High and Mighty Jul 04 2020 SUVs have taken over America's roads. Ad campaigns promote them as safer and "greener" than ordinary cars and easy to handle in bad weather. But very little about the SUV's image is accurate. They poorly protect occupants and inflict horrific damage in crashes, they guzzle gasoline, and they are hard to control. Keith Bradsher has been at the forefront in reporting the calamitous safety and environmental record of SUVs, including the notorious Ford-Firestone rollover controversy. In *High and Mighty*, he traces the checkered history of SUVs, showing how they came to be classified not as passenger cars but as light trucks, which are subject to less strict regulations on safety, gas mileage, and air pollution. He makes a powerful case that these vehicles are even worse than we suspect--for their occupants, for other motorists, for pedestrians and for the planet itself. In the tradition of *Unsafe at Any Speed* and *Fast Food Nation*, Bradsher's book is a damning exposé of an industry that puts us all at risk, whether we recognize it or not.

Addressing Challenging Moments in Psychotherapy Oct 19 2021 "This practical and helpful volume details how clinicians can work through various and common challenges inherent to psychotherapy, whether within the context of individual, marital, or group settings. Chapters draw upon wisdom gleaned from the author's 48 years as a practicing psychiatrist to address topics such as using countertransference for therapeutic purposes; resistance, especially when it needs to be the focus of the therapy; and a prioritization of exploration over explanation and favor working in the here-and-now. Along with theory and clinical observations, Dr. Gans offers a series of "Clinical Pearls," pithy comments that highlight different interventions to a wide range of clinical challenges. These include patient hostility, the abrupt termination of therapy,

treating a couple that's lost compassionate neutrality, and more. In addition to offering advice and strategies for therapists, the book also addresses foundational concerns like the matter of fees in private practice and the virtue of moral courage on the part of the therapist. Written with clarity, heart, and an abundance of clinical wisdom, *Challenging Moments in Psychotherapy* is essential reading for all clinicians, teachers, and supervisors of psychotherapy"--

685810 May 02 2020 FMCSA, established within the Department of Transportation in January 2000, is charged with reducing crashes involving commercial motor carriers (i.e., large trucks and buses) and saving lives. IT systems and infrastructure serve as a key enabler for FMCSA to achieve its mission. The agency reported spending about \$46 million for its IT investments in fiscal year 2016. In December 2015, the Fixing America's Surface Transportation Act was enacted and required GAO to review the agency's IT, data collection, and management systems. GAO's objectives were to (1) assess the extent to which the agency has plans to modernize its existing systems, (2) assess the extent to which FMCSA has implemented an IT governance structure, and (3) determine the extent to which FMCSA has ensured selected IT systems are effective. To do so, GAO analyzed FMCSA's strategic plan and modernization plans; compared governance documentation to best practices; selected four investments based on operations and maintenance spending for fiscal year 2016, among other factors, and compared assessments for the investments against OMB criteria; and interviewed officials.

Shooter's Bible Guide to Bowhunting May 26 2022 From the most trusted name in guns and ammunition comes this ultimate reference on bowhunting. *The Shooter's Bible Guide to Bowhunting* offers everything you need to know about the sport and its gear, from its origin as a means of survival to modern gear. Compound bows and crossbows have undergone an explosive rise in popularity in recent years, due in part, Dr. Todd A. Kuhn explains, to complex socioeconomic, environmental, and biological factors. As expansive tracts of land vanish, many hunters can no longer pursue game with high-powered rifles. That, plus vast improvements in archery gear, has hunters flocking to compound bows and crossbows as alternatives. In *The Shooter's Bible Guide to Bowhunting* Dr. Kuhn examines all things bowhunting and archery. Topics covered include: Compound, recurve, and traditional bows Arrows and broadheads Sights and rests Releases and triggers Quivers Tree stands, blinds, decoys, and other popular gear This exhaustive desk reference provides a never before seen look into the history and engineering of archery, theories and trends in game discipline, and, of course, an exhaustive catalog of archery equipment both new and traditional.

Life in the Fast Lane Dec 09 2020 Steve Matchett was the rear jack man in the Benetton pit lane team, and was himself engulfed in the terrible fire at Hockenheim. In *Life in the Fast Lane* he reveals the full, inside story of the 1994 season, including the death of Ayrton Senna, the Hockenheim fire, and disqualifications as the Benetton and Williams teams battled for the Drivers' Championship. The final showdown came in Adelaide, the last race of the season, with the controversial accident when Schumacher of Benetton and Hill of Williams collided. Matchett's story of the frantic and unending behind-the-scenes activity in the effort to be the

fastest and best in the world is a fascinating account of the high-pressure world of Formula One motor racing.

Nations Under God Jun 14 2021 'Nations under God: The Geopolitics of Faith in the Twenty-First Century' is a timely contribution to the on-going discussion on religion and politics. The volume brings together over thirty leading scholars from a variety of disciplines such as political science, international relations theory, sociology, theology, anthropology, and geography. Utilising case studies, empirical investigations, and theoretical examinations, this book focuses on the complex roles that religions play in world affairs. It seeks to move beyond the simplistic narratives and overly impassioned polemics which swamp the discourse on the subject in the media, on the internet, and in popular nonfiction, by acting as a vessel for scholarly research on religion. The book presents a balanced analysis of the multifaceted roles taken on by religions, and religious actors, in global politics. Contributors: Stephen Dawson, Jodok Troy, Gertjan Dijkink, John A. Rees, Mark S. Cladis, Fabio Petito, Linda Woodhead, Jonathan Fox, Brendan Sweetman, Don Handelman, Scott W.
