Management and Participation in the Public Sphere Oct 28 2019 Public policy has a dynamic effect on multiple facets of modern society. Methods for managing and engaging the public sphere continue to change conceptually across the globe, impacting the ways that governments and citizens interact both within and across borders. Management and Participation in the Public Sphere is a definitive reference source for the latest scholarly research on the interplay of public affairs and the domestic realm, providing innovative methods on managing public policy across various nations, cultures, and governments. Featuring expansive coverage on a multitude of relevant topics in civic involvement, information technology, and modes of government, this publication is a pivotal reference source for researchers, students, and professionals seeking current developments in novel approaches to public policy studies. This publication features timely, research-based chapters on the critical issues of public policy including, but not limited to, archival paradigms, Internet censorship, media control, civic engagement, virtual public spaces, online activism, higher education, and public-private partnerships. The Winton M. Blount Postal History Symposia Select Papers, 2010-2021 Rarely do scholars of postal organizations and systems meet and discuss their ideas and research with scholars of philately. In an attempt to bridge this gap, the National Postal Museum and the American Philatelic Society hosted the first Winton M. Blount Postal History symposium on 3-4 November 2006 to bring together these two research groups to discuss postal history. This publication covers the next two symposia. The 2010 theme was "Stamps and the Mail: Images, Icons and Identity." Stamps, as official government documents, can be treated as primary resources designed to convey specific political and esthetic messages. Other topics and themes for the symposium were stamp design's influence on advertising envelopes and bulk mailings, censorship of stamps as propaganda as used on letters, and the role of the Citizens' Stamp Advisory Committee or organizations that generate the designs. The 2011 symposium was held at the American Philatelic Center in conjunction with the United States Stamp Society's annual meeting. The United States Stamp Society is the preeminent organization devoted to the study of U.S. stamps. It is a nonprofit, volunteer-run association of collectors to promote the study of the philatelic output of the Bureau of Engraving and Printing and of postage and revenue stamped paper produced by others for use in the United States and U.S. administered areas. The theme of the symposium was "How Commerce and Industry Shaped the Mails."

Hines, Jr. (University of Michigan) Adaptability and partnership Jun 04 2020 The Government has announced a strategic defence review, the first since 1998, to take place after the next election. This green paper aims to contribute to discussion of the key issues and to build a broad consensus on the direction to take. It sets out the assessment of the UK's interests, the changing international context in which they will be promoted, the use of force in this changing context, and key areas where there is a need to adjust policy and process. The core argument is that the Ministry of Defence and the Armed Forces must accelerate the process of reform. Processes, people and equipment must become more adaptable to confront the potential threats successfully. And the UK must improve its ability to operate in partnership across government and internationally. Chapters 1 and 2 set the context for the future defence review in terms of uncertainty, affordability, complexity and the use of force. Further chapters cover: adaptability and influence: partnership: and people, equipment and structures. Chapter 6 sets out the key questions for the future review. Two annexes cover an illustrative list of operations since the 1998 strategic defence review and defence planning assumptions. Published alongside this paper is "The Defence strategy for acquisition reform" (Cm. 7996, ISBN 9780101779623) which sets out a new approach in creating greater agility in the defence equipment programme. The Bag Lady Papers Jul 26 2019 In December 2008, my worst nightmare came true . . . How do you pick yourself up after the one thing you most feared happens to you? Alexandra Penney's revealing, spirited, and ultimately redemptive true story shows us how. Throughout her life, Alexandra Penney's worst fear was of becoming a bag lady. Even as she worked several jobs while raising a son as a single mother, wrote a bestselling advice book, and became editor in chief of Self magazine, she was haunted by the image of herself alone, bankrupt, and living on the street. She even went to therapy in an attempt to alleviate the worry that all she had worked for could crumble. And then, one day, that's exactly what happened. Penney had taken a friend's advice and invested nearly everything she had ever earned--all of her savings--with Bernie Madoff. One day she was successful and wealthy; the next she had almost nothing. Suddenly, at an age when many Americans retire, Penney saw her worst nightmares coming true. Based on her popular blog posts on The Daily Beast, this memoir chronicles Penney's struggle to cope with the devastating financial and emotional fallout of being cheated out of her life savings and illuminates her journey back to sanity, solvency, and security. "I will work harder than I ever have before--which was pretty hard indeed--and see what happens. I have the feeling something good will come of it: tough, challenging work and laserlike focus have always paid off for me. . . . Was it better to have it and then lose it? Yes, yes, yes! Even though I lived with horrible bag lady fears of losing it all, now that those financial fears have materialized, I'm in pretty good shape and looking to what's next. Experiences -- good and bad, exciting and boring, tragic and absurd -- make up a life. Not to have lived to the fullest is the saddest, most

irresponsible life I can think of." --- from The Bag Lady Papers

Contemporary Issues in International Arbitration and Mediation: The Fordham Papers (2010-18) 18 2021 The 2010 volume of Contemporary Issues in International Arbitration and Mediation - The Fordham Papers is a collection of important works in the field written by the speakers at the 2010 Fordham Law School Conference on International Arbitration and Mediation.

Power and Subversion in Byzantium Jan 30 2020 This volume addresses a theme of special significance for Byzantine studies. Byzantium has traditionally been deemed a civilisation which deferred to authority and set special store by orthodoxy, canon and proper order. Since 1982 when the distinguished Russian Byzantinist Alexander Kazhdan wrote that 'the history of Byzantine intellectual opposition has yet to be written', scholars have increasingly highlighted cases of subversion of 'correct practice' and 'correct belief' in Byzantium. This innovative scholarly effort has produced important results, although it has been hampered by the lack of dialogue across the disciplines of Byzantine studies. The 43rd Spring Symposium of Byzantine Studies in 2010 drew together historians, art historians, and scholars of literature, religion and philosophy, who discussed shared and discipline-specific approaches to the theme of subversion. The present volume presents a selection of the papers delivered at the symposium enriched with specially commissioned contributions. Most papers deal with the period after the eleventh century, although early Byzantium is not ignored. Theoretical questions about the nature, articulation and limits of subversion are addressed within the frameworks of individual disciplines and in a larger context. The volume comes at a timely junction in the development of Byzantine studies, as interest in subversion and nonconformity in general has been rising steadily in the field.

Comparing Post War Japanese and Finnish Economies and Societies Mar 02 2020 This book compares two countries with striking parallels in economic and political outcomes, yet with some distinct features in terms of institutional structures, relative size, and culture. Therefore, this book forms a fruitful platform for the study of the similarities and differences in the economic and societal development of Japan and Finland. Despite their geographic distance from one another and the aforementioned differences, both countries experienced rather similar economic and societal development patterns after the Second World War. The study of these societies both individually and through commonalities will provide a unique perspective on the emergence of modern economies and institutions. The book provides comprehensive coverage on issues such as welfare state formation and society, security and military spending, education system, industrial development, international trade, governmental economic policies, energy solutions, and bubbles and their collapse: thus, issues typical for these countries, as well as most modern states, studied from a longitudinal perspective. The book aims to answer a fundamental question in social science: Why do there seem to be common trends and developmental paths among countries differing in size, culture, and economic structure? This book will provide insights for those seeking to decipher how the developments in their own countries came about and where they may be headed to.

PROC REPORT by Example Dec 31 2019 PROC REPORT by Example: Techniques for Building Professional Reports Using SAS provides real-world examples using PROC REPORT to create a wide variety of professional reports. Written from the point of view of the programmer who produces the reports, this book explains and illustrates creative techniques used to achieve the desired results. Each chapter focuses on a different concrete example, shows an image of the final report, and then takes you through the process of creating that report. You will be able to break each report down to find out how it was produced, including any data manipulation you have to do. The book clarifies solutions to common, everyday programming challenges and typical daily tasks that programmers encounter. For example: obtaining desired report formats using style templates supplied by SAS and PROC TEMPLATE, PROC REPORT STYLE options, and COMPUTE block features employing different usage options (DISPLAY, ORDER, GROUP, ANALYSIS, COMPUTED) to create a variety of detail and summary reports using BREAK statements and COMPUTE blocks to summarize and report key findings producing reports in various Output Delivery System (ODS) destinations including RTF, PDF, XML, TAGSETS.RTF embedding images in a report and combining graphical and tabular data with SAS 9.2 and beyond Applicable to SAS users from all disciplines, the real-life scenarios will help elevate your reporting skills learned from other books to the next level. With PROC REPORT by Example: Techniques for Building Professional Reports Using SAS, what seemed complex will become a matter of practice. This book is part of the SAS Press program.
