**Ecology** Nov 20 2021 As well as emphasising the links to evolution, 'Ecology' covers all the levels of the ecological hierarchy at which the subject is studied. It focuses on their integration to ensure that students are able to grasp how events in nature are interconnected.

*Invisible No More* Dec 22 2021 "A passionate, incisive critique of the many ways in which women and girls of color are systematically erased or marginalized in discussions of police violence." —Michelle Alexander, author of *The New Jim Crow* *Invisible No More* is a timely examination of how Black women, Indigenous women, and women of color experience racial profiling, police brutality, and immigration enforcement. By placing the individual stories of Sandra Bland, Rekia Boyd, Dajerria Becton, Monica Jones, and Mya Hall in the broader context of the twin epidemics of police violence and mass incarceration, Andrea Ritchie documents the evolution of movements centered around women's experiences of policing. Featuring a powerful forward by activist Angela Davis, *Invisible No More* is an essential exposé on police violence against WOC that demands a radical rethinking of our visions of safety—and the means we devote to achieving it.

IB Biology Student Workbook Aug 25 2019

**Social Isolation and Loneliness in Older Adults** Jul 17 2021 Social isolation and loneliness are serious yet underappreciated public health risks that affect a significant portion of the older adult population. Approximately one-quarter of community-dwelling Americans aged 65 and older are considered to be socially isolated, and a significant proportion of adults in the United States report feeling lonely. People who are 50 years of age or older are more likely to experience many of the risk factors that can cause or exacerbate social isolation or loneliness, such as living alone, the loss of family or friends, chronic illness, and sensory impairments. Over a life course, social isolation and loneliness may be episodic or chronic, depending upon an individual's circumstances and perceptions. A substantial body of evidence demonstrates that social isolation presents a major risk for premature mortality, comparable to other risk factors such as high blood pressure, smoking, or obesity. As older adults are particularly high-volume

and high-frequency users of the health care system, there is an opportunity for health care professionals to identify, prevent, and mitigate the adverse health impacts of social isolation and loneliness in older adults. *Social Isolation and Loneliness in Older Adults* summarizes the evidence base and explores how social isolation and loneliness affect health and quality of life in adults aged 50 and older, particularly among low income, underserved, and vulnerable populations. This report makes recommendations specifically for clinical settings of health care to identify those who suffer the resultant negative health impacts of social isolation and loneliness and target interventions to improve their social conditions. *Social Isolation and Loneliness in Older Adults* considers clinical tools and methodologies, better education and training for the health care workforce, and dissemination and implementation that will be important for translating research into practice, especially as the evidence base for effective interventions continues to flourish.

**Structural Firefighting** Sep 26 2019 Safe and effective structural firefighting requires a complex thought process. It is not a simple matter of "how to." Decisions depend on many factors, from the type of building, to the likelihood of occupancy, to the water supply. The third edition of *Structural Firefighting: Strategy and Tactics* leads readers through all phases of planning, evaluation and implementation to enable them to effectively manage structure fire incidents safe and effective manner, regardless of size or complexity. The third edition has been revised to thoroughly cover the practical applications and limitations of the latest research from Underwriters Laboratories (UL) and National Institute of Standards and Technology (NIST) as well as: Discussion of actual, recent fire incidents and what can be learned from them Updated statistical information and coverage of the latest applicable standards Use of real-world examples to reinforce chapter concepts Student exercises based on practical and real scenarios By applying the principles described in *Structural Firefighting: Strategy and Tactics, Third Edition*, even the most experienced fire officers and incident commanders will be able to utilize their knowledge more effectively at the scene.

From #BlackLivesMatter to Black Liberation Oct 08 2020 The author of *Race for Profit* carries out "[a] searching examination of the social, political and economic dimensions of the prevailing racial order" (Michelle Alexander, author of *The New Jim Crow*). In this winner of the Lannan Cultural Freedom Prize for an Especially Notable Book, Keeanga-Yamahtta Taylor "not only exposes the canard of color-blindness but reveals how structural racism and class oppression are joined at the hip" (Robin D. G. Kelley, author of *Freedom Dreams*). The eruption of mass protests in the wake of the police murders of Michael Brown in Ferguson, Missouri, and Eric Garner in New York City have challenged the impunity with which officers of the law carry out violence against black people and punctured the illusion of a post-racial America. The Black Lives Matter movement has awakened a new generation of activists. In this stirring and insightful analysis, activist and scholar Keeanga-Yamahtta Taylor surveys the historical and contemporary ravages of racism and the persistence of structural inequality, such as mass incarceration and black unemployment. In this context, she argues that this new struggle against police violence holds the potential to reignite a broader push for black liberation. "This brilliant book is the best analysis we have of the #BlackLivesMatter moment of the long struggle for freedom in America. Keeanga-Yamahtta Taylor has emerged as the most sophisticated and courageous radical intellectual of her generation." —Dr. Cornel West, author of *Race Matters* "A must read for everyone who is serious about the ongoing praxis of freedom." —Barbara Ransby, author of *Ella Baker and the Black Freedom Movement* "[A] penetrating, vital analysis of race and class at this critical moment in America's racial history." —Gary Younge, author of *The Speech: The Story Behind Dr. Martin Luther King Jr.'s Dream*

*The Prodigy Slave, Book One* Jan 29 2020 At the age of nine, Lily is forcefully torn from her mother's arms and sold at a Negro auction by her master,

a man that Lily learns that day is her very own father. Seeking solace from such devastation, Lily secretly begins teaching herself to play her new master's piano: an instrument that she is forbidden from touching. Lily becomes an extraordinary pianist and gets away with secretly playing for fourteen years until the master's son, James, discovers her deceit. The "punishment" that James gives Lily starts her on an unprecedented journey that dramatically alters her life and influences the lives of thousands, including a man with great power. Lily's groundbreaking journey also unveils the secret altruistic love of a particular man who has been forbidden from expressing his love to her for years. But the question remains whether or not the strength of his love will be powerful enough to free Lily from the shackles of slavery and protect her dreams and her life while on her turbulent Journey to Winter Garden.

**This is a Taco!** Jun 15 2021 This is a squirrel . . . "Hey, I may be a squirrel, but my name is Taco! And I don't eat nuts and tree bark—blech—I prefer tacos!" The natural predator of squirrels is . . . "Whoa, whoa, whoa! Who is writing this book? I do not like where this is going." This hilarious send-up of a children's nature primer teaches kids that the most important story is the one you write yourself.

**Scripting Intelligence** Apr 13 2021 While Web 2.0 was about data, Web 3.0 is about knowledge and information. Scripting Intelligence: Web 3.0 Information Gathering and Processing offers the reader Ruby scripts for intelligent information management in a Web 3.0 environment—including information extraction from text, using Semantic Web technologies, information gathering (relational database metadata, web scraping, Wikipedia, Freebase), combining information from multiple sources, and strategies for publishing processed information. This book will be a valuable tool for anyone needing to gather, process, and publish web or database information across the modern web environment. Text processing recipes, including speech tagging and automatic summarization Gathering, visualizing, and publishing information from the Semantic Web Information gathering from traditional sources such as relational databases and web sites

**Dictionary of International Biography** Oct 27 2019 A biographical record of contemporary achievement together with a key to the location of the original biographical notes.

**Tales from Kentucky Nurses** Sep 30 2022 From frontier times to the present day, Kentucky nurses have served with intelligence and energy, always ensuring that their patients received the best available care. Noted folklorist and oral historian William Lynwood Montell collects nearly two hundred stories from these hard-working men and women in Tales from Kentucky Nurses. From humorous anecdotes to spine-chilling coincidences, tragic circumstances, and heartwarming encounters, the tales in this lively volume are recorded exactly as they were told to Montell. Covering medical practice in the state from the early twentieth century through contemporary times, the episodes related in Tales from Kentucky Nurses reveal the significance of the nursing profession to the Bluegrass state's local life and culture. They include funny tales -- such as the story of an injured stripper who swore her pole had been sabotaged and an anecdote about a surgeon racing between hospitals who paid his speeding ticket twice, knowing he would have to hurry the other way in a few hours. Montell also presents moving stories like the recollections of a nurse who helped a frail cancer patient achieve his last wish of being baptized. This valuable collection also features anecdotes from the famous Frontier Nursing Service, which provided essential care to families in remote areas of the state and whose leader, Mary Breckinridge, is remembered fondly for her wit and kindness. In addition, Montell's interviewees share ghost stories and describe folk remedies like the practice of placing an axe under a woman's pillow during labor to cut the pain. These firsthand accounts not only pay homage to an underappreciated profession but also preserve important aspects of Kentucky's history not likely to be recorded elsewhere.

**Practicing Biology** Apr 01 2020 This workbook offers a variety of activities to suit different learning styles. Activities such as modeling and mapping allow students to visualize and understand biological processes. New activities focus on reading and developing graphs and basic skills.

**The Avocado Tree** Jan 23 2022 What's a boy to do when hindsight is 20/20? THE AVOCADO TREE is a coming-of-age memoir told from the adult vantage point of Shon Franklin, who on a quest for forgiveness, clarity, and resolve, recounts his seemingly normal eleven year old life, gone awry, circa 1984. Just when he comes to terms with his parent's recent divorce, Shon's mother, Sharon, leaves her parental obligations in Inglewood, California behind for the fast life back in her hometown of Chicago, leaving ex-husband, Earl Jr. to raise Shon and his two young siblings. Now a seemingly motherless child, Shon must learn to cope with abandonment, family misfortune, and congenital dysfunction, all while sorting through life's formative lessons in love, sex, street ethics, and moral character.

Tula Mar 13 2021 A debut poetry collection exploring themes of family and identity while examining the experiences of a second-generation Filipino immigrant in America. Tula: a ruined Toltec capital; a Russian city known for its accordions; Tagalog for "poem." Prismatic, startling, rich with meaning yet sparsely composed, Chris Santiago's debut collection of poems—selected by A. Van Jordan as the winner of the 2016 Lindquist & Vennum Prize for Poetry—begins with one word and transforms it, in a dazzling sleight of hand, into a multivalent symbol for the immigrant experience. Tula: Santiago reveals to readers a distant land devastated by war. Tula: its music beckons in rhythms, time signatures, and lullabies. Tula: can the poem, he seems to ask, build an imaginative bridge back to a family lost to geography, history, and a forgotten language? Inspired by the experiences of the second-generation immigrant who does not fully acquire the language of his parents, Tula paints the portrait of a mythic homeland that is part ghostly underworld, part unknowable paradise. Language splinters. Impossible islands form an archipelago across its landscape. A mother sings lullabies and a father works the graveyard shift in Saint Paul—while in the Philippines, two dissident uncles and a grandfather send messages and telegrams from the afterlife. Deeply ambitious, a collection that examines the shortcomings and possibilities of both language and poetry themselves, Tula introduces a major new literary talent. Praise for Tula "A book that both transports us and transforms us." —Viet Thanh Nguyen "A debut collection that is a spare, elegant engagement with language. . . . Santiago's struggles with identity are well-explored, but his linguistic savvy and precision truly stand out." —Publishers Weekly "Santiago seems to recognize that words will always hold power, even as their meanings evolve. Through everything, Tula delves into these nuances of language: how it is suppressed, how it is weaponized, how it loves, how it informs, and how it is often as fleeting as a birdsong. Tula is therefore a celebration of the ephemeral and the permanent, a lovely testament to the beauty of contradiction." —Chicago Review of Books

AP Psychology Premium Nov 28 2019 Always study with the most up-to-date prep! Look for AP Psychology Premium, 2022-2023, ISBN 9781506278513, on sale January 4, 2022. **Campbell Biology in Focus, Loose-Leaf Edition** Oct 20 2021 NOTE: This loose-leaf, three-hole punched version of the textbook gives you the flexibility to take only what you need to class and add your own notes -- all at an affordable price. For loose-leaf editions that include MyLab(tm) or Mastering(tm), several versions may exist for each title and registrations are not transferable. You may need a Course ID, provided by your instructor, to register for and use MyLab or Mastering products. For introductory biology course for science majors Focus. Practice. Engage. Built unit-by-unit, Campbell Biology in Focus achieves a balance between breadth and depth of concepts to move students away from memorization. Streamlined content enables students to prioritize essential biology content, concepts, and scientific skills that are needed to develop conceptual understanding and an ability to apply their knowledge in future courses. Every unit takes an approach to streamlining the material to best fit the needs of instructors and students, based on reviews of over 1,000 syllabi from across the country, surveys, curriculum initiatives, reviews, discussions with hundreds of biology professors, and the Vision and Change in Undergraduate Biology Education report. Maintaining the Campbell hallmark standards of accuracy, clarity, and pedagogical innovation, the 3rd Edition builds on this foundation to help students make connections across chapters, interpret real data, and synthesize their knowledge. The new edition integrates new, key scientific findings throughout and offers more than 450 videos and animations in Mastering Biology and embedded in the new Pearson eText to help students actively learn, retain tough course concepts, and successfully engage with their studies and assessments. Also available with Mastering Biology By combining trusted author content with digital tools and a flexible platform, Mastering personalizes the learning experience and improves results for each student. Integrate dynamic content and tools with Mastering Biology and enable students to practice, build skills, and apply their knowledge. Built for, and directly tied to the text, Mastering Biology enables an extension of learning, allowing students a platform to practice, learn, and apply outside of the classroom. Note: You are purchasing a standalone product; Mastering Biology does not come packaged with this content. Students, if interested in purchasing this title with Mastering Biology ask your instructor for the correct package ISBN and Course ID. Instructors, contact your Pearson representative for more information. If you would like to purchase both the loose-leaf version of the text and Mastering Biology search for: 0134988361 / 9780134988368 Campbell Biology in Focus, Loose-Leaf Plus Mastering Biology with Pearson eText -- Access Card Package Package consists of: 013489572X / 9780134895727 Campbell Biology in Focus, Loose-Leaf Edition 013487451X / 9780134874517 Mastering Biology with Pearson eText -- ValuePack Access Card -- for Campbell Biology in Focus

The American Biology Teacher Jul 25 2019

**Life Science** Apr 25 2022

Dancing My Dream Aug 06 2020 This memoir of Native American teacher, writer and artist Warren Petoskey spans centuries and lights up shadowy

corners of American history with important memories of Indian culture and survival. Warren's family connects with many key episodes in Indian history, including the tragedy of boarding schools that imprisoned thousands of Indian children as well as the traumatic effects of alcohol abuse and bigotry. He writes honestly about the impact of these tragedies, and continually returns to Indian traditions as the deepest healing resources for native peoples. He writes about the wisdom that comes from practices such as fishing, hunting and sharing poetry. This memoir is an essential voice in the chorus of Indian leaders testifying to major chapters of American history largely missing from most narratives of our nation's past.
