[Wild Goose Chase](#) Oct 02 2022 Most of us have no idea where we're going most of the time. Perfect. "Celtic Christians had a name for the Holy Spirit—An Geadh or 'the Wild Goose.' The name hints at mystery. Much like a wild goose, the Spirit of God cannot be tracked or tamed. An element of danger, an air of unpredictability surround Him. And while the name may sound a little sacrilegious, I cannot think of a better description of what it's like to follow the Spirit through life. I think of Celtic Christians were on to something.... Most of us will have no idea where we are going most of the time. And I know that is unsettling. But circumstantial uncertainty also goes by another name: Adventure." --from the introduction

In many ways, we're more comfortable than ever before. But could our sheltered, temperature-controlled, overfed, underchallenged lives actually be the least

cause of many our most urgent physical and mental health issues? In this gripping investigation, award-winning journalist Michael Easter seeks out off-the-grid visionaries, disruptive genius researchers, and mind-body conditioning trailblazers who are unlocking the life-enhancing secrets of a counterintuitive solution: discomfort. Easter's journey to understand our evolutionary need to be challenged takes him to meet the NBA's top exercise scientist, who uses an ancient Japanese practice to build championship athletes; to the mystical country of Bhutan, where an Oxford economist and Buddhist leader are showing the world what death is about happiness; to the outdoor lab of a young neuroscientist who's found that nature tests our physical and mental endurance in ways that expand creativity; to taming burnout and anxiety; to the remote Alaskan backcountry on a demanding thirty-three-day hunting expedition to experience the rewilding secrets of one of the last rugged places on Earth; and more. Along the way, Easter uncovers a blueprint for leveraging the power of discomfort that will dramatically improve our health, happiness, and perhaps even help us understand what it means to be human. The Comfort Crisis is a bold call to break out of your comfort zone and explore the world within yourself.

Primal Jan 01 2020 Our generation needs a reformation. But a single person won't lead it. A single event won't define it. Our reformation will be a movement of reformers living creatively, compassionately, courageously for the cause of Christ. This reformation will not be born of a new discovery. It will be the rediscovery of something old, something ancient. Something primal. —Mark Batterson, Primal What would your Christianity look like if it was stripped down to the simplest, rawest, purest faith possible? You would have more, not less. You would have the beginning of a new reformation—in your generation, your church, your own soul. You would have primal Christianity. This book is an invitation to become part of a reformation movement. It is an invitation to rediscover the compassion, wonder, curiosity, and energy that turned the world upside down two thousand years ago. It is an invitation to be astonished again.

In a Pit with a Lion on a Snowy Day May 17 2021 Your greatest regret at the end of your life will be the lions you didn't chase. You will look back longingly on risks taken, opportunities not seized, and dreams not pursued. Stop running away from what scares you most and start chasing the God-ordained opportunities that are on your path. In a Pit with a Lion on a Snowy Day is inspired by one of the most obscure yet courageous acts recorded in Scripture, a blessed and audacious act that has no regrets: "Benaiah chased a lion down into a pit. Then, despite the snow and slippery ground, he caught the lion and killed it" (2 Samuel 23:20-21). Unleash the lion chaser within! What if the life you really want, and the future God wants for you, is hiding right now in your biggest problem, your worst failure...your greatest regret? Story Behind the Book "Our best days often start out as our worst days. And our greatest opportunities are often disguised as our biggest problems. You can lay down in a pit with a lion on a snowy day, and it will seem like the end of the road. But God is in the recycling business. He recycles past experiences and uses them to provide future opportunities. That is the story of my life. And that is the story of your life. Look in the rearview mirror long enough and you'll see that God has purposefully positioned you everywhere you've been—even when it seemed you'd taken a wrong turn." —Mark Batterson

Double Blessing May 17 2021 God doesn't bless us to raise our standard of living. God blesses us to raise our standard of giving, and that's where true joy is found. New York Times bestselling author of *Chase the Lion* challenges us not to settle for half of what God offers when it comes to blessings—we are BLESSED to BLESS. The discovery started with a simple experiment. Whenever Batterson received a blessing, he would give a similar blessing away. If someone paid him a compliment or gave him a gift or went out of their way to help him, he would return the favor by doing something similar for someone else. We flip the blessing by blessing others. God has blessed us. That's how the blessing becomes a double blessing. It turns giving into a game—one we can't win because God will always outgive us! It's a simple truth found within the Abrahamic covenant: "I will bless you . . . and you will be a blessing." In other words, we are blessed to bless. The first blessing is receiving; the second doesn't end there. The second blessing is giving it away! That's the double blessing. And that's where double joy is found. In a day and age where the idea of blessing has been reduced to a hashtag (#blessed), Batterson challenges readers to pursue true, God-glorifying blessing and experience an exponential impact by participating in the double blessing. Don't settle for half of what God offers. Discover how you can both get it and give it . . . in *Double Blessing*.

Privacy is Power Aug 27 2019 An Economist BEST BOOK OF THE YEAR As the data economy grows in power, Carissa Véliz exposes how our privacy is eroded by big tech and governments, why that matters and what we can do about it. The moment you check your phone in the morning you are giving away your data. Before you've even switched off your alarm, a whole host of organisations have been alerted to when you woke up, where you slept, and with whom. As you check the news, scroll through your 'suggested friends' on Facebook, you continually compromise your privacy. Without your permission, or even your awareness, tech companies are harvesting your information, your location, your likes, your habits, and sharing it amongst themselves. They're not just selling your data. They're selling the power of your data to influence you. Even when you've explicitly asked them not to. And it's not just you. It's all your contacts too. Digital technology is stealing our personal data and eroding our power to make free choices. To reclaim that power and democracy, we must protect our privacy. What can we do? So much is at stake. Our phones, our TVs, our washing machines are spies in our own homes. We need new regulation. We need to pressure policy-makers for red lines on the data economy. And we need to adopt privacy-friendly alternatives to Google, Facebook and other online platforms. Short, terrifying, practical: *Privacy is Power* highlights the implications of our laid-back attitude to data and sets out how we can take back control. If you liked *The Age of Surveillance Capitalism*, you'll love *Privacy is Power* because it provides a philosophical perspective on the politics of privacy, and it offers a very practical outlook, both for policymakers and ordinary citizens.
