history of scientific and cognitive research, this book is a tour de force through the science and philosophy of the human mind, and what it means to think as a rational human being in the 21st century. Our world is awash in mis- and disinformation, baseless conspiracy theories, New Age ideology, anti-science propaganda, and all manner of magical thinking. Pseudo-experts fill the airwaves with false and bogus claims, news media twist and spin information to suit their ends, celebrities and corporations push evidence-free beliefs on their followers, and politicians continue to mislead the masses with false promises and bad thinking. In careful detail, author Jon Guy investigates the art of thinking critically, offering readers the ability to empower themselves and our society at large. In order to think critically, we must also learn what it means to know, what knowledge is, how to investigate, how to question, and how everything from computer algorithms written by geniuses to psychological traits embedded in us from our evolutionary origins conspire to construct a model of reality that we have much reason to doubt. The human mind is not only the most powerful and complex structure ever discovered, it is also riddled with a host of flaws, shortcomings, errors, and limitations, most of which none of us are ever made aware of. Critical thinking is the ability to both capitalize on the strengths and power of human cognition, as well as understand and combat the error-prone nature of our brains. Think Straight encourages us to accept that not everything we think is true and explores how we can compensate for the many errors of our minds. Backed by the best available research and data, and written in clear and decisive language, Think Straight provides readers with the proper guidance and tools to improve your thinking, inform your decisions, avoid fraud and deceit, and make the world a better place to live and prosper.

Rosicrucian Manual Aug 03 2020 Originally published by The Supreme Grand Lodge of the Ancient Mystical Order Rosae Crucis (AMORC) in 1918 and again in 1929, with several reissues, the Rosicrucian Manual is an official manual for new members of the AMORC and Rosicrucianism. The AMORC Imperator and author of the book, H. Spencer Lewis, describes the manual as a "Guide to the Work and Studies of the Order." It contains a greeting and preliminary instructions, as well as a description of the AMORC and its important officers, general and special instructions to Members and Lodges, Mystic Symbols and their meanings, magical and alchemical explanations, and a dictionary and FAQ. HARVEY SPENCER LEWIS (1883-1939), a well-known Rosicrucian author, mystic, occultist, alchemist, and inventor, was the founder of the Ancient Mystical Order Rosae Crucis (AMORC) in the USA, as well as its first Imperator from 1915 until his death. Born in Frenchtown, New Jersey, Lewis used his training as a commercial artist for an advertising company to promote the AMORC in its early days through print ads and pamphlets. Lewis believed it was his mission to spread modern mysticism throughout the United States, which he did by promoting AMORC tours, appearing on radio shows, giving demonstrations, writing books, and inventing mystical devices. His inventions include the Luxatone, the Cosmic Ray Coincidence Counter, and the Sympathetic Vibration Harp.

**Straight from the Heart** Oct 25 2019 Straight from the Heart brings together an inspiring collection of Buddhist teachings, songs of realization, meditation instructions, and enlightened poetry—all chosen for their power to speak directly to the student. Drawn from Indian Mahayana and Vajrayana Buddhism as well as from all four schools of Tibetan Buddhism, some will impress with their beautiful poetry and powerful imagery, others with their profound power of instruction. Still others share personal advice for life that seems to come directly from the mouth of the author, and some serve as immediate and profound practice instructions. Several are just delightfully unconventional, even outrageous, letting in fresh air on petrified views or musty traditions. Most of them are simply unknown precious gems, which deserve a wider audience. Each of the works is preceded by a brief introduction and a short biography of its author. Many of these are legendary accounts of supernatural feats, edifying examples for students on the same spiritual path meant to expand their limited outlook with “mind-blowing” stories. Miraculous deeds, magnificent songs, and pithy instructions distinguish this collection assembled by the Buddhist scholar and translator Karl Brunnhölzl, whose years of work among dharma texts and his skill as a translator yield a rich mine of teachings all chosen for their ability to speak directly to the heart.

*The Short Meaning of Life* Nov 25 2019 Huge misunderstanding exists across human society at this present low point in our evolution regarding the very foundations of all our belief systems including - in particular - our scientific and religious belief systems where rank ignorance about the very fundamentals of how our Cosmos is actually put together presently limit our understanding. In reality we have hardly moved much more than

a couple of steps from those original cave fires that saw civilization as we presently understand it into being. I lay out the rules regulating our existence, extracting a number of the main points from our leading philosophers and mystics, starting with the mythic Taoist, Lao Tzu and his Tao Te Ching and ending with Greek/Armenian mystic, George Gurdjieff and his major interpreter, Russian writer Peter Ouspensky. Cosmos - Soul & Body Operating Manual for the 22nd Century, which this Short Meaning attempts to encapsulate, is predicated on the fact that at this point in Time in this early 21st Century a lot of squabbling over the full implications of this paradigm shift is going to occur over the next few decades before that new class of human predicted by Gurdjieff and Ouspensky and a huge heritage of earlier prophets has emerged in sufficient numbers to seriously influence what next needs to take place - the elevation of Homo sapiens to a new dynamic level of genuine Understanding of how exactly our species and its companions fit into the Cosmic Big Picture. Cosmos itself is available in two forms: (1) In 3-Volume format from Ebook websites, or (2) Via Internet link on request to taoisttzu@protonmail.ch

**Virgo Ascendant Secrets** Nov 06 2020 There are times when people just can't identify with the attributes of their Sun or Moon sign. In fact, they may feel that they are an antithesis of their zodiac sign. You may also have observed it. Your Leo friend may not seek attention, may be because he or she has a Capricorn ascendant. Your Sagittarius friend is very possessive, may be because he or she has a Scorpio Ascendant. It is easy to understand why some people do not correspond to their Sun or Moon signs once you know about what is the rising sign or Ascendant in a horoscope. Ascendant is the degree of the zodiac sign that was highest on the Eastern horizon at the time and place of birth. When seen from Earth, the sky seems to move, so the entire zodiac can be observed in a span of 24 hours day which means the rising sign changes on the Eastern horizon every 24 hours.

Naked Awareness Apr 11 2021 In this classic seventeenth-century presentation of the union of Mahamudra and Dzogchen, Karma Chagmé, one of the great teachers of both these lineages of Tibetan Buddhism, begins with an overview of the spirit of awakening and the nature of actions and their ethical consequences. Next, drawing from his enormous erudition and profound experience, Chagmé gives exceptionally lucid instructions on the two phases of Dzogchen practice—the "breakthrough" and the "leap-over"—followed by an accessible introduction to the practice of the transference of consciousness at the time of death. The concluding chapters of this treatise present a detailed analysis of Mahamudra meditation in relation to Dzogchen practice. This tour de force of scholarly erudition and contemplative insight is made all the more accessible by the lively commentary of the contemporary Nyingma Lama Gyatrul Rinpoche. Although this book stands alone, it is the concluding section of a single body of teachings by Karma Chagmé, the earlier section published under the title *A Spacious Path to Freedom*. Karma Chagmé was a major teacher of the Karma Kagyu tradition of Tibetan Buddhism, and his writings have also become central to the Payul Nyingma order, making him an ideal figure to integrate these two great meditation systems.

### **Designing Software Synthesizer Plug-Ins in C++** Oct 17 2021

Bridging the gap from theory to programming, Designing Software Synthesizer Plug-Ins in C++ For RackAFX, VST3 and Audio Units contains complete code for designing and implementing software synthesizers for both Windows and Mac platforms. You will learn synthesizer operation, starting with the underlying theory of each synthesizer component, and moving on to the theory of how these components combine to form fully working musical instruments that function on a variety of target digital audio workstations (DAWs). Containing some of the latest advances in theory and algorithm development, this book contains information that has never been published in textbook form, including several unique algorithms of the author's own design. The book is broken into three parts: plug-in programming, theory and design of the central synthesizer components of oscillators, envelope generators, and filters, and the design and implementation of six complete polyphonic software synthesizer musical instruments, which can be played in real time. The instruments implement advanced concepts including a user-programmable modulation matrix. The final chapter shows you the theory and code for a suite of delay effects to augment your synthesizers, introducing you to audio effect processing. The companion website, [www.focalpress.com/cw/pirkle](http://www.focalpress.com/cw/pirkle), gives you access to free software to guide you through the application of concepts discussed in the book, and code for both Windows and Mac.

human history, encompassing the Franco-Prussian War, the unification of Germany, and two world wars. He was one of the very last composers to have started his career in service to the old European aristocracy, but near the end of his life, the continent lay in shambles, and he faced financial ruin even as he remained Germany's greatest living composer. Virtually from the day they were written, Strauss's tone poems from the late nineteenth century works such as *Don Juan*, *Till Eulenspiegel*, *Also Sprach Zarathustra*, and *Death and Transfiguration* have been repertory standards. So have the operas *Salome*, *Elektra*, and *Der Rosenkavalier*. And yet a tremendous quantity of very good music, both early and late, has only recently come to the attention of musicians and music lovers alike. This "owner's manual," accompanied by full-length audio tracks, surveys all the major works with orchestra: symphonies, concertos, tone poems, operas, ballets, suites, and songs. Many of them will be new even to listeners familiar with the popular pieces, part of a vast legacy of immaculately crafted, beautiful music that deserves to be rediscovered and treasured.

*Rules of Thumb* Aug 15 2021 Much has been written about the "imminent" return of Jesus Christ. But what will our world be like if He tarries for 10, 100, or 1000 more years? This story is a view of the post-apocalyptic world of our distant future, as present-day political and social currents are extrapolated to their logical conclusions. It looks at the events of today, and predicts that they are "the shadows of the things that will be", as Ebenezer Scrooge inquired of the "spirit". Charles Dickens, in "A Christmas Carol", said it best: "Men's courses will foreshadow certain ends, to which, if persevered in, they must lead. But if the courses be departed from, the ends will change." THE HISTORY OF OUR FUTURE is a plea for western civilization to depart from its present "courses". One of the "characters" in this post-apocalyptic vision is an historic old house that presently exists in our

It has witnessed much during its existence, and will participate in great events which will change the world of the people of this far-away time as they learn the wisdom of their ancients, that "Resistance to Tyranny is Obedience to God".

**Girl Online** Jun 01 2020 What happens when a woman goes online? She becomes a girl. The unwritten contract of the internet, that a user is what is used, extends from the well-examined issue of data privacy and consent to the very selves women are encouraged to create in order to appear. Invited to self-construct as “girls online,” vloggers, bloggers and influencers sign a devil’s bargain: a platform on the condition they commodify themselves, eternally youthful, cute and responsibility-free, hiding offline domestic, professional and emotional labour while paying for their online presence with “accounts” of personal “experience.” Told via the arresting personal narrative of one woman negotiating the (cyber)space between her identities as girl, mother, writer, and commodified online persona, *Girl Online* is written in a plethora of the online styles, from programming language to the blog/diary, from tweets to lyric prose, taking in selfies, social media, celebrity and Cyberfeminism.

*Tilopa's Mahamudra Upadesha* Jun 20 2019 An explanation of the Indian Mahasiddha Tilopa's renowned Gangama Mahamudra meditation instructions, given in a traditional Tibetan context by one of its lineage's most accomplished contemporary masters. These ancient instructions, in the form of a "song of realization," are the original source for all Mahamudra lineages of meditation. All lineages of Mahamudra meditation have their source in a verse teaching--a "song of realization"--sung by the Mahasiddha Tilopa to his disciple Naropa on the banks of the Ganges River more than a thousand years ago. Since that time the meaning of the instructions has been passed directly from master to disciple in a continuous transmission lineage that exists unbroken to this day. Mahamudra meditation, while highly advanced, is yet simple and practical because what is identified and meditated upon is the very essence of one's own mind. This book offers the reader a window into the oral transmission of these instructions, given in a traditional Tibetan context by one of the Kagyu lineage's most learned and accomplished contemporary masters.
