Wordplay and Translation Jan 30 2020 Extended Special Issue Spik in Glyph? Translation, Wordplay and Resistance in Chicano Poetry, pp 141-160 Tace Hedrick (Comparative Literature, Penn State Harrisburg, USA) This paper examines the nature of contemporary bilingual Chicano poetry from the 1970s to the present, particularly in terms of the poetic use of bilingual wordplay and the questions it raises about the uses and possibilities of translation. Using Walter Benjamin's essay 'The Task of the Translator' as a touchstone, and positing a metaphorical link between translation and transfer, the paper looks at bilingual wordplay as a kind of bridging-over or translation of one language into the other, crossing and breaking down borders and hierarchies between the two languages. To illustrate this, cultural practices and uses of bilingualism are examined from both a sociolinguistic and a poetic point of view, with examples of how puns, (mis)pronunciations, slang, loanwords, and mixtures of Spanish and English are used in bilingual

poetry for formal and polemical effect. Meaningful Literary Names: Their Forms and Functions, and their Translation, pp 161-178 Luca Manini (Montalto, Italy) Proper nouns, which have a special status within the language system as opposed to common nouns, can be used as characterizing devices in literary texts and so become a meaningful element in the texture of such works. Names can in this way be endowed with an extra semantic load that makes them border on wordplay. The presence of meaningful literary names is likely to cause problems when the text is to be translated, the question being not only whether the transposition of such names in the target language is technically possible, but also to what extent this would be viewed as an appropriate procedure. This paper, which reflects research in progress, explores the issue by analyzing a two-part corpus of texts: The first part consists of twentieth-century Italian translations of English Restoration comedies and the second of Italian translations of Dickens's novels. There are occasional references to other English literary texts from the medieval and Renaissance periods as well. Technical problems of translating proper nouns are taken into consideration, along with other factors which may influence the translator's choices, such as genre, intended audience, cultural tradition and general norms of translation. The Pitfalls of Metalingual Use in Simultaneous Interpreting, pp 179-198 Sergio Viaggio (United Nations, Vienna, Austria) For the simultaneous interpreter, puns and other instances of metalingual use, involving as they do an interplay of form, content and pragmatic intention, may represent a formidable challenge. The interpreter's most efficient tool is his or her adroitness at determining the pun's or the metalingual comment's relevance on the basis of an instant analysis of the communication situation, with particular attention to the speaker's pragmatic intention and intended sense, as well as the audience's needs and expectations. Actual examples from United Nations meeting are used to illustrate the different factors affecting the rendition of wordplay and metalanguage and some suggestions are made towards improving the training of interpreters. Caught in the Frame: A Target-Culture Viewpoint on Allusive Wordplay, pp 199-218 Ritva Leppihalme (University of Helsinki, Finland) Allusive wordplay - stretches of preformed linguistic material (or frames) that have undergone lexical, grammatical, or situational modification - is so culture-specific that it is not only hard for translators working from a foreign language to translate but easy for them to miss altogether. This paper discusses examples of allusive wordplay in English fiction and journalism and reports on an experiment designed to investigate the recognition of frames and carried out on twenty-one Finnish university students of English. Student translations of some of the examples are also discussed. It is argued that a translator who wants to produce a coherent target text and to avoid 'culture bumps' (Archer 1986) must above all pay attention to the function of the wordplay in the relevant context. Passages that include modified frames will often need to be rewritten, as attempts to evoke source-culture frames are unlikely to work with target-culture readers to whom such frames are unfamiliar. Target-culture frames, on the other hand, may be puzzling in a text which is set in the source-culture context. 'Curiouser and Curiouser': Hebrew Translation of Wordplay in 'Alice's Adventures in Wonderland', pp 219-234 Rachel Weissbrod (The Open University of Israel) In 'Alice's Adventures in Wonderland', wordplay has a central role in producing an ambivalent text, that is, one which can function at one and the same time in children's literature and in adult literature. This paper examines, from a norm-oriented approach, how instances of wordplay were treated in three Hebrew translations. The first translation, published in 1923, was subject to a norm which required acceptability at the socio-cultural level. Instances of wordplay were accordingly replaced by completely new ones that were rooted in Jewish tradition. In the second translation, published in 1951, the treatment of wordplay was determined by a different norm, one which required a rephrasing of Carroll's work in an elevated style. Only in the third translation, published in 1987, was the translator sufficiently free from socio-cultural and stylistic dictates to cope with Carroll's wordplay with all the means available. In this last translation, elements which are foreign to Carroll's world or style are introduced only insofar as they helped the translator replace the original wordplay. Translating Jokes for Dubbed Television Situation Comedies, pp 235-257 Patrick Zabalbeascoa (Universitat Pompeu Fabra, Barcelona, Spain) This paper examines Catalan and Spanish dubbed versions of English TV comedy series such as 'Yes, Minister', with special attention to wordplay as a particular instance of the more general problem of translating comedy for television. The objective is to show that producing foreign-language dubbed versions of audiovisual texts has enough in common with other types of translating assignments to be included within translation studies, as well as to contribute to the area of quality assessment and evaluation of translations by proposing that the criteria for judging a translation should be clear, flexible and realistic, and should take into account the translator's limitations and working environment. The paper also proposes a classification of jokes, with further examples from translations of British situation comedy into Catalan, and presents the concept of 'stylebook' as a helpful bridge between general statements about translation and specific contextualized translating assignments. Dante's Puns in English and the Question of Compensation, pp 259-276 Edoardo Crisafulli (University College, Dublin, Ireland) After a comparative analysis of the source and target texts, this paper attempts to put forward an explanation to account for H. F. Cary's avoidance policy as he deals with Dante's puns in his early nineteenth-century translation of the 'Divina Commedia'. The aim is to consider the findings of the analysis in relation to the issue of compensation. No discussion of translation can avoid dealing with this issue, but there is evidence that compensation cannot be called upon to account for all the foregrounding devices in the target text. In particular, the relationship between compensation and the translator's ideology must be taken into account. The paper concludes by suggesting some conditions which might make it easier to identify instances of compensation. Harvey's (1995) descriptive framework is employed with a view to improving its explanatory power. No-Man's Land on the Common Borders of Linguistics, Philosophy & Sinology: Polysemy in the Translation of Ancient Chinese Texts, pp 277-304 Seán Golden (Universitat Autònoma de Barcelona, Spain) This paper treats polysemy as the driving force of ancient Chinese rhetoric, inherent in the language and its system of writing, not just as an embellishment but as the very basis of discourse, and intrinsic to the multiple meanings expressed by the text; in this way, text may represent a worldview that is radically different from the Western one and that is encoded syntactically, semantically, rhetorically, and visually (in the case of the Chinese written character) in the language. This challenges the comprehension of ancient Chinese texts by translators and their reproduction in languages that share neither the worldview nor the multiple codes involved. From the no-man's land on the common borders of linguistics, philosophy and sinology, the translator may glimpse the horizon of understanding within which the original operates, while knowing that the readership of a translation is looking at a different horizon. Better understanding of this fact by the translator should contribute to a better interpretation of the multiple meanings contained in the original and to a translation that maintains as many meanings as possible. Prison Journal, Volume 2 Aug 31 2022 Innocent! That final verdict came after George Cardinal Pell endured a grueling four years of accusations, investigations, trials, public humiliations, and more than a year of imprisonment after being convicted by an Australian court of a crime he did not commit. Led off to jail in handcuffs, following his sentencing on March 13, 2019, the 78-year-old Australian prelate began what was meant to be six years in jail for "historical sexual assault offenses". Cardinal Pell endured more than thirteen months in solitary confinement, before the Australian High Court voted 7-0 to overturn his original convictions. His victory over injustice was not just personal, but one for the entire Catholic Church. Bearing no ill will toward his accusers, judges, prison workers, journalists, and those harboring and expressing hatred for him, the cardinal used his time in prison as a kind of "extended retreat". He eloquently filled notebook pages with his spiritual insights, prison experiences, and personal reflections on current events both inside and outside the Church, as well as moving prayers. In this second of three volumes, Cardinal Pell receives the terrible news that his first appeal is rejected. With the same grace, wisdom, and calm perseverance we see on display in Volume 1, he continues

his quest for justice by appealing to the Australian High Court. Glimmers of hope emerge as more legal experts, including non-Catholics, join the chorus of those demanding that this miscarriage of justice be reversed.

In this third and final volume, Cardinal Pell's conviction is overturned by Australia's High Court, and he is released from prison. As his appeal draws near, he grows in confidence that his case is strong and that his vindication is important not only for his own sake and the Church's sake, but also for the sake of Australia's legal system. While continuing his daily readings and devotions, and receiving hundreds of letters with offers of prayers and sacrifices on his behalf, the cardinal ponders the meaning of suffering in the life of the Christian, and he determines to accept with equanimity whatever outcome lies ahead.

Vietnam Journal: Vol. 5 - TET '68 Sep 07 2020 The acclaimed Vietnam Journal series from Don Lomax, nominated for a Harvey Award, is collected and presented as a series of graphic novels. Vietnam Journal is a look at the Vietnam War through the eyes of a war journalist, Scott 'Journal' Neithammer, as he chronicles the lives and events of soldiers on the front line during the Vietnam War. In VOLUME FIVE, the story of the Tet Offensive is chronicled by 'Journal'. It is the biggest push the Viet Cong launched during the Vietnam War and one that almost brought them immediate victory. The American command realizes that the latest assault by the VS is a massive one as multiple targets are all hit at once. This escalates the war to an entirely new level. And with the Tet Offensive in full force, 'Journal' finds the civilian population are more than just tools in the war. As he, along with most of the other press covering the war, realize that although America are winning the battles, they were losing the war. And it is obvious that the Viet Cong would do anything to succeed....anything. And with U.S. troops making their push to Khe Sanh, 'Journal' gets a taste of the politics that have taken over the American involvement in the war as it cements the insanity of the entire Vietnam conflict. And lastly with news of the My Lai Massacre overwhelming the media and press, 'Journal' begins to understand that the tactics of the Viet Cong cannot be used by the Americans. And this puts the war on unequal footing and the only victory possible is a moral one. Collects entire Vietnam Journal Tet '68 series (issues 1-6). Picked by Entertainment Weekly as "a graphic novel you should own" and recommended by the Military History Book Club. "Even today, VIETNAM JOURNAL is one of the most gritty and brutally honest war stories ever published." - Brian Cronin, Comic Book Resources. "Vietnam Journal by Don Lomax is the best comic book portrayal of Vietnam I have ever read. Its probably one of the best works ever put down in any art form about the war." - Daniel Robert Epstein. A Caliber Comics release.
