Jesus, Last of the Pharaohs Jan 05 2021 It is a little-known fact that the exodus of the Hyksos pharaohs from Egypt to Jerusalem is an incredibly similar event to the exodus of the Israelites from Egypt to Jerusalem. Classical historians and theologians will not entertain any connection between the two, because this infers that the Israelite leaders were actually pharaohs of Egypt. However, Ralph Ellis has taken this obvious comparison and demonstrated the royal Egyptian ancestry of the Judaic patriarchs and also of Jesus. Ralph has also uncovered evidence for the New Testament Saul (St Paul) in the historical record, a discovery that brings with it several new accounts of the life of Jesus. Saul, the inventor of Christianity, was actually Josephus Flavius, a well-known historian. Jesus was the governor of Tiberias and owned a castle there; and he may have died during the siege of Jerusalem in about AD70, rather than AD 33 - crucified along with two of his compatriots. Followed by "Tempest & Exodus" and "Eden to Egypt". Latest version v5.6 Hyksos, Shepherd Kings, Jacob, Sea People, Jesus, Saul, Jerusalem, Egyptian False Prophet, historical Jesus.

Learning the Ropes Bible NLT Jan 17 2022 A lariat rope is a useful and necessary tool in a cowboys life. A cowboy who learns to use it with precision and skill can accomplish much both on the ranch and in the arena. Gods Word is also a necessary and useful tool for building a relationship with God. By learning to use it and apply it to your life, you can receive the full and abundant life God has promised. Anyone can own a rope. Likewise, anyone can own a Bible. However, only those that take the time to learn the ropes will truly benefit from it. By learning Gods Word you can become all that he has created you to be. Start Learning the Ropes today! But dont just listen to Gods word. You must do what it says. Otherwise, you are only fooling yourselves. James 1:22, NLT

Changing the Goalpost of New Testament Textual Criticism Mar 07 2021 Before the 1960s, the goal of New Testament Textual Criticism was singular: to retrieve the "original text" of the New Testament. Since then, the goalpost has incrementally shifted away from the "original text" to retrieving "any text" or "many texts" of the NT. Some scholars have even concluded that the "original text" is hopelessly lost and cannot be retrieved with any confidence or accuracy. Other scholars have gone a step further to claim that the idea of an "original text" itself is a misconception that needs to be abandoned. If this new approach in NTTC is correct, then the authority of Scripture is weakened or no longer valid. It will be shown in this book that such is not the case. Furthermore, emphasis will be placed on the need to return to the traditional goalpost of NTTC, i.e., to retrieve the original text. Without a generally definitive text, the door will be left wide open to recreate any desired text of the NT. An unsettled original text will result in an unsettled biblical theology due to a lack of any authoritative and standard text. Consequently, it will lead to an unsettled Christian faith and practice.

The Beginning of the Gospel Jun 22 2022 Mark wrote "the beginning of the Gospel" for Christians who thought it was the end. For that he told them a story of another time when Jesus' disciples thought it was the end but turned out to be the beginning. That is why the passion-resurrection of Jesus dominates the Gospel according to Mark. Using rhetorical and literary analysis, the author introduces Mark's story as the beginning of the Gospel as we enter the new millennium.

Trappist-1 Oct 26 2022 Trappist-1 is Mark Noble Space Adventure book three. It is strongly advised, but not absolutely essential, to read Moonscape and Moonstruck first. Following the 2030 discovery of quantum spolding (space folding), interstellar exploration becomes a possibility. NASA, together with private space exploration companies, begin work on the complex physics, technology, and hardware to turn it into reality. After a test flight to Mars, more hazardous than anyone anticipated, the starship Spirit and its two Rimor shuttles set off for the dwarf red star, Trappist-1, almost forty light years from the solar system. Haven, the fifth Trappist planet, has continents and seas, icecaps, glaciers and mountains, but the ubiquitous plant life they find is, at first, dull and uninteresting. However, it doesn't take long for them to discover that Haven isn't a place on which to find shelter. It does, in fact, have the most terrifying secret, only discovered during the last day of the expedition. As realisation dawns, Mark and his team end up in an existential struggle. When they finally appear to have resolved their disastrous visit to the planet's surface, they discover an even bigger surprise awaiting them in orbit. It promises so much. Could it be enough to revitalise the whole mission and turn failure into success? Harmsworth's Mark Noble Space Adventures, of which Trappist-1 is book three, contain no space battles, or fantasy environments, but follow real science as closely as possible. Having said that, in order to travel between the stars, there must some suspension of belief to allow for the development of quantum spolding, for which Tony requires your forgiveness. Who knows, though, whether it might foretell the future? In this story, Tony blends hard science fiction with a large dollop of imagination, and a substantial pinch of horror to add flavour.
