is a thorough-going, rigorous and scholarly work, with profound and wide-ranging implications for the future of educating institutions and agencies of all kinds in the conception, planning and delivery of lifelong learning initiatives. Lifelong learning requires a wholly new philosophy of learning, education and training, one that aims to facilitate a coherent set of links and pathways between work, school and education, and recognises the necessity for government to give incentives to industry and their employees so they can truly “invest” in lifelong learning. It is also a concept that is premised on the understanding of a learning society in which everyone, independent of race, creed or gender, is entitled to quality learning that is truly excellent. This book recognises the need for profound changes in education and for goals that are critically important to education, economic advancement, and social

conduct; hence, covering the key elements of "life and love, and everything in between". Comprising an introductory volume for parents and teachers; a volume for classroom use of teachers; a volume for parents; and eight volumes for Grades 5 to 12, respectively, this current volume is specifically addressed to Grade 6 pupils, about 17 to 18 year olds in their late adolescence. It talks about SPECIAL QUESTIONS: on issues concerning life; sex; marriage; and human identity. Since men and women have been gifted with intellect and will, one becomes highly capable of using well or abusing these powers for the good or damage of self and fellowmen. It is thus extremely important that students at this age have a deep appreciation of the issues confronting the modern world, especially in the realm of sexuality and the channels of its development.

The book series is characterized by sound, perennial concepts and by teaching and learning tools
