Plunkett's Investment & Securities Industry Almanac 2008 Jun 27 2022 The investment and securities industry is rebounding from the dismal markets of the early 2000s. Improved corporate profits, low interest rates and efforts to improve corporate governance have led the way, despite recent scandals in the mutual funds industry. Meanwhile, the investment industry is increasingly a global business. This is partly due to the needs of multinational corporations to list their stocks or issue debt in more than one nation. For example, ADRs (American Depository Receipts) are increasingly popular instruments. Cross-border investments and acquisitions continue at a rapid pace. Discount brokerages are enjoying improved levels of trading, while investment banks are developing new ways to create lucrative fees. This carefully-researched book (which includes a database of leading companies on CD-ROM) is a complete investments, securities and asset management market research and business intelligence tool -- everything you need to know about the business of investments, including: 1) Investment banking, 2) Stock brokers, 3) Discount brokers, 4) Online brokers, 5) Significant trends in financial information technologies, 6) Asset management, 7) Stock ownership by individuals and households, 8) 401(k)s and pension plans, 9) Mutual funds, 10) ETFs (Exchange traded funds), 11) ECNs (Electronic Communication Networks), 12) Developments at the NYSE and other exchanges. The book includes a complete chapter of vital industry statistics, an industry glossary, a complete list of industry contacts such as industry associations and government agencies, and our in-depth profiles of more than 300 leading firms in the investment and asset management business. A CD-ROM database of these firms is included with the book.

Gender in Agriculture Oct 20 2021 The Food and Agriculture Organization of the United Nations (FAO) produced a 2011 report on women in agriculture with a clear and urgent message: agriculture underperforms because half of all farmers--women--lack equal access to the resources and opportunities they need to be more productive. This book builds on the report's conclusions by providing, for a non-specialist audience, a compendium of what we know now about gender gaps in agriculture.

Brief Coaching Oct 08 2020 Brief Coaching offers a new approach to coaching by considering how the client will know when they have reached their goal, and what they are already doing to get there. The coach aims to work towards the solution rather than working away from the problem, so that the client's problem is not central to the session, but instead the coach and the client work towards the client's preferred future. This book employs case examples and transcripts of sessions to offer guidance on: looking for resources rather than deficits exploring possible and preferred futures examining what is already contributing to that future treating clients as experts in all aspects of their lives. This practical guide includes summaries and activities for the coach to do with the client and will therefore be a useful tool for both new and experienced coaches, as well as therapists branching into coaching who want to add to their existing skills.

Telecom Management in Emerging Economies Sep 18 2021 This book discusses the ideas, interventions (by different players) and technological revolutions that have transformed the telecom industry to propel it towards a growth cycle. Pursuing a comprehensive approach, it examines highly topical issues in depth, e.g. mobile data security via 4G, the new industrial revolution, green telecommunications, and consumer awareness of radio signals. Along with input from regulators, government organizations and industry players, expert opinion columns in each chapter clearly present the viewpoints of the industry and ministry. Several graphical tools are used throughout the book, helping readers to contemplate the text in different ways and to make concepts more "hands-on." Readers will also gain a holistic perspective of the industry (key players, regulatory bodies and the consumer) and a clearer understanding of various policy issues and their implementation mechanisms, business dynamics and technology issues in this sector.
