**Rationality** Mar 27 2022 Examining the role of implicit, unconscious thinking on reasoning, decision making, problem solving, creativity, and its neurocognitive basis, for a genuinely psychological conception of rationality. This volume contributes to a current debate within the psychology of thought that has wide implications for our ideas about creativity, decision making, and economic behavior. The essays focus on the role of implicit, unconscious thinking in creativity and problem solving, the interaction of intuition and analytic thinking, and the relationship between communicative heuristics and thought. The analyses move beyond the conventional conception of mind informed by extra-psychological theoretical models toward a genuinely psychological conception of rationality—a rationality no longer limited to conscious, explicit thought, but able to exploit the intentional implicit level. The contributors consider a new conception of

**The Cultural Encyclopedia of Baseball, 2d ed.** Nov 03 2022 More than any other sport, baseball has developed its own niche in America's culture and psyche. Some researchers spend years on detailed statistical analyses of minute parts of the game, while others wax poetic about its players and plays. Many trace the beginnings of the civil rights movement in part to the Major Leagues' decision to integrate,

and the words and phrases of the game (for example, pinch-hitter and out in left field) have become common in our everyday language. From AARON, HENRY onward, this book covers all of what might be called the cultural aspects of baseball (as opposed to the number-rich statistical information so widely available elsewhere). Biographical sketches of all Hall of Fame players, owners, executives and umpires, as well as many of the sportswriters and broadcasters who have won the Spink and Frick awards, join entries for teams, owners, commissioners and league presidents. Advertising, agents, drafts, illegal substances, minor leagues, oldest players, perfect games, retired uniform numbers, superstitions, tripleheaders, and youngest players are among the thousands of entries herein. Most entries open with a topical quote and conclude with a brief bibliography of sources for further research. The whole work is exhaustively indexed and includes 119 photographs.

*No Lost Causes* Sep 01 2022 One of the most inspiring and successful global leaders of the early 21st century explains how bold, imaginative leadership can solve even the most intractable problems—and why there is no such thing as a lost cause. It's one of the great, unexpected turnaround stories in modern history: Just a decade ago, Colombia was regarded as a "failed state," besieged by megalomaniacal drug kingpins, ruthless terrorist groups, and abominable poverty. But since 2002, it has been dramatically transformed into a far more peaceful, stable modern democracy with a promising future. Now, the man who led the transformation, former Colombian president Alvaro Uribe Velez, offers the untold story of how, at enormous personal risk, he refused to accept Colombia's perilous status quo.

Extremely captivating, *No Lost Causes* reveals how President Uribe severely weakened the neo-

terrorist group, the FARC, which held Colombia captive and caused the brutal murder of his father. It relates the gripping account of how President Uribe staged the daring (and bloodless) jungle rescue of Ingrid Betancourt in 2008, and eventually restored the rule of law across the country. It also explores practical lessons of hands-on management—relevant to both political and business leaders—and provides a thrilling behind-the-scenes look at news-making US foreign affairs and never before discussed details and dealings with various world leaders. Unlike any other presidential memoir, *No Lost Causes* is not only a compelling story of leadership, but an epic, heart-racing account of how bravery and hope gave a failing nation a brighter future.

**The Lost Writings of Wu Hsin** Dec 24 2021 Wu Hsin repeatedly returns to three key points. First, on the phenomenal plane, when one ceases to resist What-Is and becomes more in harmony with It, one attains a state of Ming, or clear seeing. Having arrived at this point, all action becomes wei wu wei, or action without action (non-forcing) and there is a working in harmony with What-Is to accomplish what is required. Second, as the clear seeing deepens (what he refers to as the opening of the great gate), the understanding arises that there is no one doing anything and that there is only the One doing everything through the many and diverse objective phenomena which serve as Its

instruments. From this flows the third and last: the seemingly separate me is a misapprehension, created by the mind which divides everything into pseudo-subject (me) and object (the world outside of this me). This seeming two-ness (dva in Sanskrit, duo in Latin, dual in English), this feeling of being separate and apart, is the root cause of unhappiness.

[Kings and Sorcerers Bundle \(Books 4 and 5\)](#) Oct 29 2019 "An action packed fantasy sure to please fans of Morgan Rice's previous novels, along with fans of works such as The Inheritance Cycle by Christopher Paolini.... Fans of Young Adult Fiction will devour this latest work by Rice and beg for more." --The Wanderer, A Literary Journal (regarding Rise of the Dragons) A bundle of books #4 (A FORGE OF VALOR) and #5 (A REALM OF SHADOWS) in Morgan Rice's #1 Bestselling fantasy series KINGS AND SORCERERS, comprising 6 books. The series begins with RISE OF THE DRAGONS (Book #1), a free download on Amazon with over 500 five star reviews! In A FORGE OF VALOR, Kyra slowly returns from the verge of death, healed by Kyle's love and mysterious power. As he sacrifices for her, she regains her strength—yet not without a price. She presses Alva for the secret of her lineage, and he finally reveals all about her mother. Aidan, Motley at his side, strives to rescue his father, trapped in the perilous capital, while in the far corner of the kingdom, Merk, amazed by what he discovers in the Tower of Ur, braces himself against a massive troll invasion. Dierdre finds herself facing a full-fledged Pandesian invasion in her embattled city of Ur. In A REALM OF SHADOWS, Kyra finds herself in the midst of a burning capital, attacked by a host of dragons, clinging for life. With her beloved homeland destroyed, The Flames down and the trolls pouring in, Kyra must urgently quest to Marda to retrieve the magic weapon before it is too late—even if it takes her into the very heart of darkness. Duncan finds himself trapped, with the others, in the burning capital, and he uses all his wits to find his men, attempt escape, and rally his forces to regroup and attack Pandesia. Across the kingdom, Merk sails with King Tarnis' daughter through the Bay of Death as they abandon the Tower of Kos and sail for the warrior isle of Knossos. With its strong

**Ochratoxigenic Fungi** Jun 05 2020 Toxigenic Fusarium species and ochratoxigenic fungi are responsible for various plant diseases which have important consequential effects on both human and animal health worldwide. The development of rapid, robust and sensitive detection methods based on new molecular technologies is urgently needed in order to identify fungal contamination in the field and quantify toxin accumulation in food and animal feed. Most of the contributions in this special issue are from results obtained through the EU 5th Framework project (QLKI-CT-1998-01380) "DETOX-FUNGI: early detection of toxigenic Fusarium species and ochratoxigenic fungi in plant products", which has strongly stimulated interaction and co-operation between many European scientists. Valuable contributions from other scientists have guaranteed a complete overview of this stimulating and interesting topic. This is the third special issue published in the European Journal of Plant Pathology concerning mycotoxigenic fungi under the aegis of COST Action 835 'Agriculturally Important Toxigenic Fungi'. The first two dealt with 'Mycotoxins in Plant Disease' (Vol. 108(7) 2002) and 'Epidemiology of Mycotoxin Producing Fungi' (Vol. 109(7) 2003). The present issue contains contributions which cover aspects of molecular diversity, phylogeny and PCR-detection of toxigenic Fusarium species and various ochratoxigenic fungi. We hope these will prove helpful to researchers involved in similar work and will stimulate the future studies required for the early detection of these fungi, which is so essential for overcoming the health risks associated with mycotoxin-contaminated food products.

**Goods By Sea** Jul 07 2020 Cases Materials on the Carriage of Goods by Sea includes a collection of legislative material, standard form contracts and up-to-date coverage of English case law. It covers the major areas of chartering and bills of lading, as well as matters such as exclusion and limitation of liability. This edition has been comprehensively updated and adds the latest cases to its strong coverage of classic authorities. Notable additions in the chapters dealing with bills of lading include *The Starsin*,

*The Rafaela S*, *Motis Exports* and *The David Agmashenebeli*. On the Carriage of Goods by Sea Act 1992, the important decisions of *The Berge Sisar* and *East West Corp* are incorporated, while key recent decisions on chartering, such as *The Hill Harmony*, *The Happy Day* and *The Stolt Spur* are fully treated. This book provides an up-to-date collection of materials relating to the carriage of goods by sea which will be of value to both students of law and legal practitioners.
