Dharma Art Nov 06 2020 "Dharma art" refers to creative works that spring from the awakened meditative state, characterized by directness, unselfconsciousness, and nonaggression. Chogyam Trungpa Rinpoche shows that dharma art provides a vehicle to appreciate the nature of things as they are and express it without any struggle or desire to achieve. A work of dharma art brings out the goodness and dignity of the situation it reflects - dignity that comes from the artist's interest in the details of life and sense of appreciation for experience. At the same time, the author stresses the need for artists to study their craft, develop skill, and absorb knowledge and insight passed down by tradition. And, finally, he extends the principles of dharma art to everyday life, showing how any activity can provide an opportunity to relax and open ourselves to the phenomenal world.

Love in the Afternoon Jul 02 2020 Emma, hale and hearty though she is, feels that her time is rapidly running out and she begins to reminisce upon the events of her life far, far less than ordinary. *Love In The Afternoon* encompasses her peculiar, yet highly significant affair, the marriage that is to end in tragedy, the birth of her twin sons and a loss and reconciliation that her wildest dreams could never have imagined. There is a late flowering of romance and passion, imbued with all the heady and intoxicating fragrance of an Indian summer and the late discovery of a rather lucrative skill. Will Emma perish alone and unfulfilled in a nursing home or does another, spicier, more gratifying fate await her? Always surprising and never predictable, Barrie Stacey's debut novel is as moving as it is entertaining and as entertaining as it is original.

Extreme Economies Sep 28 2022 *Winner of the Enlightened Economist Prize 2019* *Winner of Debut Writer of the Year at the Edward Stanford Travel Writing Awards 2020* *Longlisted for the Financial Times & McKinsey Business Book of the Year Award 2019* 'Extreme Economies is a revelation - and a must-read.' Andy Haldane, Chief Economist at the Bank of England To understand how humans react and adapt to economic change we need to study people who live in harsh environments. From death-row prisoners trading in institutions where money is banned to flourishing entrepreneurs in the world's largest refugee camp, from the unrealised potential of cities like Kinshasa

to the hyper-modern economy of Estonia, every life in this book has been hit by a seismic shock, violently broken or changed in some way. In his quest for a purer view of how economies succeed and fail, Richard Davies takes the reader off the beaten path to places where part of the economy has been repressed, removed, destroyed or turbocharged. He tells the personal stories of humans living in these extreme situations, and of the financial infrastructure they create. Far from the familiar stock reports, housing crises, or banking scandals of the financial pages, Extreme Economies reveals the importance of human and social capital, and in so doing tells small stories that shed light on today's biggest economic questions. 'A highly original approach to understanding what really makes economies tick.' Mervyn King, former Governor of the Bank of England
