The Oxford Handbook of Sound Art Oct 31 2019 Sound art has long been resistant to its own definition. Emerging from a liminal space between movements of thought and practice in the twentieth century, sound art has often been described in terms of the things that it is understood to have left behind: a space between music, fine art, and performance. The Oxford Handbook of Sound Art surveys the practices, politics, and emerging frameworks of thought that now

define this previously amorphous area of study. Throughout the Handbook, artists and thinkers explore the uses of sound in contemporary arts practice. Imbued with global perspectives, chapters are organized in six overarching themes of Space, Time, Things, Fabric, Senses and Relationality. Each theme represents a key area of development in the visual arts and music during the second half of the twentieth century from which sound art emerged. By offering a set of thematic frameworks through which to understand these themes, this Handbook situates constellations of disparate thought and practice into recognized centers of activity.

[Geographies of Urban Sound](#) Jul 21 2021 Taking into account both the urban soundscape and the impacts of sound on the urban dweller, this book examines sound not as a by-product of urban life, but as a fundamental part of the urban experience that is crucial to understanding the city's sense of place. Illustrated by case studies from Europe and North America, these range from on-site measurements to the construction of audio tours for local tourism, from media analysis of popular culture audio drama to sound-identity and city branding, and from the classification of noise in city planning to a consideration of the complex relationship between sacred sound and the creation of a sense of place.

[My Life on the Plains](#) Mar 05 2020 In 1874, just two years before General George A. Custer's death at Little Big Horn, a collection of his magazine articles was published as "'My Life on the Plains.'" Custer, General in the U.S. Army's Seventh Cavalry, wrote personal accounts of his encounters with Native Americans during the western Indian warfare of 1867-1869. The collection was a document of its time and an important primary source for anyone interested in U.S. military affairs and U.S./Native American relations. Custer's references to Indians as "'bloodthirsty savages'" were tempered by his empathetic understanding of their reason for fighting: "'If I were an Indian, I often think I would greatly prefer to cast my lot among those of my people who adhered to the free open plains, rather than submit to the confined limits of a reservation...'"

There's more to winning battles than fists and feet For world-renowned professional fighter Georges St-Pierre, the greatest asset is not physical strength or athleticism—it's a sense of purpose. From his beginnings as a small, mercilessly bullied child first discovering karate to his years as a struggling garbage collector who spent all his free time in the gym, his hard-fought rise in the sport of mixed martial arts, and his long, painful recovery from a career-threatening injury, Georges never lost sight of his ambition to become the greatest martial artist of all time. [The Black Mozart](#) Nov 12 2020 Long before the word Super Star was coined, Saint-Georges was the original. Many people throughout history have been famous for one reason or another. Many have made great contributions to civilization and left great legacies. Their paintings and sculptures we still admire. Their discoveries have made our lives better; their music we still play and sing, but no one in history was as talented in so many areas as Saint-Georges. For a time, he was the greatest fencer in the world. He was an exceptional violinist and along with his teacher, Gossec, he pioneered the composition of the String Quartet. Even Mozart came to Paris to study this new form of music. Saint-Georges was an unequaled equestrian, an exceptional marksman and an elegant dancer. The wealthy copied the way he dressed, and the common people admired him as he walked through the streets, and whispered his name. He was a true Renaissance man and a super star in the Paris of King Louis XVI and Marie Antoinette. What is even more remarkable was the fact that he was a mulatto.
