About the religious-philosophical problem of selflessness and bearing in "Uncle Tom's Cabin"

Jan 12 2021 Essay from the year 2012 in the subject English - Literature, Works, grade: 1.0, University of Cologne, language: English, abstract: Reaching for Christianity is one, maybe the most central theme in "Uncle Tom's Cabin". Stowe uses her view on religion as her main instrument to abolish slavery. The textual construction of Christian values throws up questions about their persuasiveness to a modern reader. To find answers to such questions it is necessary to itemize Stowe's schema in order to question them from a modern point of view. Harriet Beecher Stowe originates from a strongly Christian affected background. Her father, brother, and husband were all theologians. Stowe liked to say God inspired her to write "Uncle Tom's Cabin" and that he even dictated her. It also must be mentioned, that most of her female readership also had a Christian background. This was not only based on the long American tradition of Christianity, but also on the idea of being the chosen country, pronounced in the Manifest Destiny. A whole country built itself upon the idea of a self given authority, which the white America saw as God given. This supported the common understanding of a new American race, which white America saw superior to the Afro-American population. White America not only thought of itself as more knowledgeable, but also as dominant rulers in the name of Christianity. But how is this evident in "Uncle Tom's Cabin"? Which religious aspects need to be reviewed and which deserve critic?

The Emergence of Mexican America Dec 23 2021 Winner of the 2006 Thomas J. Lyon Book Award in Western American Literary Studies, presented by the Western Literature Association In *The Emergence of Mexican America*, John-Michael Rivera examines the cultural, political,

and legal representations of Mexican Americans and the development of US capitalism and nationhood. Beginning with the Mexican-American War of 1846-1848 and continuing through the period of mass repatriation of US Mexican laborers in 1939, Rivera examines both Mexican-American and Anglo-American cultural production in order to tease out the complexities of the so-called "Mexican question." Using historical and archival materials, Rivera's wide-ranging objects of inquiry include fiction, non-fiction, essays, treaties, legal materials, political speeches, magazines, articles, cartoons, and advertisements created by both Mexicans and Anglo Americans. Engaging and methodologically venturesome, Rivera's study is a crucial contribution to Chicano/Latino Studies and fields of cultural studies, history, government, anthropology, and literary studies.

Miles of Stare Feb 10 2021 Miles of Stare explores the problem of nineteenth-century American literary vision: the strange conflation of visible reality and poetic language that emerges repeatedly in the metaphors and literary creations of American transcendentalists. The strangeness of nineteenth-century poetic vision is exemplified most famously by Emerson's transparent eyeball. That disembodied, omniscient seer is able to shed its body and transcend sight paradoxically in order to see—not to create—poetic language "manifest" on the American landscape. In *Miles of Stare*, Michelle Kohler explores the question of why, given American transcendentalism's anti-empiricism, the movement's central trope becomes an eye purged of imagination. And why, furthermore, she asks, despite its insistent empiricism, is this notorious eye also so decidedly not an eye? What are the ethics of casting a boldly equivocal metaphor as the source of a national literature amidst a national landscape fraught with slavery, genocide, poverty, and war? Miles of Stare explores these questions first by tracing the historical emergence of the metaphor of poetic vision as the transcendentalists assimilated European precedents and wrestled with America's troubling rhetoric of manifest destiny and national identity. These questions are central to the work of many nineteenth-century authors writing in the wake of transcendentalism, and Kohler offers examples from the writings of Douglass, Hawthorne, Dickinson, Howells, and

Jewett that form a cascade of new visual metaphors that address the irreconcilable contradictions within the transcendentalist metaphor and pursue their own efforts to produce an American literature. Douglass's doomed witness to slavery, Hawthorne's reluctantly omniscient narrator, and Dickinson's empty "miles of Stare" variously skewer the authority of Emerson's all-seeing poetic eyeball while attributing new authority to the limitations that mark their own literary gazes. Tracing this metaphorical conflict across genres from the 1830s through the 1880s, Miles of Stare illuminates the divergent, contentious fates of American literary vision as nineteenth-century writers wrestle with the commanding conflation of vision and language that lies at the center of American transcendentalism—and at the core of American national identity.

Mexican American Fastpitch Sep 27 2019 In Mexican American communities in the central United States, the modern tradition of

playing fastpitch softball has been passed from generation to generation. This ethnic sporting practice is kept alive through annual tournaments, the longest-running of which were founded in the 1940s, when softball was a ubiquitous form of recreation, and the so-called "Mexican American generation" born to immigrant parents was coming of age. Carrying on with fastpitch into the second or third generation of players even as wider interest in the sport has waned, these historically Mexican American tournaments now function as reunions that allow people to maintain ties to a shared past, and to remember the decades of segregation when Mexican Americans' citizenship was unfairly questioned. In this multi-sited ethnography, Ben Chappell conveys the importance of fastpitch in the ordinary yearly life of Mexican American communities from Kansas City to Houston. Traveling to tournaments, he interviews players and fans, strikes up conversations in the bleachers, takes in the atmosphere in the heat of competition, and combs through local and personal archives. Recognizing fastpitch as a practice of cultural citizenship, Chappell situates the sport within a history marked by migration, marginalization, solidarity, and struggle, through which Mexican Americans have navigated complex negotiations of cultural, national, and local identities.

The Hated Outsiders Jul 30 2022 The reason this book is being written is because three cultural histories have been left out of the standard texts used in the schools of America. What is African history as it relates to Black slave history in America? The Manifest Destiny created by the black slave revolt in Haiti will bring about the sale of what is now known as the Louisiana Purchase in 1803. Secondly, what is the history of the Jews, and what is the history of the Jews in America? Jewish history is not just a few chapters in the Bible. It is 5771 years old and was accelerated in 1948 with the formation of Israel. Finally, Japan: Why did Japan attack Pearl Harbor? Why have the Emperors of Japan not laid a wreath on the U.S.S. Arizona? Answers to these questions are contained herein showing the three combined cultures' impact is greater on today's issues that affect this country - and world. The Puritan called America the 'new Israel,' as they pictured this land full of opportunities. Almost bankrupted by the Revolutionary War, having a low population, we will set a course across to the Mississippi River and start encountering cultures, peoples and histories that will be foreign to Europeans' mindsets. Christianity and greed will be the new mantra as we will not stop at our Western shores, but by 1903 we will be at the front door of China. Looking back at these huge lands America acquired, will also show the problems we will layer over these non-Christian peoples. Wealth will be the stimulus and free trade a goal, so we will compete with the other Europeans. America will also show its dark side in the history of the 19th and 20th centuries at home, in Asia and the Middle East.

Remembering Jamestown Mar 02 2020 For many Americans, Christian missionary efforts have usually involved distant and exotic places. Sometimes, however, we can learn more about missions and interreligious engagement by looking in our own backyard. This collection of essays deriving from a consultation on missionary history and attitudes in colonial Jamestown, Virginia, explores long-standing

assumptions related to Christian mission by listening to Native American voices. What were the ideologies and theologies that motivated early Virginia colonists? How did certain understandings of mission and church provide support and legitimacy for invasion and exploitation? What were, and are, the responses of indigenous populations, and how should Christian mission to Native Americans continue in light of this history? This book addresses these still very relevant questions and explores ways in which new understandings of Christian mission are needed in the expanding religious and cultural diversity of the twenty-first century.

Pestiferous Questions Apr 26 2022 This biography in verse of the life of Jesse Benton Fremont, wife of explorer John Charles Fremont, is both a compelling look at a woman who might be seen as the 19th century's equivalent to Hillary Clinton and a dialogue between this historical figure and the 21st century woman writing about her. A strong series of narrative poems, this collection explores the concepts of manifest destiny, the expansion of slavery, racism, politics, and a woman's role in both her public and private life. "History is a time line," writes Rozga. "Those who do not know history / leave it lying underfoot. // We trip on it again and again." If these aren't words for our time, I don't know any better ones. Barbara Crooker, author of *Barbara Crooker: Selected Poems* (FutureCycle Press, 2015) That all history were told in poems; that manifest destiny were not disguised imperialism, that feminists were honored more frequently in the manner of Margaret Rozga's *Pestiferous Questions*. Exploring issues of gender, power, slavery, emancipation, destiny, betrayal, loss and survival, this brilliantly researched and emotional book tells the story of Jessie Ann Benton and her struggle to find voice at the hands of the patriarchy and its double Dutch dance: "how alike, how different heart and heat." Leslie Anne Mcilroy, HEArt - Human Equity through Art Jessie Benton Fremont has had at least five major biographies written about her, and much space is devoted to her in dozens, hundreds, of other books, but no one previously has captured her poetic soul. That requires a poet, and that is what Margaret Rozga provides in *Pestiferous Questions*. Rozga's 73 poems are in the tradition of Stephen Vincent Benet's *John Brown's Body* and Edgar Lee Master's *Spoon River Anthology*, and like them help illuminate American history. Jessie Fremont finally gets the poetic biographer she deserves. Martin Naparsteck, author of *Sex and Manifest Destiny*

Essential Questions Oct 21 2021 What are "essential questions," and how do they differ from other kinds of questions? What's so great about them? Why should you design and use essential questions in your classroom? Essential questions (EQs) help target standards as you organize curriculum content into coherent units that yield focused and thoughtful learning. In the classroom, EQs are used to stimulate students' discussions and promote a deeper understanding of the content. Whether you are an Understanding by Design (UbD) devotee or are searching for ways to address standards—local or Common Core State Standards—in an engaging way, Jay McTighe and Grant Wiggins provide practical guidance on how to design, initiate, and embed inquiry-based teaching and learning in your classroom. Offering dozens of examples, the authors explore the usefulness of EQs in all K-12 content areas, including skill-based areas such as math, PE, language instruction, and arts education. As an important element of their backward design approach to designing curriculum, instruction, and assessment, the authors *Give a comprehensive explanation of why EQs are so important; *Explore seven defining characteristics of EQs; *Distinguish between topical and overarching questions and their uses; *Outline the rationale for using EQs as the focal point in creating units of study; and *Show how to create effective EQs, working from sources including standards, desired understandings, and student misconceptions. Using essential questions can be challenging—for both teachers and students—and this book provides guidance through practical and proven processes, as well as suggested "response strategies" to encourage student engagement. Finally, you will learn how to create a culture of inquiry so that all members of the educational community—students, teachers, and administrators—benefit from the increased rigor and deepened understanding that emerge when essential questions become a guiding force for learners of all ages.

American Expansionism, 1783-1860 Oct 01 2022 This new Seminar Study surveys the history of U.S. territorial expansion from the end of the American Revolution until 1860. The book explores the concept of 'manifest destiny' and asks why, if expansion was 'manifest', there was such opposition to almost every expansionist incident. Paying attention to key themes often overlooked - Indian removal and the US government land sales policy, the book looks at both 'foreign' expansion such as the Louisiana Purchase in 1803, and the war with Mexico in the 1840s and 'internal' expansion as American settlers moved west. Finally, the book addresses the most recent historiographical trends in the subject and asks how Americans have dealt with the expansionist legacy.
