Proceedings of the Xth International Scientific Congress in Fur Animal Production Oct 22 2021 These proceedings present the latest achievements and developments within the scientific community of fur animal research organised by the International Fur Animal Scientific Association (IFASA). The book contains papers on the following topics: nutrition, feeding and management, health and disease, breeding, genetics and reproduction, behaviour and welfare and a theme on 'WelFur for mink and foxes'. The scientific results presented do not only come from traditional mink producing countries, but also from countries with more recent developments in fur animal production. The scientific community in the field of fur animal production is small, but the biologic diversity and thus the need for scientifically based knowledge in this area is similar to, or often exceeds, that of other farm animals. In this book, the most diverse and recent advancements in fur animal production were brought together in order to provide a clear overview for all those involved in the fur animal industry.

On the shore of a methane sea beneath glowering skies, atmospheric researcher Abigail Marco finds herself in the middle of murder, piracy and colleagues who seem to be seeing sea monsters and dead people from the past. On the Shores of Titan's Farthest Sea provides thrills, excitement and mystery – couched in the latest science – on one of the Solar System's most bizarre worlds, Saturn's huge moon Titan. "This riveting story, set against a plausibly well integrated interplanetary space, carries us along with its bright and interesting characters. We feel absolutely transported to a hauntingly beautiful and alien Titan through Carroll's masterful weaving of art and science." – Jani Radebaugh, Professor of Planetary Sciences, Titan dune expert, BYU "It's a fun read! Really makes Titan come alive, literally..." – Astrophysicist and author Ralph Lorenz "Michael Carroll's new novel "On the Shores of Titan's Farthest Sea" (Springer) is a gripping, good-vs-evil tale that sparkles with imagination. It's set on the shores of Kraken Mare, the vast methane sea found high in the northern latitudes of Saturn's moon, Titan, in a future when humanity has spread throughout the solar system. The villains are wicked, the heroes are scientists (Thanks, Mike!), the story is convincing, the dialogue snappy, and the scenery is right out of our catalog of findings on this cold, hazy and alien world. If you fancy skipping forward 250 years and checking out how humankind might be navigating the very geography and landforms we have uncovered in our years touring Saturn, this book is for you!" --Carolyn Porco, leader of the Cassini Imaging Science team and the Director of the Cassini Imaging Central Laboratory for Operations (CICLOPS) at the Space Science Institute in Boulder, Colorado

Separation Jan 01 2020 How do you separate your reality from everyone else's? When we first meet Sable Gaines she is attending an Alcoholics Anonymous meeting, where she admits to being there solely for the benefit of her mother-an overbearing elitist-and her best friend, Mikeen. She vehemently denies having a problem - at least not a drinking problem. While at the meeting, Sable confesses to having frequent encounters with her father, who just happens to have been dead for nearly a month. Sable offers this information up freely-simply trying to make sense of the world through what is tangible and what is not. But she quickly begins to wonder what the others at the meeting must think of her while deciding what she thinks of herself. Through "Separation" we come to meet a preacher who tells Sable that she is one of the rare individuals able to see into the spirit world-in fact, according to her Uncle, Tico Gaines, it is a family trait that her grandmother possessed as well. However, even more amazingly, Sable finds she can communicate with inanimate objects. As a result of her father's death, Sable and her Uncle Tico find themselves investigating the murder along with the local police department. Will Sable's unique powers serve to aid in the

investigation, or will they reveal too much and leave Sable a wreck, simply looking for her next drink?

Ryder's Surrender Nov 03 2022 Ryder and Pepper McCoy are the pampered sisters of the Highland McCoys - Heath, Philip, Jaxson and Tennessee. Resisting one of the Duke boys is difficult, keeping both of them at arm's length may very well prove to be impossible. But who should she choose? One or both? To complicate matters, there's more going on than meets the eye. The Dukes and the McCoys may very well have a common enemy. When Ryder becomes the pawn in a madman's scheme, all of the men who love her will have to work together to save her. Still, entrusting their baby sister to the wild, powerful Dukes is not something the McCoy boys think they can accept. Will Ryder bend to her family's and society's expectations or will she surrender to what her soul and body craves? She soon finds out that true love doesn't always follow the rules.
