The Darwin Conspiracy Jul 27 2019 From the author of the bestselling Neanderthal comes this novel of gripping suspense and scientific conquest—a page-turning historical mystery that brilliantly explores the intrigue behind Darwin and his theory of evolution. It’s 1831, and aboard HMS Beagle the young Charles Darwin sets off down the English Channel for South America. More than 150 years later, two ambitious scholars pursuing their obsession with Darwin (and with each other) come across the diaries and letters of Darwin’s daughter. What they discover is a maze of violent rivalries, petty deceptions, and jealously guarded secrets, and the extraordinary story of an expedition embarked upon by two men. Only one returned—and changed history forever.

The Perfect Mother Nov 30 2019 When her daughter, who is studying abroad in Spain, is accused of murdering a fellow student, Jennifer rushes to her daughter's defense in the face of a media storm only to uncover disturbing clues. By the author of An African Affair. Original. 35,000 first printing.

Black and White and Dead All Over Jul 31 2022 A powerful editor is found dead in the newsroom—stabbed with the very spike he would use to kill stories—and in the cutthroat offices of The New York Globe, anyone could be the murderer. Could it be the rival newspaper tycoon? The bumbling publisher? The steely executive editor? As more bodies turn up, it will fall on Priscilla Bollingsworth, a young and ambitious NYPD detective, and Jude Hurley, a clever and rebellious reporter, to navigate the ink-infested waters of the case. A cunning and pitch-perfect portrait of the declining newspaper industry, this rollicking novel entertains from the first to the last.

Did Not Poll Apr 03 2020

Almost a Family Jun 29 2022 From the Pulitzer Prize-winning journalist and best-selling author: a beautifully crafted memoir of his lifelong chase after his father's shadow. John was eleven months old when his father, Barney Darnton—a war correspondent for The New York Times—was killed in World War II. John's mother, a well-known reporter and editor, perpetuated a myth of Barney as a hero who gave his life for his family, country, and the fourth estate. Decades after his father's death, John and his brother, the historian Robert Darnton, began digging into the past to discover who the real-life Barney Darnton was. When they did, they found a man who was far different from the story they had grown up with. Intensely moving and vividly descriptive, *Almost a Family* is the compelling story of one man's search for the truth.

The Experiment May 29 2022 Strange happenings in New York, including the discovery of a corpse with its fingerprints burned off, combine with the unexplained disappearances of people from a Southeastern island to give hints of a deadly secret scientific experiment.

The Experiment Aug 20 2021 Strange happenings in New York, including the discovery of a corpse with its fingerprints burned off, combine with the unexplained disappearances of people from a Southeastern island to give hints of a deadly secret scientific experiment. By the author of *Neanderthal*. 175,000 first printing.

The biographia Leodiensis; or, Biographical sketches of the worthies of Leeds and neighbourhood. [With] Apr 15 2021

A Literary Tour de France Jun 17 2021 The publishing industry in France in the years before the Revolution was a lively and sometimes rough-and-tumble affair, as publishers and printers scrambled to deal with (and if possible evade) shifting censorship laws and tax regulations, in order to cater to a reading public's appetite for books of all

kinds, from the famous Encyclopédie, repository of reason and knowledge, to scandal-mongering libel and pornography. Historian and librarian Robert Darnton uses his exclusive access to a trove of documents—letters and documents from authors, publishers, printers, paper millers, type founders, ink manufacturers, smugglers, wagon drivers, warehousemen, and accountants—involving a publishing house in the Swiss town of Neuchâtel to bring this world to life. Like other places on the periphery of France, Switzerland was a hotbed of piracy, carefully monitoring the demand for certain kinds of books and finding ways of fulfilling it. Focusing in particular on the diary of Jean-François Favarger, a traveling sales rep for a Swiss firm whose 1778 voyage, on horseback and on foot, around France to visit bookstores and renew accounts forms the spine of this story, Darnton reveals not only how the industry worked and which titles were in greatest demand, but the human scale of its operations. A Literary Tour de France is literally that. Darnton captures the hustle, picaresque comedy, and occasional risk of Favarger's travels in the service of books, and in the process offers an engaging, immersive, and unforgettable narrative of book culture at a critical moment in France's history.

Pirating and Publishing Feb 23 2022 The story of how book piracy in pre-Revolutionary France expanded the reach of the works that would inspire momentous change.

Neanderthal Nov 03 2022 When a paleoanthropologist mysteriously disappears in the remote upper regions of the Pamir Mountains in Tajikistan, two of his former students, once lovers and now competitors, set off in search of him. Along the way, they make an astounding discovery: a remnant band of Neanderthals, the ancient rivals to Homo sapiens, live on. The shocking find sparks a struggle that replays a conflict from thirty thousand years ago and delves into the heart of modern humanity.

Mind Catcher Jan 31 2020 When a thirteen-year-old boy falls victim to an accident that damages his brain, two scientists combine their groundbreaking research to push the boundaries of human consciousness. 75,000 first printing.

No Uncertain Terms Sep 20 2021 There is no wittier, more amiable or more astute word maven than Pulitzer Prize-winning columnist William Safire. For many people, the first item on the agenda for Sunday morning is to sit down and read Safire's "On Language" column in The New York Times Magazine, then to compose a "Gotcha" letter to the Times. Each of his books on language is a classic, to be read, re-read and fought over. Safire is the beloved, slightly crotchety guru of contemporary vocabulary, speech, language, usage and writing, as close as we are likely to get to a modern Samuel Johnson. Fans, critics and fellow language mavens eagerly await his books on language. This one is no exception. William Safire has written the weekly New York Times Magazine column "On Language" since 1979. His observations on grammar, usage and etymology have led to the publication of fourteen "word books" and have made him the most widely read writer on the English language today. The subjects for his columns come from his insights into the current political scene, as well as from technology, entertainment and life in general.

Known for his delight in catching people (especially politicians) who misuse words, he is not above tackling his own linguistic gaffes. Safire examines and comments on language trends and traces the origins of everyday words, phrases and clichés to their source. Scholarly, entertaining, lively and thoughtful, Safire's pointed commentaries on popular language and culture are at once provocative and enlightening. Want the 411 on what's phat and what's skeevy? Here's the "straight dope" on everything from "fast-track legislation" to "the Full Monty," with deft and well-directed potshots at those who criticize, twist the usage of or misunderstand the meaning of such classic examples of American idiom as "grow'd like Topsy," "and the horse you rode in on," "drop a dime" (on someone), "go figure" and hundreds more, together with sharp, witty and passionately opinionated letters from both ordinary readers and equally irate or puzzled celebrities who have been unable to resist picking up a pen to put Mr. Safire in his place or to offer detailed criticism, additional examples or amusing anecdotes. No Uncertain Terms is a boisterous and brilliant look at the oddities and foibles of our language. Not only "a blast and a half," but wise, clever and illuminating, it is a book that Mencken would have loved and that should be on the desk (or at the bedside) of everyone who shares Mr. Safire's profound love of the English language and his penchant for asking, "Where does that come from?" This new collection is a joy that will spark the interest of language lovers everywhere.

Inside Ocean Hill–Brownsville Mar 15 2021 The story of an Ocean Hill–Brownsville teacher who crossed picket lines during the racially charged New York City teachers' strike of 1968. In 1968 the conflict that erupted over community control of the New York City public schools was centered in the black and Puerto Rican community of Ocean Hill–Brownsville. It triggered what remains the longest teachers' strike in US history. That clash, between the city's communities of color and the white, predominantly Jewish teachers' union, paralyzed the nation's largest school system, undermined the city's economy, and heightened racial tensions, ultimately transforming the national conversation about race relations. At age twenty-two, when the strike was imminent, Charles S. Isaacs abandoned his full scholarship to a prestigious law school to teach mathematics in Ocean Hill–Brownsville. Despite his Jewish background and pro-union leanings, Isaacs crossed picket lines manned by teachers who looked like him, and took the side of parents and children who did not. He now tells the story of this conflict, not only from inside the

experimental, community-controlled Ocean Hill–Brownsville district, its focal point, but from within ground zero itself: Junior High School 271, which became the nation’s most famous, or infamous, public school. Isaacs brings to life the innovative teaching practices that community control made possible, and the relationships that developed in the district among its white teachers and its black and Puerto Rican parents, teachers, and community activists. “Inside Ocean Hill–Brownsville is one of the finest accounts of this turbulent time in America’s educational history. As a firsthand analysis of a teacher embroiled in the Ocean Hill–Brownsville community fight for educational justice, it has no peer. From its vantage point forty-five years after the conflict, we finally have a corrective to a plethora of secondhand analyses that have been written over the years. It is a candid picture that I recommend highly.” — Maurice R. Berube, coeditor of *Confrontation at Ocean Hill–Brownsville* “Inside Ocean Hill–Brownsville makes a vital contribution to a much-needed reinterpretation of the epochal struggles over community control of the New York City public schools in the 1960s, and the divisive UFT fall 1968 strikes in opposition to that community-based movement. Writing from the firsthand perspective of a young Jewish math teacher at JHS 271, Isaacs brings this important story vividly to life with insight, candor, and humor. He evokes the attitudes and actions of a rich array of ordinary teachers, administrators, students, and parents who fought to defend the community-control experiment in the face of the lies and distortions perpetrated by UFT officials and the mainstream press. A must read for anyone interested in creating successful public schools, this book helps us remember what democratic public education might look like.” — Stephen Brier, The Graduate Center, City University of New York “Charles Isaacs’s *Inside Ocean Hill–Brownsville* is a firsthand account of the dramatic events of New York City’s greatest school crisis. Isaacs debunks many of the popular myths of black militants waging assaults on teachers. Instead, he demonstrates that the episode in Ocean Hill–Brownsville was a case of black and Latino parents, with the support of a number of teachers at JHS 271, struggling for the education of their children and for a more democratically run educational system. These parents faced one of the most powerful unions in the city and a bureaucratic board of education that wanted to protect the status quo. There have been many books written on the 1968 teachers’ strike, but Isaacs’s well-written, detailed account is by far the best.” — Clarence Taylor, author of *Knocking at Our Own Door: Milton A. Galamison and the Struggle to Integrate New York City*

In Search of Lost Meaning Nov 22 2021 In this new collection of essays, Adam Michnik—one of Europe's leading dissidents—traces the post-cold-war transformation of Eastern Europe. He writes again in opposition, this time to post-communist elites and European Union bureaucrats. Composed of history, memoir, and political critique, *In Search of Lost Meaning* shines a spotlight on the changes in Poland and the Eastern Bloc in the post-1989 years. Michnik asks what mistakes were made and what we can learn from climactic events in Poland's past, in its literature, and the histories of Central and Eastern Europe. He calls attention to pivotal moments in which central figures like Lech Walesa and political movements like Solidarity came into being, how these movements attempted to uproot the past, and how subsequent events have ultimately challenged Poland's enduring ethical legacy of morality and liberalism. Reflecting on the most recent efforts to grapple with Poland's Jewish history and residual guilt, this profoundly important book throws light not only on recent events, but also on the thinking of one of their most important protagonists.

The Forbidden Best-sellers of Pre-revolutionary France Oct 29 2019

Neanderthal May 17 2021 Matt and Susan, two rival palaeontologists and former lovers, are summoned by a secret US government agency to help locate their college mentor, who has disappeared without trace in the remote mountains of Tajikistan. It appears that a race of Neanderthals have survived on the roof of the world, the high Himalayas. When Matt and Susan finally make contact, the implications of their dramatic discovery are more than simply scientific. These hominids have the uncanny facility for telepathic communication, and both American and Russian agents would like to harness their power for military and espionage purposes. 'Darnton narrates his rollicking tale with just the right tone of straightfaced experience he needs to make everything seem pretty plausible. (In particular the ESP skill of protohumans, something called 'remote viewing', is hair-raisingly believable.) 'NEANDERTHAL' is perfect vacation reading: entertaining, mildly educational and scary enough to make you grateful that the only neanderthals you're likely to meet will be the kind who cut into your lane on the expressway to the beach. ' - Maureen Corrigan, NEWSDAY

A Continuation Of The Account Of The Ministers, Lecturers, Masters and Fellows of Colleges, and Schoolmasters, who Were Ejected and Silenced After the Restoration in 1660, by Or Before the Act for Uniformity Jan 01 2020
'The President Has Been Shot' Aug 27 2019 This updated paperback edition of the acclaimed analysis of medical and political events surrounding the attempted assassination of Ronald Reagan includes a new Postscript on the election of 1992 and "the public's right to know " which covers the health problems and disclosures of Bush, Tsongas, Buchanan, Perot, and Clinton in light of the issues of privacy and confidentiality.

All Is Vanity Sep 28 2019 Bentley Jones is the gifted managing editor of the University Press in Los Angeles. When he is found murdered, Lazlo Boyd, the Campus Police Chief, is ordered by the University President to quickly solve the crime. Lazlo and his two lieutenants, Javier Lopez and Julia Kim, are soon faced with many suspects, for Bentley had made many enemies among those University professors whose books he had edited. Lazlo uses all of the resources of the University's many departments to pursue the investigation. Soon however he uncovers a plot so vast that it threatens the very existence of the University Press. But he must move quickly before the plot can be executed. A supplementary readers guide includes explanations and references supporting the actual facts and research on which the novel is based.

West Riding Election May 05 2020

The Case for Books Jul 07 2020 The era of the printed book is at a crossroad. E-readers are flooding the market, books are available to read on cell phones, and companies such as Google, Amazon, and Apple are competing to command near monopolistic positions as sellers and dispensers of digital information. Already, more books have been scanned and digitized than were housed in the great library in Alexandria. Is the printed book resilient enough to survive the digital revolution, or will it become obsolete? In this lasting collection of essays, Robert Darnton—an intellectual pioneer in the field of this history of the book—lends unique authority to the life, role, and legacy of the book in society.
