**Look-Alikes Jr.** Feb 02 2020 Welcome to Look-Alike Land, where the more you look, the more you see! Like its predecessor, Look-Alikes Jr. features 3-D picture puzzles, but this time invites even the youngest child to join in the fun by featuring simpler, easier-to-find look-alikes in childlike settings. There are 11 scenes - house, parlor, kitchen, bedroom, school bus, classroom, construction site, movie lobby, train, farm, and rocket - each with 50+ objects to identify (700+ in total). Look for a cement mixer made out of a mustard bottle, kitchen cabinets made out of cakes of soap, and a bed built with crayons and pasta! Fun for all ages. This best-selling book is back with a brand new series design and a striking new cover.

[The Gentle Weapon](#) Aug 10 2020 The gentle weapon of prayer opens the heart and soul and gives voice to our deepest yearnings, while bringing us closer to God. The startling wisdom of Rebbe Nachman of Breslov will

help you talk with God and enable you to hear your own voice as well.

**The Hardmen** Jan 15 2021 It's time we all stopped whining and learned a thing or two from The Toughest Cyclists Ever. Including: Stephen Roche, whose cure for exhaustion was to go up a gear and fight harder, all the way to the ambulance. Eddy Merckx, who hurt himself so badly in breaking the Hour record that, he estimated, he shortened his career by a year. Beryl Burton, who crushed her (male) rival's morale with the offer of a piece of liquorice, before speeding past to victory. Nicole Cooke and Edwig Van Hooydonck, who rejected dope and became legends. The Hardmen tells the stories - the good bits, anyway - of the 40 most heroic Cyclists ever. Their bravery, their panache and their Perfect Amount of Dumb. It reminds us that suffering on a bike liberates us from our daily lives, and that, in the words of Lance Armstrong "pain is temporary, quitting lasts forever"; proof that even assholes can be insightful.

[Modern Power Electronics](#) Oct 24 2021 I May observed that recent developments in power electronics have proceeded in two different directions, namely, low power range power supplies using high frequency PWM technique and medium to high power range energy control systems to serve specific Purpose.

[Voodoo River](#) Nov 24 2021 In a search for a young woman's past PI Elvis Cole discovers far more than he expected . . . Hired to uncover the past of Jodi Taylor, an actress in a hit TV show, Elvis leaves his native Los Angeles to head for Louisiana in search of Jodi's biological parents. But before he can tackle the mystery of the actress's background, he is up against a whole host of eccentrics, including a crazed Raid-spraying housewife, a Cajun thug who looks like he's been made out of spare parts, and a menacing hundred-year-old river turtle named Luther. As Elvis learns about the enigmatic actress's origins, he also discovers the real reason he's been sent to Louisiana . . .

[Control of Machines](#) Sep 10 2020 Control of Machines is one of the most important functional areas for electrical and mechanical engineers working in industry. In this era of automation and control, every engineer has to acquaint himself on the design installation, and maintenance of control systems. This subject must find its place as a compulsory applied engineering subject in degree and diploma curriculum. Some progressive states and autonomous institutions have already introduced this subject in their curriculum. In this book, static control and programmable controllers have been included keeping in

view the latest developments in modern industry. Relay and static control have been dealt with in details. Most of the control circuits included in this book have been taken from Indian industry. A chapter has been devoted to protection of motors and troubleshooting in control circuits. The chapter on PLC has been made very elaborate to deal with all aspects of logic controllers. Review questions have been included at the end of each chapter. The explanations of circuits and design procedure of control circuits have been made very simple to help students understand easily. Students, teachers and shop floor and design office engineers will find this book a very useful companion.

**Excess Baggage** Feb 25 2022 Lately, Anviksha Punjabi can't seem to get anything right. She is in the middle of ending her second marriage, is barely keeping any friends, and repeatedly getting into trouble at work. And as if all that weren't enough, she must put up with her gregarious and over-bearing 67-year-old mother as a housemate. Afraid that if this goes on, she'll finally unravel completely, Anviksha decides that she needs a break - a Bollywood style, solo-trip across Europe kind of break. What she doesn't expect is that her mother, Smita Punjabi, will insist on coming along. The unlikely duo embarks on a journey complete with nudists, an unwelcome blast from the past, a British dog named Bhindi, and several eligible bachelors, and slowly, what was supposed to be a soul-searching journey for one, turns into a life-altering experience for two.

**The Book of L** Jun 19 2021 This book is dedicated to Aristid Lindenmayer on the occasion of his 60th birthday on November 17, 1985. Contributions range from mathematics and theoretical computer science to biology. Aristid Lindenmayer introduced language-theoretic models for developmental biology in 1968. Since then the models have been customarily referred to as L systems. Lindenmayer's invention turned out to be one of the most beautiful examples of interdisciplinary science: work in one area (developmental biology) induces most fruitful ideas in other areas (theory of formal languages and automata, and formal power series). As evident from the articles and references in this book, the interest in L systems is continuously growing. For newcomers the first contact with L systems usually happens via the most basic class of L systems, namely, DOL systems. Here "0" stands for zero context between developing cells. It has been a major typographical problem that printers are unable to distinguish between 0 (zero) and 0 (oh). Thus, DOL was almost always printed with "oh" rather than "zero", and also pronounced that way. However, this misunderstanding turned out to be very fortunate. The wrong spelling "DOL" of "DOL" could be read in the suggestive way: DO L Indeed, hundreds of researchers have followed this suggestion. Some of them appear as contributors to this book. Of the many who could not contribute, we in particular regret the absence of A. Ehrenfeucht, G. Herman and H.A. Maurer whose influence in the theory of L systems has been most significant.

Tracing bloody footprints, Eve finds a hotel room filled with signs of a ritual murder, but the man remembers nothing. Determined to help, Roarke consults an ex-lover who practices witchcraft. But Eve knows there is nothing supernatural about a deadly lust for power . . . Set between *Salvation in Death* and *Promises in Death*.

**Every Last Kiss: The Bloodstone Saga** Aug 29 2019 What would you do if you held Fate in your hands? 17-year old Macy Lockhart has the weight of the world on her shoulders. For thousands of years, she has been a Keeper in the ancient organization, the Order of the Moirae... and she literally holds fate in her hands. But this is something that she forgets because her memories are wiped clean in every life until it is time for her cycle to start again. For the last two thousand years, this has never been a problem. Until now. And now...Fate, the very thing that Macy was born to keep, is being challenged and she has only one choice: To return to a previous life to fix it; a life where she was Cleopatra's handmaiden, Charmian. And that's not all. Unless she interferes with the fabric of time, the very thing she has returned to repair, her soul mate will die leading Marc Antony's forces against Rome. Can she really stand aside

and allow the love of her life to die all over again?

**Foucault and Habermas** Jul 01 2022 Seminar paper from the year 2002 in the subject Philosophy - Philosophy of the Present, grade: 1,7, Brandeis University (Department of Philosophy), course: Sem.: European Political Thought, 4 entries in the bibliography, language: English, abstract: Max Weber's thesis that the rationalization of Western societies in the course of the Enlightenment has been an irreversible process is one of the central and most consequential discoveries in modern European political thought. Its significance lies in the fact that any philosopher or social thinker who engages in an analysis of western societies must come to grips with the question what 'Enlightenment' means and involves. The various contemporary political theories of action can be distinguished in regard to their specific answers to that question, for these answers define the realm of that which is politically possible under the conditions of Modernity. Michel Foucault and Jürgen Habermas, who represent two of the most influential theories, both present powerful arguments for their respective assessments of the Enlightenment. However, these assessments are rather incompatible. Foucault, who devoted much of his life to the struggle against the hidden workings of an apparently ubiquitous and suppressive power, presents a decisively pessimistic account. For him, the Enlightenment has increased and sophisticated the techniques of power, which pervades and - more significantly - constitutes societies and their members as an invisible force while shaping the forms of knowledge that are generally accepted as given by them. Habermas, whose social philosophy has repeatedly proven its applicability to (foremost German social democratic) concrete governmental questions, is not as monistic as Foucault. There is no central category such as 'power' in his thought. This seems to be related to Habermas's objects of study as opposed to Foucault's. Foucault likes to look at the borders of society, at the psychiatric clinic, the prison, and defamed sexuality. Habermas, while not denying the existence of these, rather focuses on the development of middle class life and its institutions, foremost the public sphere and political institutions such as the parliament. Both of them are historical thinkers, and certainly both fill the empirical vacuum left by the Frankfurt school's masterpiece on the Enlightenment, Adorno's and Horkheimer's *Dialektik der Aufklärung*, with historical scrutiny. Significantly, though, Foucault's assessment of the Enlightenment stays much closer to the *Dialektik der Aufklärung* than Habermas. [...]

**Mike and the Bike** Mar 17 2021 This volume in the Kids of Canada series follows two children as they learn that sometimes the best way to get what you want is to share. Mike likes Jenny's bike, but he doesn't know how to ride one. He's too afraid to tell her that, so he tries to learn how to ride it on his own. That only makes trouble for them both. Mike and the Bike is a book for beginning readers that shows how young people can overcome their fears--together.

**A Secondhand Lie** Oct 12 2020 Sometimes you know things you're not supposed to know. Things that you can never un-know. Things that will change the course of your life...and the fate of the ones you love. I found her in our living room, bleeding and close to death, but alive. Barely. Until morning stole her last breath. The media called her killer the "Triangle Terror" ... and then forgot about her. But I never forgot—my murdered sister, and an investigation that led to my own resurrection from the dead. Twenty-two years ago, on a cold February night, Landon Worthington lost his father for the last time. After an armed robbery gone wrong, evidence and witness testimony pointed a shaky finger at Dan Worthington—deadbeat dad and alcoholic husband. But before the dust could settle over the conviction, Landon's preteen sister, Alexis, is murdered in their home, plunging Landon's life into further despair. Two decades and a cold case later, Landon is dogged by guilt over their estranged relationship and decides to confront his incarcerated father about what really happened the night of the robbery. But the years of lies are hard to unravel. And the biggest question of all haunts him: How does everything tie into his sister's murder? And so begins Landon's journey to piece together the puzzle of secrets, lies, and truths that can

free his father, avenge his sister, and perhaps save himself. A short story mystery perfect for fans of Robert Dugoni's *Third Watch* and Dean Koontz's *The Neighbor*. Read as a standalone or as the companion book to *A Secondhand Life*.

To help you meet this and other weaving challenges, *Handbook of Weaving* covers every step of the process clearly and systematically

**Endangered** Jul 09 2020 From National Book Award Finalist Eliot Schrefer comes the compelling tale of a girl who must save a group of bonobos -- and herself -- from a violent coup. Congo is a dangerous place, even for people who are trying to do good. When Sophie has to visit her mother at her sanctuary for bonobos, she's not thrilled to be there. Then Otto, an infant bonobo, comes into her life, and for the first time she feels responsible for another creature. But peace does not last long for Sophie and Otto. When an armed revolution breaks out in the country, the sanctuary is attacked, and the two of them must escape unprepared into the jungle. Caught in the crosshairs of a lethal conflict, they must struggle to keep safe, to eat, and to live. In *ENDANGERED*, Eliot Schrefer plunges us into a heart-stopping exploration of the things we do to survive, the sacrifices we make to help others, and the tangled geography that ties us all, human and animal, together.
