. Written for a general audience, it explains who asylum seekers and refugees are, what the law is, and what policies like offshore processing, mandatory detention, and turning back boats mean in practice. Using real-life examples, this book reminds us of the human impact of Australia's policies.

*Ethnic Minorities and Politics in Post-Socialist Southeastern Europe* Jul 27 2019 Southeast European politics cannot be understood without considering ethnic minorities. This book is a comprehensive introduction to ethnic political parties. What's Happened To The University? Oct 22 2021 The radical transformation that universities are undergoing today is no less far-reaching than the upheavals that it experienced in the 1960s. However today, when almost 50 per cent of young people participate in higher education, what occurs in universities matters directly to the whole of society. On both sides of the Atlantic curious and disturbing events on campuses has become a matter of concern not just for academics but also for the general public. What is one to make of the growing trend of banning speakers? What's the meaning of trigger warnings, cultural appropriation, micro-aggression or safe spaces? And why are some students going around arguing that academic freedom is no big deal? What's Happened To The University? offers an answer to the questions of why campus culture is undergoing such a dramatic transformation and why the term moral quarantine refers to the infantilising project of insulating students from offence and a variety of moral harms.

*Recent Trends in Materials and Devices* Nov 22 2021 This book presents the proceedings of the International Conference on Recent Trends in Materials and Devices (ICRTMD 2019) held in India. It brings together academicians, scientists and industrialists from various fields for the establishment of enduring connections to solve the common global challenges across a number of disciplines. The conference provides a platform to tackle complex problems from a range of perspectives, thereby modeling integrated, solution-focused thinking and partnerships.

We hope and firmly believe that scientific development in East Asia and our understanding of this typical region will be further advanced.

*A Critical Public Relations Approach to Crisis Communication and Management* Oct 02 2022 This book proposes a critical public relations approach to analyzing crisis communication with Malaysia Airlines flight 370 (MH370) disappearance (2014-2018) as a case study. It examines the discursive process of Malaysia's crisis response and image building, tracing Malaysia Airlines during the immediate response and the Malaysian establishment until the official suspension of the underwater search. The study features a critical discourse analysis of 84 national media texts and 85 response statements, focusing on three aspects: the national media representations of Malaysia's image, the national carrier and the government's rhetorical strategies of delivering stances and actions, and the dynamic process of image reconstruction and national recovery. The present project contributes to the current research area by integrating both linguistic and public relations perspectives, and more importantly, by highlighting the ideological impact instead of merely behavioral effectiveness in modern communication research. Target readers may find their interest in corporate crisis communication, critical inquiry about political public relations, and the MH370 incident in general.

*Rebel Politics* Jul 31 2022 *Rebel Politics* analyzes the changing dynamics of the civil war in Myanmar, one of the most entrenched armed conflicts in the world. Since 2011, a national peace process has gone hand-in-hand with escalating ethnic conflict. The Karen National Union (KNU), previously known for its uncompromising stance against the central government of Myanmar, became a leader in the peace process after it signed a ceasefire in 2012. Meanwhile, the Kachin Independence Organization (KIO) returned to the trenches in 2011 after its own seventeen-year-long ceasefire broke down. To understand these puzzling changes, Brenner conducted ethnographic fieldwork among the KNU and KIO, analyzing the relations between rebel leaders, their rank-and-file, and local communities in the context of wider political and geopolitical transformations. Drawing on Political Sociology, *Rebel Politics* explains how revolutionary elites capture and lose legitimacy within their own movements and how these internal contestations drive the strategies of rebellion in unforeseen ways. Brenner presents a novel perspective that contributes to our understanding of contemporary politics in Southeast Asia, and to the study of conflict, peace and security, by highlighting the hidden social dynamics and everyday practices of political violence, ethnic conflict, rebel governance and borderland politics.

Ukraine Crisis Jul 19 2021 A leading Ukraine specialist and firsthand witness to the 2014 Kiev Uprising analyzes the world's newest flashpoint The aftereffects of the February 2014 Uprising in Ukraine are still reverberating around the world. The consequences of the popular rebellion and Russian President Putin's attempt to strangle it remain uncertain. In this book, Andrew Wilson combines a spellbinding, on-the-scene account of the Kiev Uprising with a deeply informed analysis of what precipitated the events, what has developed in subsequent months, and why the story is far from over. Wilson situates Ukraine's February insurgence within Russia's expansionist ambitions throughout the previous decade. He reveals how President Putin's extravagant spending to develop soft power in all parts of Europe was aided by wishful thinking in the EU and American diplomatic inattention, and how Putin's agenda continues to be widely misunderstood in the West. The author then examines events in the wake of the Uprising—the military coup in Crimea, the election of President Petro Poroshenko, the Malaysia Airlines tragedy, rising tensions among all of Russia's neighbors, both friend and foe, and more. *Ukraine Crisis* provides an important, accurate record of events that unfolded in Ukraine in 2014. It also rings a clear warning that the unresolved problems of the region have implications well beyond Ukrainian borders.

Producing Women Jan 25 2022 *Producing Women* examines the ways femininity is produced through new media. Michele White considers how women are constructed, produce themselves as subjects, form vital production cultures on sites like Etsy, and deploy technological processes to reshape their identities and digital characteristics. She studies the means through which women market traditional female roles, are viewed, and produce and restructure their gendered, raced, eroticized, and sexual identities. Incorporating a range of examples across numerous forms of media—including trash the dress wedding

photography, Internet how-to instructions about zombie walk brides, nail polish blogging, DIY crafting, and reborn doll production—Producing Women elucidates women's production cultures online, and the ways that individuals can critically study and engage with these practices.

**Intellectual Property and Genetically Modified Organisms Jul 07 2020** Taking a global viewpoint, this volume addresses issues arising from recent developments in the enduring and topical debates over Genetically Modified Organisms (GMOs) and their relationship to Intellectual Property (IP). The work examines changing responses to the growing acceptance and prevalence of GMOs. Drawing together perspectives from several of the leading international scholars in this area, the contributions seek to break away from analysis of safety and regulation and examine the diversity of ways the law and GMOs have become entangled. This collection presents the start of a much broader engagement with GMOs and law. As GMO technology becomes increasingly more complex and embedded in our lives, this volume will be a useful resource in leading further discussion and debate about GMOs in academia, in government and among those working on future policy.

**State and Society in Papua New Guinea, 2001-2021 Aug 08 2020** In a previous volume, *State and Society in Papua New Guinea: The First Twenty-Five Years (2001, reprinted by ANU E Press in 2004)*, a collection of papers by the author published between 1971 and 2001 was put together to mark Papua New Guinea's first 25 years as an independent state. This volume presents a collection of papers written between 2001 and 2021, which update the story of political and social development in Papua New Guinea in the first two decades of the twenty-first century. The chapters cover a range of topics, from an evaluation of proposals for political reform in the early 2000s, a review of the discussion of 'failing states' in the island Pacific and the shift to limited preferential voting in 2007, to a detailed account of political developments from the move against Sir Michael Somare in 2011 to the election of Prime Minister Marape and his performance to 2022. There are also chapters on language policy, external and internal security, religious fundamentalism and national identity, and the sustainability of economic growth.

**Encyclopedia of Nordic Crime Fiction Mar 27 2022** Since the late 1960s, the novels of Sjöwall and Wahlöö's Martin Beck detective series, along with the works of Henning Mankell, Håkan Nesser and Stieg Larsson, have sparked an explosion of Nordic crime fiction—grim police procedurals treating urgent sociopolitical issues affecting the contemporary world. Steeped in noir techniques and viewpoints, many of these novels are reaching international audiences through film and television adaptations. This reference guide introduces the world of Nordic crime fiction to English-speaking readers. Caught between the demands of conscience and societal strictures, the detectives in these stories—like the heroes of Norse mythology—know that they and their world must perish, but fight on regardless of cost. At a time of bleak eventualities, Nordic crime fiction interprets the bitter end as a celebration of the indomitable human spirit.

**Finnish Colonial Encounters Mar 15 2021** Breaking new ground in the study of European colonialism, this book focuses on a nation historically positioned between the Western and Eastern Empires of Europe – Finland. Although Finland never had overseas colonies, the authors argue that the country was undeniably involved in the colonial world, with Finns adopting ideologies and identities that cannot easily be disentangled from colonialism. This book explores the concepts of 'colonial complicity' and 'colonialism without colonies' in relation to Finland, a nation that was oppressed, but also itself complicit in colonialism. It offers insights into European colonialism on the margins of the continent and within a nation that has traditionally declared its innocence and exceptionalism. The book shows that Finns were active participants in various colonial contexts, including Southern Africa and Sápmi in the North. Demonstrating that colonialism was a common practice shared by all European nations, with or without formal colonies, this book provides essential reading for anyone interested in European colonial history. Chapters 1, 7 and 8 are available open access under a [via link.springer.com](https://link.springer.com).

**The New Cyberwar Apr 15 2021** Carl Von Clausewitz described the purpose of war as "the compulsory submission of the enemy to our will." Unlike conventional military conflicts of the past, war in the information age is more a battle of wills than artillery, and doesn't necessarily end with decisive conclusions or clear winners. Cyber warfare between nations is conducted not only without the consent or participation of citizens but often without their knowledge, with little to see in the way of airstrikes and troop movements. The weapons are information systems, intelligence, propaganda and the media. The combatants are governments, multinational corporations, hackers and whistleblowers. The battlefields are economies, command and control networks, election outcomes and the hearts and minds of populations. As with Russia's bloodless 2014 annexation of the Crimea, the cyberwar is fought before the infantry arrives. Written by a United States intelligence community insider, this book describes the covert aspects of modern wars and the agencies who fund and fight them.

**India's National Security Mar 03 2020** The last two years have witnessed deterioration in the global security situation characterised by increasing tensions among major powers. The threat perceptions of the US, China and Russia vis-à-vis each other have sharpened. There is stiff competition among them to dominate the strategic space in different parts of the world. This has led them to formulate national security strategies which are more assertive, aggressive and competitive. There is lack of consensus in resolution of conflicts in Afghanistan and Syria. There is no concerted effort in meeting the challenge of the Islamic State. It is in this fractured security environment that India has been making special efforts to project itself as a leading power commensurate with its economic and military potential. This fifteenth volume of India's National Security Annual Review undertakes an incisive analysis of India's endeavours to maximise its gains with respect to its strategic partners. The volume also focuses on the new dynamism that India has injected in its relations with countries in the Middle East and the Asia Pacific. India's threat perceptions in its extended security zone, critical aspects of its strategic preparedness and complex issues regarding its internal security have been thoroughly examined. With contributions from experts from the fields of diplomacy, academia and civil and military services, the book will be one of the most dependable sources of analyses for scholars of international relations, foreign policy, defence and strategic studies, and political science, and practitioners alike.

**Neighbourhood Perceptions of the Ukraine Crisis** Jun 29 2022 Recent events in Ukraine and Russia and the subsequent incorporation of Crimea into the Russian state, with the support of some circles of inhabitants of the peninsula, have shown that the desire of people to belong to the Western part of Europe should not automatically be assumed. Discussing different perceptions of the Ukrainian-Russian war in neighbouring countries, this book offers an analysis of the conflicts and issues connected with the shifting of the border regions of Russia and Ukraine to show how 'material' and 'psychological' borders are never completely stable ideas. The contributors - historians, sociologists, anthropologists and political scientists from across Europe - use an interdisciplinary and comparative approach to explore the different national and transnational perceptions of a possible future role for Russia.

**Russia's Border Wars and Frozen Conflicts** Aug 27 2019 This book examines the origins and execution of Russian military and political activities in Moldova, Georgia, Ukraine, and Azerbaijan. Using a realist perspective, the author concludes that there are substantial similarities in the four case studies: Russian support for minority separatist movements, conflict, Russian intervention as peacekeepers, Russian control over the diplomatic process to prevent resolution of the conflict, and a perpetuation of Russian presence in the area. The author places the conflicts in the context of international law and nationalism theory.

**Decentralized Finance** Jun 25 2019 What Is Decentralized Finance Decentralized Finance is a blockchain-based form of finance that does not rely on central financial intermediaries such as brokerages, exchanges, or banks to offer traditional financial instruments, and instead utilizes smart contracts on blockchains, the most common being Ethereum. There are some major advantages of using DeFi, including cost, speed and security. Anyone with an internet connection has access to blockchains and cryptocurrencies. Users are able to make trades and move their assets whenever they want without having to wait on bank transfers or pay bank fees. Decentralized finance is quickly rising as a more secure, more transparent, and more efficient alternative to traditional financial services. By eliminating the need for centralized financial institutions, we create a more open and trustworthy financial system, and one that's far more accessible. Therefore, decentralized finance is a very near equivalent of an apocalyptic event for the traditional financial institutions. How You Will Benefit (I) Insights, and validations about the following topics: Chapter 1: Decentralized Finance Chapter 2: Blockchain Chapter 3: Smart Contract Chapter 4: Cryptocurrency Chapter 5: Virtual Currency Chapter 6: Central Bank Digital Currency Chapter 7: E-Democracy Chapter 8: Ethereum Chapter 9: Bitcoin Chapter 10: Diem (digital Currency) (II) Answering the public top questions about decentralized finance. (III) Real world examples for the usage of decentralized finance in many fields. (IV) 17 appendices to explain, briefly, 266 emerging technology in each industry to have 360-degree full understanding of decentralized finance' technologies.
