Boss Nov 05 2022 "The best book ever written about an American city, by the best journalist of his time."— Jimmy Breslin New edition of the classic story of the late Richard J. Daley, politician and self-promoter extraordinaire, from his inauspicious youth on Chicago's South Side through his rapid climb to the seat of power as mayor and boss of the Democratic Party machine. A bare-all account of Daley's cardinal sins as well as his milestone achievements, this scathing work by Chicago journalist Mike Royko brings to life the most powerful political figure of his time: his laissez-faire policy toward corruption, his unique brand of public relations, and the widespread influence that earned him the epithet of "king maker." The

politician, the machine, the city—Royko reveals all with witty insight and unwavering honesty, in this incredible portrait of the last of the backroom Caesars. New edition includes an Introduction in which the author reflects on Daley's death and the future of Chicago.

Richard Wright's Native Son Aug 02 2022 Richard Wright's *Native Son* (1940) is one of the most violent and revolutionary works in the American canon. Controversial and compelling, its account of crime and racism remain the source of profound disagreement both within

African-American culture and throughout the world. This guide to Wright's provocative novel offers: an accessible introduction to the text and contexts of *Native Son* a critical history, surveying the many interpretations of the text from publication to the present a selection of reprinted critical essays on *Native Son*, by James Baldwin, Hazel Rowley, Antony Dahaware, Claire Eby and James Smethurst, providing a range of perspectives on the novel and extending the coverage of key critical approaches identified in the survey section a chronology to help place the novel in its historical context suggestions for further reading. Part of the Routledge Guides to Literature series, this volume is essential reading for all those beginning detailed study of *Native Son*

and seeking not only a guide to the novel, but a way through the wealth of contextual and critical material that surrounds Wright's text.

First Son Oct 12 2020 "Mayor Richard M. Daley dropped the bomb at a routine news conference at City Hall on Tuesday. With no prelude or fanfare, Mr. Daley announced that he would not seek re-election when his term expires next year. 'Simply put, it's time,' he said." New York Times, September 7, 2010 With those four words, an era ended. After twenty-two years, the longest-serving and most powerful mayor in the history of Chicago—and, arguably, America—stepped down, leaving behind a city that was utterly transformed, and a complicated legacy we are only beginning to evaluate. In *First Son*, Keith Koeneman chronicles the sometimes Shakespearean, sometimes Machiavellian life of an American political legend. Making deft use of unprecedented access to key players in the Daley administration, as well as Chicago's business and cultural leaders, Koeneman draws on more than one hundred interviews to tell an up-close, insider story of political triumph and personal evolution. With Koeneman as our guide, we follow young Daley from his beginnings as an average Bridgeport kid thought to lack his father's talent and charisma to his unlikely transformation into an iron-fisted leader. Daley not only escaped the giant shadow of his father but also

transformed Chicago from a gritty, post-industrial Midwestern capital into a beautiful, sophisticated global city widely recognized as a model for innovative metropolises throughout the world. But in spite of his many accomplishments, Richard M. Daley's record is far from flawless. *First Son* sets the dramatic improvement of certain parts of the city against the persistent realities of crime, financial stress, failing public housing, and dysfunctional schools. And it reveals that while in many ways Daley broke with the machine politics of his father, he continued to reward loyalty with favors, use the resources of city government to overwhelm opponents, and tolerate political corruption. A nuanced portrait of a complex man, *First Son* shows Daley to be sensitive yet tough, impatient yet persistent, a street-smart fighter and detail-driven policy expert who not only ran Chicago, but was Chicago.

Creating Country Music Jun 27 2019 In *Creating Country Music*, Richard Peterson traces the development of country music and its institutionalization from Fiddlin' John Carson's pioneering recordings in

Atlanta in 1923 to the posthumous success of Hank Williams. Peterson captures the free-wheeling entrepreneurial spirit of the era, detailing the activities of the key promoters who sculpted the emerging country music scene. More than just a history of the music and its performers, this book is the first to explore what it means to be authentic within popular culture. "[Peterson] restores to the music a sense of fun and diversity and possibility that more naive fans (and performers) miss. Like Buck Owens, Peterson knows there is no greater adventure or challenge than to 'act naturally.'"—Ken Emerson, Los Angeles Times Book Review "A triumphal history and theory of the country music industry between 1920 and 1953."—Robert Crowley, International Journal of Comparative Sociology "One of the most important books ever written about a popular music form."—Timothy White, Billboard Magazine

The Life and Times of Richard J. Hughes Dec 14

2020 The Life and Times of Richard J. Hughes explores the influential public service of this two-term New Jersey governor. He was the only person in New Jersey history to serve as both governor and chief justice of the New Jersey Supreme Court. This biography illuminates the governor's accomplishments between 1962 and 1970, including the creation of the Hackensack Meadowlands Commission, formation of the county college system, establishment of stringent antipollution laws, design of the public defender system, and the adoption of a New Jersey sales tax, as well as his pivotal role during the Newark riots. As chief justice, Hughes faced difficult issues—school funding, low and moderate income housing needs, freedom of speech, and his decision in the right-to-die case involving Karen Ann Quinlan. With a career characterized by liberal activism, Hughes also contributed nationally and internationally, from serving as host of the 1964 Democratic National Convention to monitoring elections in South Vietnam. John B. Wefing's research includes interviews with prominent politicians and leaders who worked with Hughes at various points in his career. The result is a rich story of a public servant who possessed a true ability to work with members of both political parties and played a significant role in shaping modern New Jersey.

[The Cinema of Richard Linklater](#) Apr 05 2020 From Slacker (1991), a foundational work of independent American

cinema, to the Before trilogy, Richard Linklater's critically acclaimed films and aesthetic ambition have earned him a place as one of the most important contemporary directors. In this second edition of The Cinema of Richard Linklater, Rob Stone shows how Linklater's latest films have redefined our understanding of his work. He offers critical discussions and analysis of all of Linklater's films, including Before Midnight (2013) and Everybody Wants Some!! (2016), as well as new interviews with Linklater and a chapter on Boyhood (2014), hailed as one of the best films of the twenty-first century. Stone explores the theoretical, practical, contextual, and metaphysical elements in Linklater's filmography, especially his experimentation with cinematic representations of time and growth. He demonstrates that fanciful lives and lucid dreams are as central as alternative notions of America and time to Linklater's films. Stone also considers Linklater's collaborative working practices, his deployment of such techniques as rotoscoping, and his innovative distribution strategies. Thoroughly revised, updated, and extended, the book includes analysis of all of Linklater's films, including Dazed and Confused (1993), Waking Life (2011), and A Scanner Darkly (2006) as well as his documentaries, short films, and side projects.

The Reopening of the American Mind Aug 22 2021
The Reopening of the American Mind: On Skepticism and Constitutionalism explores the connection of moderate skepticism with attachment to constitutionalism through the thought of five writers. The features of this skepticism were concisely delineated by James Madison in the 37th Federalist as a recognition of the complexity of political matters, the limitations of human reason, and the shortcomings of language. The position was first articulated by Cicero who connected it with the idea of a mixed or

republican constitution developed by trial and error over generations. Cicero was influential in the world of David Hume, Edmund Burke, and Madison. The skeptical/constitutional connection found its most articulate recent advocate in Supreme Court Justice Felix Frankfurter and underlay his advocacy of judicial restraint. Current events have revived interest in the primacy of the legislative branch in balancing interests and rights, in the States as laboratories for democracy, and in an experimental approach to the solution of social problems in what might be called a reopening of the American mind. The five central chapters explore the skeptical/constitutional connection and the spirit of moderation in these political thinkers. Without an appreciation of this tradition of avoiding dogmatism, people will continue to demand simple answers to complex problems. The book is not, however, primarily a tract for the times but a reflection on the on-going search for a more civil world. *Tales of Forgotten Chicago* Jun 07 2020 Hidden gems from Chicago's past *Tales of Forgotten Chicago* contains twenty-one fascinating, little-known stories about a great city and its people. that nearly killed three hundred leading citizens, politicians, and business and religious leaders; a woman in showbiz and her street-thug husband whose checkered lives inspired a 1955 James Cagney movie; and the first police woman in Chicago, hired as a result of the senseless killing of a young factory girl in a racially tinged case of the 1880s. Also included are tales of industry and invention, such as America's first automobile race, the haunting of a wealthy Gilded Age manufacturer's mansion, and the identity of the telephone's rightful inventor. Chapters on the history of early city landmarks spotlight the fight to save Lakefront Park and how "Lucky" Charlie Weeghman's north side baseball park became Wrigley Field. Other chapters explore civic, cultural, and political happenings: the great Railroad Fairs of 1948 and 1949; Richard J. Daley's revival of the St. Patrick's Day parade; political disrupter Lar "America First" Daly; and the founding of the Special Olympics in Chicago by Anne Burke and others. Finally, some are just wonderful tales, such as a touching story about the sinking of Chicago's beloved Christmas tree ship. Engrossing and imaginative, this collection opens new windows into the past of the Windy City. **Ecuador** Jul 09 2020 This beautifully illustrated book features some of the most significant works of art produced by the people that inhabited the present territory of Ecuador before the arrival of

Dunciad? The answer: he had the temerity to bring classical study out of the scholar's closet and into the drawing rooms of polite society. Kristine Haugen's highly engaging biography of a man whom Rhodri Lewis characterized as "perhaps the most notable—and notorious—scholar ever to have English as a mother tongue" affords a fascinating portrait of Bentley and the intellectual turmoil he set in motion. Aiming at a convergence between scholarship and literary culture, the brilliant, caustic, and imperious Bentley revealed to polite readers the doings of professional scholars and induced them to pay attention to classical study. At the same time, Europe's most famous classical scholar adapted his own publications to the deficiencies of non-expert readers. Abandoning the church-oriented historical study of his peers, he worked on texts that interested a wider public, with spectacular and—in the case of his interventionist edition of *Paradise Lost*—sometimes lamentable results. If the union of worlds Bentley craved was not to be achieved in his lifetime, his provocations show that professional humanism left a deep imprint on the literary world of England's Enlightenment.

Richard Posner Oct 04 2022

The first biography of Judge Richard Posner, arguably the most prolific jurist and brilliant legal intellectual of our time -- *The Economics of Attention* Sep 30 2019 If economics is about the allocation of

resources, then what is the most precious resource in our new information economy? Certainly not information, for we are drowning in it. No, what we are short of is the attention to make sense of that information. With all the verve and erudition that have established his earlier books as classics, Richard A. Lanham here traces our epochal move from an economy of things and objects to an economy of attention. According to Lanham, the central commodity in our new age of information is not stuff but style, for style is what competes for our attention amidst the din and deluge of new media. In such a world, intellectual property will become more central to the economy than real property, while the arts and letters will grow to be more crucial than engineering, the physical sciences, and indeed economics as conventionally practiced. For Lanham, the arts and letters are the disciplines that study how human attention is allocated and how cultural capital is created and traded. In an economy of attention, style and substance change places. The new attention economy, therefore, will anoint a new set of moguls in the business world—not the CEOs or fund managers of yesteryear, but new masters of attention with a grounding in the humanities and liberal arts. Lanham's *The Electronic Word* was one of the earliest and most influential books on new electronic culture. *The Economics of Attention* builds on the best insights of that seminal book to map the new

frontier that information technologies have created.

Richard Riemerschmid's Extraordinary Living Things

Nov 24 2021 How Richard Riemerschmid's designs of everyday—but "extraordinary"—objects recalibrate our understanding of modernism. At the beginning of the twentieth century, German artist Richard Riemerschmid (1868–1957) was known as a symbolist painter and, by the advent of World War I, had become an important modern architect. This, however, the first English-language book on Riemerschmid, celebrates his understudied legacy as a designer of everyday objects—furniture, tableware, clothing—that were imbued with an extraordinary sense of vitality and even personality. Freyja Hartzell makes a case for the importance of Riemerschmid's designed objects in the development of modern design—and for the power of everyday things to change the way we live our lives, understand history, and design our future. Hartzell offers for the first time an

interpretive history of Riemerschmid's design practice embedded in a fresh examination of modernism told by the objects themselves.

Hartzell explores Riemerschmid's early drawings, paintings, and prints; his interiors and housewares, which represent a modernist shift from exclusive image to accessible object; his designs for women's clothing; his immensely popular wooden furniture; his serially produced ceramics and their appeal to German nationalism of the period; and his complex and compelling pattern designs for textiles and wallpapers, the only part of his creative practice that spanned his entire career. Riemerschmid, Hartzell writes, was at his most inventive, playful, and free when designing things for everyday use. His uniquely designed forms allow us to recognize the utilitarian object not just as a tool but as an individual being—a thing with a soul.

Barbarians in the Saddle Aug 29 2019 Barbarians in the Saddle is Joseph Scotchie's intellectual biography of Richard M. Weaver. It is an in-depth study of each of Weaver's published works and an examination of the

significant influence he had on the formation of conservative America. Ideas Have Consequences and Visions of Order examine the problem of life in "megalopolis" where the best of everything is promised to the restless masses by their leaders and a cradle-to-grave social security state results in dangerous levels of decadence, resentment, and the loss of civility and culture. In The Southern Tradition at Bay and other essays on the American South, Weaver expresses his preference for the nonmaterialistic, virtuous ethos of the Old South. Finally, The Ethics of Rhetoric highlights Weaver's devotion to a discipline increasingly out of favor with academia.

Barbarians in the Saddle will be of significant value to political theorists, philosophers, and students of American civilization.

Recovering Overlooked Pragmatists in Communication Sep 22 2021

This collection of essays engages with the current resurgence of interest in the relationship between American pragmatism and communication studies. The topics engaged in this

collection of essays is necessarily diverse, with some of the figures discussed within often viewed as “minor” or ancillary to the main tradition of pragmatism. However, each essay attempts to show the value of reading these minor figures for philosophy and rhetorical studies. The diversity of the pragmatist tradition is evident in the ways in which unlikely figures like Hu Shi, Ambedkar, and Alice Dewey leverage some of the original commitments of pragmatism to do important intellectual, social, and political work within the circumstances that they find themselves. This collection of essays also serves as a reminder for how we might reimagine and reuse pragmatism for our own social and political projects and challenges.

Richard Nickel's Chicago

Sep 03 2022 Richard Nickel is an urban legend of sorts. He is remembered for his brave and lonely stand to protect Chicago's great architecture, and for his dramatic death in the rubble of the Stock Exchange Building. He is remembered, too, for the photographs he left behind. This is a book about one man's relationship with his city, a remarkably personal story told

through compelling photographs. Richard Nickel's Chicago is for people who love the city, and for people all over the world who value city life.
