Using the Standards: Measurement, Grade 2 Sep 03 2022 Master math with measurement! Using the Standards: Measurement has more than 100 reproducible activities to make measurement meaningful for students in grade 2. The book supports NCTM Standards, including length, volume, weight, area, time, standard and nonstandard units, and tools for measuring. The vocabulary cards reinforce math terms, and the correlation chart and icons on each page identify which content and process standards are being utilized. This 128-page book includes pretests, posttests, answer keys, and cumulative assessments.

Ethics in the Age of the Spirit Jul 21 2021 What causes us as a people of faith to think and act the way we think and act? Are we motivated by whatever is most practical, by a particular understanding of Scripture, by the influence of the culture around us, or by something more profound? On the premise that Pentecostalism does have much to contribute to the study of ethics, this book explores how one group, the American Assemblies of God, has wrestled with issues of racism, women in ministry, and Christian involvement in war. In the process, readers are invited to examine the connection--or disconnect--between what we believe and how we live out our faith.

The Constitution: Amendments XI through XXVII Feb 13 2021 The activities in this packet will introduce students to one of the most important documents in the history of our country: the Constitution. Students will learn about the Amendments XI through XXVII.

Thinking Through Math Word Problems Apr 29 2022 This innovative text teaches elementary school students the techniques of critical thinking and problem solving and applies those methods to mathematical word problems. It supplements traditional fourth, fifth, and sixth grade textbooks and increases students' thinking and problem solving abilities. Students are taught the fundamentals of these processes by applying them both to simple and multi-step problems which are provided. These problems -- many written by elementary school pupils -- gradually increase in difficulty, making learning both fun and stimulating. Special attention is given to typical errors and sources of conceptual difficulty.

[American Republic to 1877, Interpreting Political Cartoons](#) Dec 14 2020 Contains 36 reproducible activity pages, each including one political cartoon, short summary of the issue being addressed, and questions for analysis and critical thinking.

[Web 2.0 Tools in Concept Teaching](#) Aug 10 2020 Currently, students are interested in more than one thing at the same time, preferring to use visuals and infographics, rather than writing, in the learning process. In addition, these students use technology better in the education process, as in all aspects of daily life, as they meet technology at an earlier age than their teachers. Therefore, teachers should also update themselves according to these learner characteristics. In particular, "assessment" and "evaluation" are two of the topics that students may not enjoy to their fullest extent. This book serves to make the assessment process fun and interactive, as well as to inform teachers about the different applications they can do in this process. It invites teachers to introduce highly interactive applications and make their classes active in the learning process.
