Royal Navy Submarine Nov 04 2022 Launched in 1945 and commissioned two years later, submarine HMS Alliance was built for service with the Royal Navy in the Far East. Alliance had a long and distinguished career of more than 28 years that took her all over the world. Today, Alliance is the centrepiece at the Royal Navy Submarine Museum, Gosport, where the submarine experience is brought to life by tours around the boat. The Class-Leader's Manual Aug 21 2021 Excerpt from The Class-Leader's Manual: Being Letters Addressed to a Class-Leader, on All Matters Relating to His Office Some of your members are so situated that you cannot have access to them, or you may be so circumstanced that you cannot always attend to this part of your duty yourself but if it be so, you may do it by proxy. It is most probable that there are some faithful, spiritually-minded, zealous persons, both male and female, in your class, who would gladly help you in this department of, service. If it be necessary, do not neglect to avail yourself of their assistance. In the general, however, if you were so determined, - and you ought to. Be, -you might see the absent members in person. There is much truth in the old adage, Where there is a will, there is a way. In many instances where Leaders neglect their absentees, we fear the will is wanting. To my certain knowledge, there are many Leaders who never go after their absent members; or if they do, it is very, very seldom. If their members come to class, well; and if they do not, there is no concern manifested. I have known several instances of members having been absent from class for a quarter of a year in succession and when the minister at the quarterly visitation has asked the reason of this, the Leader has not been able to give. Creativity, Inc. Feb 12 2021 Lessons in creativity and business from the president of Pixar and Disney Animation

_____ 'Just might be the best business book ever written.' Forbes Magazine This is the story behind the company that changed animation forever. Here, the founder of Pixar reveals the ideas and techniques that have made Pixar one of the most widely admired creative businesses, and one of the most profitable. As a young man, Ed Catmull had a dream: to make the world's first computer-animated movie. When an early partnership with George Lucas led, indirectly, to his founding Pixar with Steve Jobs and John Lasseter in 1986, he couldn't have known what would come. Nine years later and against all odds, Toy Story was released. It was the start of a new generation of animation. Through its focus on the joy of storytelling, inventive plots and emotional authenticity, Pixar revolutionised how animated films were created. Creativity, Inc. is a book for managers who want to lead their employees to new heights, a manual for anyone who strives for originality, with behind-the-scenes examples from Pixar itself. It is a book about how to build and sustain a creative culture with a unique identity. And through this story, we learn what creativity really is. 'Ed reveals, with common sense specificity and honesty, examples of how not to get in your own way and realize a creative coalescence of art, business and innovation.' George Lucas
